

Telecure’s wholly owned subsidiary, Care by Calling Dr, LLC, Enters Definitive Purchase Agreement to Acquire Community Case Management Services, LLC

October 28, 2021

Vancouver, BC – Telecure Technologies Inc. (CSE: TELE) (FSE: 6MZ) (“Telecure” or the “Company”), a U.S. focused health IT company which develops technology to make healthcare more accessible and efficient, is pleased to announce that its wholly-owned subsidiary, Care by Calling Dr, LLC (**“CallingDr”**), has entered into a definitive agreement to acquire 100% of the outstanding equity (the **“Transaction”**) of Community Case Management Services, LLC (**“CCMS”**), a provider of specialized outpatient mental health services within Dade County, Miami and its surrounding areas. The aggregate purchase price is approximately US\$5.3 mm cash, US\$3 mm of which is payable upon closing of the Transaction (**“Closing”**), and the remainder of which is payable over the six fiscal quarters following the Closing. Closing is subject to certain conditions, including receipt of applicable regulatory and licensing approvals, as well as Telecure being satisfied with the results of its due diligence review.

With an intensive outpatient program, CCMS assists in the treatment of a wide variety of mental health, emotional health, and behavioral concerns and provides intensive, professional, and effective therapeutic services. CCMS serves over 20,000 patients annually through 63 care providers, including 26 case managers and 15 licensed physicians. The Transaction is intended to expand CCMS’ reach to encompass all of Florida – the third largest state in the U.S. – by leveraging the CallingDr technology platform, including its ability to connect patients with healthcare providers for real-time medical visits via videoconference, its secure messaging facilities for patients and healthcare providers, and the ability for remote ordering and fulfillment of prescriptions.

Telecure’s CEO, Adnan Malik, stated, “this Transaction represents a very exciting opportunity for Telecure and for CCMS. Our aim is to leverage the significant medical IT capabilities of our team and proprietary software, CallingDr, to further accelerate and grow CCMS’ important contribution to healthcare in Florida. The acquisition presents the opportunity to strengthen our balance sheet, financial performance and enhance our service offerings to now include mental and behavioral health care.”

“We are thrilled to join Telecure as we begin the next stage in our development. Telecure’s suite of healthcare IT products and services will transform our operating capabilities to expand into new markets and allow us to bring quality care to more patients,” CCMS’ Administrator and Founder, Igor Nunez, stated. “We believe that tools like CallingDr will accelerate our growth and profitability.”
