Golden Opportunity Resources Signs Option to Purchase Agreement for Detour Lake Property.

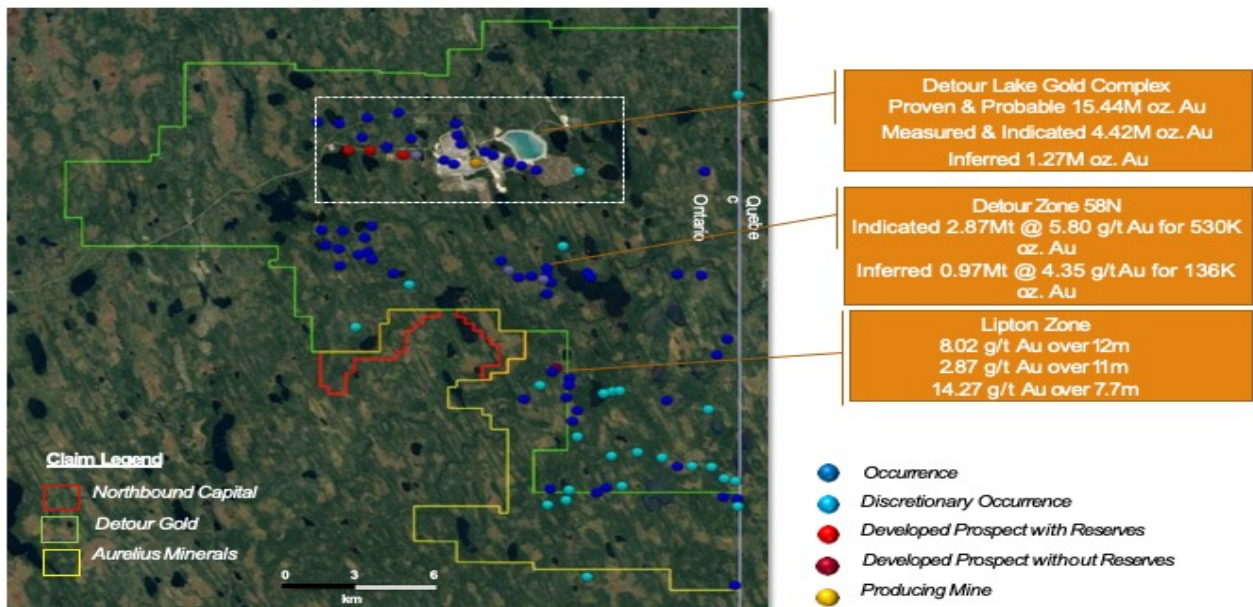

Vancouver, British Columbia, February 3, 2020: Golden Opportunity Resources Corp. (the "Company" or "Golden Opportunity") (CSE: GOOP) is pleased to announce that it has signed an Option to Purchase Agreement with Northbound Capital Corp. and 1544230 Ontario Inc. for certain mineral property claims in the Detour Lake District, Ontario, Canada.

Key Take Aways:

- Located in the Detour Greenstone Belt, host to the Detour Gold Mine Complex, the Fenlon Gold Project recently discovered by Wallbridge Mining, the Balmoral Resources Ni-Cu Discovery, the past and current producing Casa Berardi Mine and the past producing Selbaie VMS Mine
- Only Detour Gold and Aurelius Minerals have any significant land holdings in the area and the Northbound Capital claim block is contiguous to both
- Claim block hosted within a postulated gabbroic intrusive which makes an excellent host for gold mineralization
- Proximal to the Zone 58N Gold Deposit and the Lipton Gold Zone

Golden Opportunity cautions investors mineralization on the above mentioned properties is not necessarily indicative of similar mineralization on the Northbound claim block.

Local Historical Drilling

- Despite the abundant drilling around the Northbound Capital claim group, not one drill hole has been completed on the property
- In fact the entire property lacks any assessmentwork altogether, including airborne EM and magnetic surveys as well as ground geophysics

Keith Anderson, chief executive officer, commented: “We are very excited to be entering into this option agreement with Northbound Capital. Not only are we optioning a property in the Abitibi Greenstone Belt precious metals, we’re surrounded by significant discoveries.” He added “We are planning to implement an aggressive exploration program in the coming months. With the price of gold and other precious metals heading higher, our timing couldn’t be any better.”
