## **NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**1. NATURE AND CONTINUANCE OF OPERATIONS**

The Gummy Project Inc. (the “Company”, Formerly Potent Ventures Inc.) was incorporated pursuant to the provisions of the *British Columbia Business Corporations Act* on September 21, 2017. The Company’s registered and records office address is 1066 West Hastings Street, Vancouver BC V6E 3X1. On May 26, 2022, the Company changed its name from Potent Ventures Inc. to The Gummy Project Inc.

The Company markets and distributes a line of low sugar branded gummies.

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, obtain the necessary financing to meet its near-term obligations such that it can repay its liabilities when they become due. The inability to achieve these objectives may cast significant doubt about the Company’s ability to continue as a going concern.

On October 31, 2022, the Company completed a consolidation of its common shares (“share consolidation”) on the basis of one post-consolidation common share for every ten pre-consolidation common shares held (10-to-1). All references contained in these consolidated financial statements to issued and outstanding common shares, warrants, per share amounts, and exercise prices, have been retroactively restated to reflect the effect of the share consolidations.

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The Company has incurred a net loss of \$303,539 and accumulated deficit of \$54,142,909 for the period ended March 31, 2023, and the Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, obtain the necessary financing to meet its near-term obligations such that it can repay its liabilities when they become due. The inability to achieve these objectives may cast significant doubt about the Company’s ability to continue as a going concern.

**THE GUMMY PROJECT INC.**

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

**2. BASIS OF PRESENTATION****Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) in accordance with International Accounting Standards 34, “*Interim Financial Reporting*” (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”), and interpretations of the IFRS Interpretations Committee (“IFRIC”).

**Basis of measurement**

These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

**Presentation and functional currency**

The consolidated financial statements of the Company are presented in United States dollars. The functional currency of the Company is the Canadian dollar. The functional currency of the Company’s wholly owned subsidiaries is detailed below.

**Consolidation**

These consolidated financial statements include the accounts of the Company and its subsidiaries, which are controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity and be exposed to the variable returns from its activities. The list below sets out the principal subsidiaries of the Company. These subsidiaries engage in intercompany transactions, all of which are eliminated upon the preparation of these consolidated financial statements:

---

<b>Name of subsidiary</b>	<b>Country of Incorporation</b>	<b>Percentage Ownership</b>	<b>Functional Currency</b>	<b>Principal Activity</b>
The Gummy Project Holdings Inc.	USA	100%	USD	Holding Company
The Gummy Project, LLC	USA	100%	USD	Inactive
The Gummy Project WA, LLC	USA	100%	USD	Inactive
Elevation Growers Ltd.	CAN	100%	CAD	Inactive
Northern Lights Organics Inc.	CAN	70%	CAD	Inactive

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**3. USE OF ESTIMATES, ASSUMPTIONS, AND JUDGEMENTS**

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements, and the reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods.

**Impairment of long-lived assets**

Long-lived assets, including property and equipment, are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds its recoverable amount. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets (CGU). The recoverable amount of an asset or a CGU is the higher of its fair value, less costs to sell, and its value in use. If the carrying amount of an asset exceeds its recoverable amount, an impairment charge is recognized immediately in profit or loss by the amount by which the carrying amount of the asset exceeds the recoverable amount. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the lesser of the revised estimate of recoverable amount, and the carrying amount that would have been recorded had no impairment loss been recognized previously.

**Share-based compensation**

The Company utilizes the Black-Scholes option pricing model to estimate the fair value of warrants and stock options granted to directors, officers, employees, consultants. The use of the Black-Scholes option pricing model requires management to make various estimates and assumptions that impact the value assigned to the stock options including the forecast future volatility of the stock price, the risk-free interest rate, dividend yield and the expected life of the stock options. Any changes in these assumptions could have a material impact on the share-based compensation calculation value; however, the most significant estimate is the volatility. The Company estimated volatility based on historic share prices. Historical volatility is not necessarily indicative of future volatility. The expected life of stock options or warrants is determined based on the estimate that they would be exercised evenly over their term. There was no recent history of stock option exercises available to consider in the estimate of expected life at the time of grant.

