1. NATURE OF OPERATIONS AND GOING CONCERN UNCERTAINTY

Plank Ventures Ltd. (the "Company") was incorporated on May 1, 2013, under the Business Corporations Act. On February 22, 2019, the Company completed a plan of arrangement ("Plan of Arrangement") with its former parent, Mobio Technologies Inc. ("Mobio"), cancelling 15,265,211 common shares owned by Mobio and issuing 38,147,546 common shares to the shareholders of Mobio.

The Company invests in business opportunities in the technology arena. The target investments are early-stage start-ups that already have developed a customer and revenue base and are seeking funding for expansion.

These condensed consolidated interim financial statements have been prepared using the going concern assumption, which assumes that the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. As at January 31, 2020, the Company has an accumulated deficit of $6,697,343 and currently has minimal revenue generating activities.

The continuing operations of the Company are dependent upon its ability to develop profitable operations in the future and to raise adequate financing, if necessary. The application of the going concern concept is dependent on the Company's ability to achieve viable operations and access financing. Management is of the opinion that additional working capital can be obtained from internal and external sources to meet the Company's liabilities and commitments.

There can be no assurance that the Company will be successful in achieving profitability or raising additional cash to finance operations. These conditions indicate existence of material uncertainties that may cause doubt about the Company's ability to continue as a going concern. The condensed consolidated interim financial statements do not include any adjustments relating to the recoverability of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

These condensed consolidated interim financial statements were authorized for issue on March 20, 2020, by the Board of Directors of the Company.

Statement of Compliance
These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements do not include all of the information required for full annual audited financial statements and should be read in conjunction with the annual audited financial statements of the Company for the years ended July 31, 2019, and 2018.

Functional and Presentation Currency
The condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's and its subsidiary's functional currency.

Use of estimates and judgments
The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. An area subject to significant estimates is the impairment of financial and non-financial assets. Actual results

2. BASIS OF PRESENTATION (CONT'D)

Use of estimates and judgments (cont'd)

could differ from those estimates.

The most significant judgement applied in the preparation of these condensed consolidated interim financial statements relate to the carrying value of the Company's investments (Note 5). The Company invests in start-up technology companies whose products and services are under development. The successful development and commercialization of these products and services is subject to a high degree of risk. Judgement is applied in the consideration of the fair value of investments at each reporting period.

Management has applied judgments in the assessment of the Company's ability to continue as a going concern when preparing its financial statements for the period ended January 31, 2020. Management prepares the condensed consolidated interim financial statements on a going concern basis unless management either intends to liquidate the entity or to cease trading or has no realistic alternative but to do so. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management considered a wide range of factors relating to current and expected profitability, current working capital levels, and potential sources of replacement financing.

As a result of the assessment and, as described in Note 1, management concluded the going concern basis of accounting is appropriate based on its cash flow forecast and expectations with respect to access to financing for the next twelve months.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

3. NEW ACCOUNTING STANDARDS AND POLICIES

Leases

On August 1, 2019, the Company adopted IFRS 16. IFRS 16 is a new standard which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both the lessee and the lessor. It introduces a single lessee accounting model that requires the recognition of all assets and liabilities arising from a lease. The adoption of this new standard did not have a material impact on the condensed consolidated interim financial statements as the Company has no leases.

5. INVESTMENTS

On August 30, 2018, the Company purchased 945,945 units of ThinkCX Technologies Inc. ("ThinkCX"), for $350,000. Each unit consisted of one Series 1 Class A preferred share and one Series 1 Class A preferred share purchase warrant. Each share purchase warrant entitles the Company to purchase an additional Series 1 Class A preferred share of ThinkCX at a price of $0.37 until August 23, 2019.

On January 19, 2019, the Company received 333,140 Series 1 seed preferred shares of SiteMax Systems Inc. ("SiteMax") with a fair value of $276,507 from Mobio in connection with the Plan of Arrangement between the Company and Mobio with a corresponding increase in the loan due to Mobio.

On January 29, 2019, the Company entered into an agreement to purchase 337,301 Series 2 seed preferred shares of SiteMax for $600,000. The Company paid $425,000 and is committed to advance an additional amount of $175,000 upon SiteMax achieving $80,000 in monthly recurring revenue. During the period ended January 31, 2020, the Company advanced an additional amount of $107,500 to SiteMax.

On February 22, 2019, in accordance with the Plan of Arrangement, Mobio transferred various investments with a fair value of $705,666 to the Company with a corresponding increase in the loan to Mobio. Investees included, among others, 500 Startups Canada, L.P. ("500 Startups") and Sockeye Technologies Inc. ("Sockeye"). During the period ended January 31, 2020, the Company earned interest income of $11,090 on an unsecured convertible promissory note from Sockeye and received $5,532 in return of capital from 500 Startups.

During the period ended January 20, 2020, the Company sold 789 preferred shares of Blue Mesa Health Inc. ("Blue Mesa") for proceeds of $241,344 (US$185,521), of which $208,477 (US$157,579) is included in accounts receivable at January 31, 2020. The Company incurred a loss of $97 on the sale. The Company is also entitled to amounts in escrow and contingent consideration which will not be recorded as proceeds until received.

