1. NATURE AND CONTINUANCE OF OPERATIONS

Yukoterre Resources Inc. (formerly 2560344 Ontario Inc.) (the "Company") was incorporated under the laws of the Province of Ontario, Canada by Articles of Incorporation, dated February 8, 2017, and on October 25, 2017 was renamed Yukoterre Resources Inc. The principal activity of the Company is the exploration and evaluation of coal. Common shares of the Company were approved for listing on the Canadian Securities Exchange on September 20, 2019 and trade under the symbol YT.

The Company's head office is located at 65 Queen Street West, 8th floor, Toronto, Ontario, M5H 2M5, Canada.

Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

The business of exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable coal operations. The Company's continued existence is dependent upon the acquisition of properties, preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

The Company does not have any operating assets that generate revenues, does not have proven reserves and incurred a net loss of \$76,483 during the six months ended April 30, 2020 (six months ended April 30, 2019 - \$37,399). As at April 30, 2020, the Company had a working capital deficit of \$50,824 (October 31, 2019 – surplus of \$25,614) and an accumulated deficit of \$394,250 (October 31, 2019 - \$317,812). These conditions indicate the existence of material uncertainties which cast significant doubt about the Company's ability to continue as a going concern. The Company's ability as a going concern is dependent on the Company's ability to obtain additional financing if, as and when required, and, ultimately, the attainment of profitable operations or the profitable sale of the Company's exploration interests.

These condensed interim financial statements do not give effect to adjustments that would be necessary and could be material to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

The following is a summary of significant accounting policies used in the preparation of these condensed interim financial statements.

Statement of compliance

The accompanying condensed interim financial statements have been prepared by management in conformity with IAS 34, Interim Financial Reporting and do not include all the disclosures required in full annual financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These condensed interim financial statements should be read in conjunction with the Company's consolidated financial statements for the year ended October 31, 2019.

Basis of presentation

The condensed interim financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The condensed interim financial statements are presented in Canadian dollars unless otherwise noted. These condensed interim financial statements were approved and authorized by the Board of Directors of the Company on May 13, 2020.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

New accounting standards

The Company adopted a number of new IFRS standards, interpretations, amendments and improvements of existing standards. These included IFRS 16 and IFRIC 23. There was no material impact on the Company's financial statements as result of the adaptation of these new standards. Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after November 1, 2019 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded.

AS 1, Presentation of Financial Statements ("IAS 1") and IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8") were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier adoption is permitted.

4. AMOUNTS RECEIVABLE

The amounts receivable balance as at April 30, 2020 and October 31, 2019, consisted of amounts receivable from the Government of Canada for Harmonized Sales Taxes (HST).

10. COMMITMENTS AND CONTINGENCIES

Management contracts

The Company is party to certain management contracts. Currently, these contracts require payments of \$190,800 as at April 30, 2020 (October 31, 2019 - \$190,800) to be made upon the occurrence of a change in control to the officers of the Company. The Company is also committed to payments upon termination of approximately \$131,700 (October 31, 2019 - \$141,300) pursuant to the terms of these contracts. As a triggering event has not taken place, these amounts have not been recorded in these condensed interim financial statements.

Contingencies

Coal operations are subject to extensive controls and regulations imposed by various levels of government that may be amended from time to time. The Company's operations may require licenses and permits from various governmental authorities in the countries in which it operates. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to carry out exploration and development of its projects.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

Environmental

The Company's exploration and evaluation activities are subject to laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

11. SUBSEQUENT EVENTS

Novel Coronavirus ("COVID-19")

The Company's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company's operations and ability to finance its operations.