**THE GUMMY PROJECT INC.**

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**4. SIGNIFICANT ACCOUNTING POLICIES**

**Foreign currencies**

*Functional and presentation currency*

The functional currency is the currency of the primary economic environment in which the entity operates. The functional currency of the Company and its subsidiaries was determined by conducting an analysis of the consideration factors identified in IAS 21, “*The Effects of Changes in Foreign Exchange Rates*” (“IAS 21”). The functional currency of the Company and its subsidiaries is included within Note 2.

*Translation of foreign transactions and balances into the functional currency*

Foreign currency transactions are translated into the functional currency of the Company at rates of exchange prevailing on the dates of the transactions. At each reporting date, all monetary assets and liabilities that are denominated in foreign currencies are translated to the functional currency of the Company at the rates prevailing at the date of the statement of financial position. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss.

*Translation of the functional currency into the presentation currency*

The results of operations which have a different presentation currency than the Company are translated to US dollars at appropriate average rates of exchange during the period. The assets and liabilities of these operations are translated to US dollars at rates of exchange in effect at the end of the period. Gains or losses arising on translation of these operations to US dollars at period end are recognized in accumulated other comprehensive income as a translation adjustment.

**Share-based compensation**

The Company may grant stock options to acquire common shares of the Company to directors, officers, employees and consultants. An individual is classified as an employee when the individual is an employee for legal or tax purposes or provides services similar to those performed by an employee.

The fair value of stock options is measured on the date of grant, using the Black-Scholes option pricing model, and is recognized over the vesting period. Consideration paid for the shares on the exercise of stock options is credited to share capital.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based compensation. Otherwise, share-based payments are measured at the fair value of goods or services received.

**THE GUMMY PROJECT INC.**

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Income taxes**

Income tax on the profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is recorded by providing for temporary differences, between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities which affect neither accounting nor taxable loss as well as differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the consolidated statement of financial position date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Additional income taxes that arise from the distribution of dividends are recognized at the same time as the liability to pay the related dividend. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

**Loss per share**

The Company presents basic loss per share for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

**THE GUMMY PROJECT INC.**

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Financial instruments**

Financial assets

On initial recognition, financial assets are recognized at fair value and are subsequently classified and measured at: (i) amortized cost; (ii) fair value through other comprehensive income (“FVOCI”); or (iii) fair value through profit or loss (“FVTPL”). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. A financial asset is measured at fair value net of transaction costs that are directly attributable to its acquisition except for financial assets at FVTPL where transaction costs are expensed. All financial assets not classified and measured at amortized cost or FVOCI, are measured at FVTPL. On initial recognition of an equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income.

The classification determines the method by which the financial assets are carried on the statement of financial position subsequent to inception and how changes in value are recorded.

Impairment

An ‘expected credit loss’ impairment model applies which requires a loss allowance to be recognized based on expected credit losses. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset’s original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Financial liabilities

Financial liabilities are designated as either: (i) FVTPL; or (ii) other financial liabilities. All financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities at FVTPL. The classification determines the method by which the financial liabilities are carried on the statement of financial position subsequent to inception and how changes in value are recorded. Accounts payable and accrued liabilities is classified on the statement of financial position at amortized cost.

**Inventory**

Inventories of finished goods and packing materials are valued initially at cost and subsequently at the lower of cost and net realizable value. Inventory consists of low sugar gummy products and product packaging. Net realizable value is determined as the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost is determined using the weighted average cost basis. Products for resale and supplies and consumables are valued at the lower of cost and net realizable value. The Company reviews inventory for obsolete and slow-moving goods and any such inventory is written down to net realizable value. During the period, the Company expensed \$8,787 of inventory to cost of goods sold (March 31, 2021 - \$Nil).

**4. SIGNIFICANT ACCOUNTING POLICIES**

**Impairment of non-financial assets**

The Company reviews the carrying amounts of its non-financial assets, including property and equipment and other non-current assets, when events or changes in circumstances indicate the assets may not be recoverable. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. Assets carried at fair value are excluded from impairment analysis.

The recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows to be derived from continuing use of the asset or cash generating unit are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Fair value less costs of disposal is the amount obtainable from the sale of an asset or cash generating unit in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal. When a binding sale agreement is not available, fair value less costs of disposal is estimated using a discounted cash flow approach with inputs and assumptions consistent with those of a market participant. If the recoverable amount of an asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. An impairment loss is recognized immediately in net income. Where an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized.

**Property and equipment**

Property and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on a straight-line basis over the term of the office lease.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising from derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying value of the asset) is included in the profit or loss in the period the asset is derecognized. The assets' residual values, useful lives and methods of depreciation are reviewed at each reporting date, and adjusted prospectively, if appropriate.

**THE GUMMY PROJECT INC.**

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Revenue**

The Company's accounting policy for revenue recognition under IFRS 15 is as follows:

To determine the amount and timing of revenue to be recognized, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognizing revenue when/as performance obligation(s) are satisfied.

Revenue from the direct sale of gummies for a fixed price is recognized when the Company transfers control of the gummies to the customer upon delivery.

**Share capital**

Common shares are classified as shareholders' equity. Incremental costs directly attributable to the issue of common shares and other equity instruments are recognized as a deduction from shareholders' equity. Common shares issued for consideration other than cash, are valued based on their market value at the date the shares are issued.

The Company has adopted a residual value method with respect to the measurement of warrants attached to private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. The Company considers the fair value of common shares issued in the private placements to be the more easily measurable component and the common shares are valued at their fair value, as determined by the closing market price on the announcement date. The balance, if any, is allocated to the attached warrants. Any fair value attributed to the warrants is recorded as reserves.

**Non-controlling interest**

Non-controlling interest in the Company's less than wholly owned subsidiaries is classified as a separate component of equity. On initial recognition, non-controlling interest is measured at the fair value of the non-controlling entity's contribution into the related subsidiary. Subsequent to the original transaction date, adjustments are made to the carrying amount of non-controlling interest for the non-controlling interest's share of changes to the subsidiary's equity.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are recorded as equity transactions. The carrying amount of non-controlling interest is adjusted to reflect the change in the non-controlling interest's relative interest in the subsidiary, and the difference between the adjustment to the carrying amount of non-controlling interests and the Company's share of proceeds received and/or consideration paid is recognized directly in equity and attributed to owners of the Company.

**THE GUMMY PROJECT INC.**

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**4. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Leases**

To identify a lease, the Company (1) considers whether an explicit or implicit asset is specified in the contract and (2) determines whether the Company obtains substantially all the economic benefits from the use of the underlying asset by assessing numerous factors, including but not limited to substitution rights and the right to determine how and for what purpose the asset is used.

When assessing the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option or to not exercise a termination option. This judgment is based on factors such as contract rates compared to market rates, economic reasons, significance of leasehold improvements, termination and relocation costs, installation of specialized assets, residual value guarantees, and any sublease term.

The Company has elected not to recognize right-of-use assets and lease liabilities for low-value assets or short-term leases with a term of 12 months or less. These lease payments are recognized in operating expenses over the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid. The Company elected to not separate non-lease components from lease components and to account for the non-lease and lease components as a single lease component. Lease payments generally include fixed payments less any lease incentives receivable. The lease liability is discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company estimates the incremental borrowing rate based on the lease term, collateral assumptions, and the economic environment in which the lease is denominated. The lease liability is subsequently measured at amortized cost using the effective interest method. The lease liability is remeasured when the expected lease payments change as a result of new assessments of contractual options and residual value guarantees.

The right-of-use asset is recognized at the present value of the liability at the commencement date of the lease less any incentives received from the lessor. Added to the right-of-use asset are initial direct costs, payments made before the commencement date, and estimated restoration costs. The right-of-use asset is subsequently depreciated on a straight-line basis from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Upon adoption of IFRS 16, the Company recorded a right of use asset of \$16,947 and a lease liability of a corresponding amount. The right of use asset was measured at the present value of the remaining lease payments, discounted using the Company's weighted average incremental borrowing rate of 15%.

