

Komo Plant Based Foods Sees 67% Sales Increase In October

Vancouver, B.C. –November 4, 2021: Komo Plant Based Foods Inc. (CSE: YUM) (OTCQB: KOMOF) (FRA:9HB) (“Komo”), a premium plant-based food company, today announces record plant-based food sales in October 2021 of more than \$45,000, a 67 percent increase over the previous month.

Komo launched its plant-based comfort food products locally earlier this year, and in October it was successful in significantly expanding production to meet demand from distributors and retailers. One of the recently signed distributors is TransCold Distribution Ltd., a Unilever Master Distributor, which delivers frozen products to over 10,000 distribution points in Canada and the United States. This week Komo has begun its expansion to other provinces and Komo expects to double its retail distribution network to over 100 points within the next few months.

Komo also sells direct-to-consumer through its own eCommerce platform, and it has received over 130 five star reviews from verified purchasers through the Yotpo app, which enables automatic review generation.

“We were able to achieve significant revenue in October, within 7 months of launch as a new brand and with only 30 distribution points. We have already grown this month to 50 retail locations with the addition of the Nesters Market chain,” says Komo CEO William White. “We have proven that we are able to achieve rapid growth locally and we look forward to continuing this trend now that we have production and distribution in place to expand across Canada and into the United States.””
