1. NATURE OF OPERATIONS

Golden Opportunity Resources Corp. ("the Company") was incorporated on January 31, 2018 under the laws of British Columbia. The address of the Company's corporate office and its principal place of business is 200-551 Howe Street, Vancouver, British Columbia, Canada.

The Company's principal business activities include the acquisition and exploration of mineral property assets. As at July 31, 2019, the Company had not yet determined whether the Company's mineral property asset contains ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

The Company had a deficit of \$230,034 as at July 31, 2019, which has been funded by the issuance of equity. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These unaudited condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the Financial Reporting Interpretations Committee ("IFRIC"). These interim financial statements do not include all the information required for full annual financial statements and should be read in conjunction with the audited financial statements and notes thereto as of and for the period ended January 31, 2019.

These unaudited condensed interim financial statements were authorized for issue in accordance with a resolution from the Board of Directors on August 29, 2019.

b) Basis of presentation

These interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. These financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. These unaudited condensed interim financial statements follow the same accounting policies and methods of application as the annual audited financial statements for the period ended January 31, 2019. The adoption of new accounting standards has had no material impact on the financial statements.

3. NEW ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

Effective for annual periods beginning on or after January 1, 2019

IFRS 16 – Leases

In June 2016, the IASB issued IFRS 16 – Leases. IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. However, lessees are no longer classifying leases as either operating leases or finance leases as it is required by IAS 17. The standard is effective for annual periods beginning on or after January 1, 2019.

The Company does not expect the adoption of this standard to have significant impact to the financial statements.