**5. RECENT ACCOUNTING PRONOUNCEMENTS**

**Recent accounting policies**

The Company has not yet adopted certain standards, interpretations to existing standards and amendments which have been issued but have an effective date on or later than January 1, 2023. Many of these updates are not currently relevant to the Company and are therefore not discussed herein.

**9. SHARE CAPITAL AND RESERVES**

**Authorized**

Unlimited common shares with no par value and unlimited preferred shares with no par value. As of March 31, 2023, there were 12,250,109 common shares outstanding (September 30, 2022 – 12,250,109).

**Escrow Shares**

The Company has shares subject to trading restrictions and escrow which are released in tranches through 2022. As at December 31, 2022, a total of Nil common shares were subject to these escrow restrictions.

**Issued and Outstanding – Common Shares Fiscal 2022:**

None.

**Issued and Outstanding – Common Shares Fiscal 2022:**

On October 13, 2021, the Company closed a non-brokered private placement of 1,543,000 units at a price of CAD \$0.40 per unit, raising gross proceeds of \$495,942 (CAD \$617,200). Each unit consists of one common share and one share purchase warrant entitling the holder to purchase an additional common share for CAD \$0.50 for a period of 2 years from the issue date. The Company paid finder's fees of \$24,440 (CAD \$30,416) in cash and issued 76,040 finder's warrants. The finder's warrants hold the same terms of the warrants issued as part of the Units. The grant date fair value of the broker warrants was \$9,165, using the Black-Scholes option pricing model with the following assumptions: expected life – 2 years, expected volatility – 80%, dividend yield - \$0, and risk-free rate – 0.23%.

On December 22, 2021, the Company issued 85,714 common shares of the Company at a value of CAD\$0.35 per share for services provided with a fair value of \$23,319.

On February 17, 2022, the Company issued 140,000 common shares of the Company at a value of CAD\$0.30 per share for services with a fair value of \$33,084.

On March 4, 2022, the Company closed a non-brokered private placement of 1,300,000 units at a price of CAD \$0.25 per Unit, raising gross proceeds of \$254,902 (CAD \$325,000). Each unit consists of one common share and one share purchase warrant entitling the holder to purchase an additional common share for CAD \$0.50 for a period of 2 years from the issue date. All of the securities issuable in connection with the offering will be subject to a hold period expiring four months and one day after date of issuance. The Company paid finder's fees of \$9,255 (CAD \$11,800) in cash and issued 47,000 finder's warrants. The finder's warrants hold the same terms of the warrants issued as part of the Units. The grant date fair value of the broker warrants was \$2,314, using the Black-Scholes option pricing model with the following assumptions: expected life – 2 years, expected volatility – 80%, dividend yield - \$0, and risk-free rate – 1.55%.

On May 17, 2022, the Company issued 133,334 common shares of the Company at a value of CAD\$0.30 per share for services provided with a fair value of \$31,167.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

**10. SHARE CAPITAL AND RESERVES (Continued)****Warrants (Continued)**

During the period ended March 31, 2023, the Company recorded share issue costs of \$Nil (2021 - \$9,013) with respect to Nil (2021 - 7,640) broker warrants granted as finders' fees. The weighted average assumptions used in calculating the fair value using the Black-Scholes option pricing model are as follows:

	<b>March 31, 2023</b>	<b>March 31, 2023</b>
Risk-free interest rate	NA	0.23%
Expected life	NA	2
Annualized volatility	NA	80%
Dividend rate	NA	0%
Weighted average fair value per warrant (\$CAD)	NA	\$0.06

**Stock options**

The Company has adopted a stock option plan (the "Plan") for its directors, officers, employees and consultants to acquire common shares of the Company at a price determined by the fair market value of the shares at the date immediately preceding the date on which the option is granted. The aggregate number of stock options granted shall not exceed 20% of the issued and outstanding common shares of the Company at the time of shareholder approval of the plan, with no one individual being granted more than 5% of the issued and outstanding common shares. In addition, the exercise price of stock options granted under the plan shall not be lower than the exercise price permitted by the CSE, and all stock options granted under the plan will have a maximum term of seven years.