On July 9, 2019, the Company entered into an agreement to loan $25,000 to ThinkCX. The loan is secured by a convertible promissory note that bears interest at 12% per annum and is due July 9, 2021. The promissory note is convertible into preferred shares of ThinkCX. During the period ended

5. INVESTMENTS (CONT'D)

January 31, 2020, the Company earned interest income of $1,513 on the loan.

On July 22, 2019, the Company entered into an agreement to loan US $13,628 ($18,298) to Blue Mesa. The loan is secured by a promissory note that bears interest at 12% per annum and is due 90 days from the date of the agreement. The loan was subsequently amended on August 22, 2019, September 26, 2019, and November 20, 2019, to extend the maturity date for an additional 90 days. During the period ended January 31, 2020, the Company earned interest income of $1,088 on the loan.

On October 16, 2019, the Company entered into an agreement to loan $20,000 to ThinkCX. The loan is secured by a convertible promissory note that bears interest at 12% per annum and is due October 16, 2021. The promissory note is convertible into preferred shares of ThinkCX. During the period ended January 31, 2020, the Company earned interest income of $710 on the loan.

The Company purchased 333,334 Series B Convertible Preferred Shares ("Series B Shares") in the capital of Votigo Inc. ("Votigo"), for a price of USD $0.90 per Series B Share, or USD $300,000 in the aggregate. The Company will be purchasing an additional 777,777 Series B Shares at USD $0.90 per Series B Share, or USD $699,999 in the aggregate, no later than the one-year anniversary of the closing. The Company is the only holder of Series B Shares.

As part of the transaction, the Company also purchased 834,349 Series A Convertible Preferred Shares ("Series A Shares") out of a total issued and outstanding 1,668,695 Series A Shares, for a purchase price of $0.8333 per Series A Share, or USD $695,263 in the aggregate. USD $347,632 of the purchase price was paid in cash at closing, and the remainder $347,631 will be paid in shares of Plank if Plank's shares become listed on a securities exchange, at a volume weighted average price of Plank's shares for the first 30 days of listing. If the Company does not list its shares on an exchange prior to nine months after closing, then it must pay the remainder of the purchase price in cash.

The Company owns 25.35% of Votigo and, as such, is deemed to have significant influence over Votigo. In accordance with International Accounting Standard 28, the Company recognized its share of the net loss of Votigo from the date of acquisition and recorded an equity loss of $64,563 in the condensed consolidated interim statement of loss and comprehensive loss for the period ended January 31, 2020.

Fees paid to a company controlled by the CFO	$	20,386	$	2,193

Fees paid to directors and officers are included in the line item "Management and consulting fees" in the Company's condensed consolidated interim statements of comprehensive loss.

Included in accounts payable and accrued liabilities is an amount of $50,203 (July 31, 2019 - $21,114) owing to companies controlled by directors and officers of the Company. Payables due to related parties are unsecured, non-interest bearing and have no specified terms of repayment.

11. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, investments, accounts payable, loans payable and amounts due to former parent company. As at January 31, 2020, there were no significant differences between the carrying amounts of these items and their estimated fair values. The carrying value of these items approximates their fair values.

Loans payable are measured at amortized cost using the effective interest rate method and transaction costs associated with the loans are amortized through net loss over the life of the loans.

Fair Value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable.

The three levels of the fair value hierarchy are:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of January 31, 2020, the Company classified cash as Level 1 and investments as Level 3.

The Board of Directors approves and monitors the risk management processes. The Company has exposure to the following risks from its use of financial instruments:

- Interest rate risk
- Credit risk
- Liquidity risk
- Currency risk

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. All of the Company's loans payable and investments have a fixed interest rate therefore the Company is not currently exposed to interest rate risk.

Credit Risk

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The credit risk of the Company is associated with cash. Management believes that the credit risk with respect to cash is minimal as balances are held with a high-credit quality financial institution.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company manages liquidity risk by maintaining sufficient cash to enable settlement of transactions on the due date. Management monitors the Company's contractual obligations and other expenses to ensure adequate liquidity is maintained.

Market Risk

The Company's exposure to financial market risk is limited, as it presently does not have any investments where value fluctuates as a result of changes in prices quoted in open markets.

11. FINANCIAL INSTRUMENTS (CONT'D)

Currency risk

The Company is headquartered in Canada and its functional reporting currency is the Canadian dollar. At January 31, 2020, the Company has $350,000 in US dollar loans and $613,030 in US dollar investments. As such, the Company's results of operations are subject to foreign currency fluctuation risks and these fluctuations may adversely affect the financial position and operating results of the Company. As of January 31, 2020, the Company does not use derivative instruments to reduce its exposure to currency risk. January 31, 2020, a ten percent change in the US dollar to the Canadian dollar exchange rate would impact the Company's net loss by $34,807.

12. CAPITAL MANAGEMENT

The Company defines capital as an aggregate of cash and common shares. The Company manages its capital structure to ensure it has sufficient capital to meet its obligations as they come due.
