

Innocan Pharma CEO Iris Bincovich to Deliver a Speech at an Investor Gathering in Munich on October 29, 2021

Herzliya, Israel and Calgary, Alberta--(Newsfile Corp. - October 28, 2021) - Innocan Pharma Corporation (CSE: INNO) (FSE: IP4) (OTCQB: INNPF) (the "**Company**" or "**Innocan**"), is pleased to announce that CEO Iris Bincovich will embark on a 2 day trip on October 29-30 to Munich, Germany with the purpose of meeting investors and potential clients.

Ms. Bincovich will attend an open Q&A session that will take place in the Novotel München Messe, Willy-Brandt-Platz 1, 81829 München. Please RVSP at info@innocanpharma.com

Ms. Bincovich will also attend the BEAUTY FORUM MÜNCHEN by Cosmoprof 2021 where she will meet with prospective clients and distributors at Innocan Stand E73 - Halle B1.

"I am excited to be meeting Innocan's investors and potential clients on my upcoming trip to Germany," said Iris Bincovich, CEO of Innocan Pharma and added, "The German market has a strong appreciation for and understanding of the benefits of CBD, and we are appreciative of their ongoing support and interest of Innocan's innovations."

Innocan's relationship with The Hebrew University

Innocan Pharma Ltd., a wholly owned subsidiary of the Company, has entered into a worldwide exclusive research and license agreement with Yissum Research and Development Company ("**Yissum**"), the commercial arm of The Hebrew University of Jerusalem, with respect to the design, preparation, characterization, and evaluation of hydrogels containing CBD (or other cannabinoids) loaded liposomes. The research and development initiative is led by Professor Chezy Barenholz, head of the Membrane and Liposome Research Department at The Hebrew University, which is the inventor of over fifty-five patent families, two of which underlie Doxil®, an FDA-approved drug for breast cancer treatment. This unique platform technology may have a wide range of applications, such as epilepsy, pain relief, inflammation, and central nervous system disorders. A patent application was filed covering this technology on September 30, 2021.

About Innocan

Innocan, together with its wholly-owned subsidiary, Innocan Pharma Ltd. ("**Innocan Israel**") is a pharmaceutical tech company that focuses on the development of several drug delivery platforms containing CBD. Innocan Israel and Ramot at Tel Aviv University are collaborating on a new, revolutionary exosome-based technology that targets both central nervous system (CNS) indications and the Covid-19 Corona Virus using CBD. CBD-loaded exosomes hold the potential to help in the recovery of infected lung cells. This product, which is expected to be administered by inhalation, will be tested against a variety of lung infections.

Innocan Israel signed a worldwide exclusive license agreement with Yissum, the commercial arm of The Hebrew University of Jerusalem, to develop a CBD drug delivery platform based on a unique-controlled slow release Technologies to be administered by injection. Innocan Israel plans, together with Professor Barenholz, to test the liposome platform on several potential conditions. Innocan Israel is also working on a dermal product that integrates CBD with other pharmaceutical ingredients as well as the development and sale of CBD-integrated pharmaceuticals, including, but not limited to, topical treatments for the relief of psoriasis symptoms as well as the treatment of muscle pain and rheumatic pain. The founders and officers of Innocan Israel each have commercially successful track records in the pharmaceutical and technology sectors in Israel and globally.

Caution regarding forward-looking information

Certain information set forth in this news release, including, without limitation, information regarding research and development, collaborations, the potential for treatment of conditions and other therapeutic effects resulting from research activities and/or the Company's products, requisite regulatory approvals, the granting of patents underlying the patent applications and the timing for market entry, is forward-looking information within the meaning of applicable securities laws. By its nature, forward-looking information is subject to numerous risks and uncertainties, some of which are beyond Innocan's control. The forward-looking information contained in this news release is based on certain key expectations and assumptions made by Innocan, including expectations and assumptions concerning the anticipated benefits of the products, satisfaction of regulatory requirements in various jurisdictions and satisfactory completion of requisite production and distribution arrangements.

Forward-looking information is subject to various risks and uncertainties which could cause actual results and experience to differ materially from the anticipated results or expectations expressed in this news release. The key risks and uncertainties include but are not limited to: general global and local (national) economic, market and business conditions; governmental and regulatory requirements and actions by governmental authorities; intellectual property risks, and relationships with suppliers, manufacturers, customers, business partners and competitors. There are also risks that are inherent in the nature of product distribution, including import / export matters and the failure to obtain any required regulatory and other approvals (or to do so in a timely manner) and availability in each market of product inputs and finished products. The anticipated timeline for entry to markets may change for a number of reasons, including the inability to secure necessary regulatory requirements, or the need for additional time to conclude and/or satisfy the manufacturing and distribution arrangements. As a result of the foregoing, readers should not place undue reliance on the forward-looking information contained in this news release concerning the timing of launch of product distribution. A comprehensive discussion of other risks that impact Innocan can also be found in Innocan's public reports and filings which are available under Innocan's profile at www.sedar.com.

Readers are cautioned that undue reliance should not be placed on forward-looking information as actual results may vary materially from the forward-looking information. Innocan does not undertake to update, correct or revise any forward-looking information as a result of any new information, future events or otherwise, except as may be required by applicable law.