A summary of stock option activity is as follows:

	<b>Number of Options</b>	<b>Weighted Average Exercise Price (\$CAD)</b>
Balance at September 30, 2021	1,619,200	0.7400
Granted	170,000	0.5000
Balance at September 30, 2022	1,789,200	0.7171
Cancelled	(1,664,800)	0.7241
Granted	2,300,000	0.0600
Balance at March 31, 2023	2,424,400	0.0889

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

**11. RELATED PARTY TRANSACTIONS****Key management personnel**

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers and/or companies controlled by those individuals.

During the periods ended March 31, 2022, and 2021, the Company entered the following key management transactions:

	<b>March 31,</b>	<b>March 31,</b>
<b>Key Management Remuneration:</b>	<b>2023</b>	<b>2023</b>
	<b>\$</b>	<b>\$</b>
Charlie Lamb - CEO, Director	68,634	38,748
Robert Payment - CFO, Director	53,136	29,998
Brian Keane - Director	4,000	7,500
Michael Hopkinson - Director	1,844	-
Anthony Gindin - CMO	8,856	-
<b>Total</b>	<b>136,470</b>	<b>76,246</b>

Share-based compensation of \$17,839 (2022 -\$Nil) was related to director and officers. Accounts payable or accrued liabilities owing to related parties was \$86,627 (September 30, 2022 - \$27,543). Robert Payment forgave debt of CAD \$72,000 during the period ended March 31, 2023.

---

**12. FINANCIAL INSTRUMENTS**

**Fair value**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

Cash and investments are carried at fair value using a level 1 fair value measurement. The recorded values of trade receivables, accounts payable and accrued liabilities approximate their fair values due to their short-term to maturity.

**Financial risk management**

The Company's risk exposures and the impact on the Company's financial instruments are summarized below.

*Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and trade receivables. Cash is held with reputable Canadian and United States financial institutions, from which management believes the risk of loss is remote. The Company's maximum credit risk exposure is equivalent to the carrying value of these instruments. As of March 31, 2023, the Company had \$19,424 trade receivables with reputable customers.

*Interest rate risk*

The Company is exposed to interest rate risk to the extent that the cash maintained at the financial institutions is subject to a floating rate of interest. The interest rate risk on cash is not considered significant.

*Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2023, the Company's financial liabilities consist of accounts payable and accrued liabilities which have contractual maturities within one year. The Company manages liquidity risk by reviewing its capital requirements on an ongoing basis and is in need of additional liquidity imminently.

*Foreign currency risk*

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. As at March 31, 2023, the Company had cash, investments, and accounts payable and accrued liabilities, denominated in Canadian dollars ("CAD"). A 10% fluctuation in the foreign exchange rate between the USD and Canadian dollar would not have a significant impact on profit or loss for the period. The Company does not undertake currency hedging activities to mitigate its foreign currency risk.

**THE GUMMY PROJECT INC.**

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

March 31, 2023

(Expressed in United States Dollars unless otherwise noted) – (UNAUDITED)

---

**13. CAPITAL MANAGEMENT**

The Company defines capital as equity. The Company manages its capital structure and makes adjustments in order to have the funds available to support its operating activities.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern and to pursue the development of its business. The Company manages its capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new equity instruments, new debt, or acquire and/or dispose of assets. As discussed in Note 1, the Company's ability to continue as a going concern is uncertain and dependent upon the continued financial support of its shareholders, future profitable operations, and securing additional financing. Management reviews its capital management approach on an ongoing basis. There were no changes in the Company's approach to capital management during the years presented. The Company is not subject to externally imposed capital requirement.

**15. SEGMENTED INFORMATION**

During the period ended March 31, 2023, the Company operated in one segment, the sales and distribution of low sugar plant-based gummies in Canada. The corporate head office and all non-current assets are located in Canada.
