

InnoCan Pharma Submits New Patent Applications for Advanced Pain Relief Technology

The Patent Application is in line with Innocan's Strategy to Expand the Scope of its Combined Magnesium and Cannabis Topical Solution

HERZLIYA, Israel and CALGARY, AB, June 12, 2023 /CNW/ -- [InnoCan](#) Pharma Corporation (CSE:INNO) ("Innocan Pharma" or the "Company"), a pharmaceutical technology company leveraging its novel cannabis-based therapeutics portfolio of targeted healing products, has announced the filing of its most recent patent application to the United States Patent and Trademark Office (USPTO). This move is in line with the Company's ongoing strategy to expand the breadth of its distinctive combined Cannabis and Magnesium topical pain-relief technology.

This latest continuation patent application encapsulates additional aspects of the Company's combined Magnesium and Cannabis-based solution, explicitly crafted for pain and itching alleviation. The patent application reflects the broad spectrum of Cannabinoids and variable dosage, underlining the promising potential of this novel technology.

InnoCan Pharma is committed to broadening its cannabis-based intellectual property portfolio further and intends to continue filing additional patent applications with the USPTO as well as other global patent offices. This innovative company continues to position itself at the forefront of novel cannabis-based therapeutic solutions.

"I am delighted to announce the submission of our latest patent application, further exemplifying our unwavering dedication to pushing the boundaries of pain relief technology", said CEO Iris Bincovich, "this patent represents the remarkable synergy between our combined Magnesium and Cannabis topical solution, showcasing a diverse range of cannabinoids and customizable dosages for optimal pain and itching alleviation. We persist in broadening our cannabis-based intellectual property portfolio and spearheading groundbreaking therapeutic solutions in the ever-evolving landscape of pharmaceutical technology."

About Innocan

Innocan is a pharmaceutical tech company that operates under two main segments: Pharmaceuticals and Consumer Wellness. In the Pharmaceuticals segment, Innocan focuses on developing innovative drug delivery platform technologies comprised with cannabinoids science, to treat various conditions to improve patients' quality of life. This segment involves two drug delivery technologies: (i) **LPT** CBD- loaded liposome platform facilitating exact dosing and the prolonged and controlled release of CBD into the blood stream. The LPT delivery platform research is in the preclinical trial phase for two indications: Epilepsy and Pain Management. (ii) **CLX** CBD-loaded exosomes platform that may hold the potential to provide a highly synergistic effect of regenerating and anti-inflammatory properties targeting the Central Nervous System (CNS). In the Consumer Wellness segment, Innocan develops and markets a wide portfolio of innovative and high-performance self-care products to promote a healthier lifestyle. Under this segment Innocan has established a Joint Venture by the name of BI Sky Global Ltd. that focuses developing on advanced targeted online sales. <https://innocanpharma.com/>

Caution regarding forward-looking information

Certain information set forth in this news release, including, without limitation, information regarding research and development, collaborations, the filing of potential applications with the FDA and other regulatory authorities, the potential achievement of future regulatory milestones and the granting of patents, the potential for treatment of conditions and other therapeutic effects resulting from research activities and/or the Company's products, requisite regulatory approvals and the timing for market entry, is forward-looking information within the meaning of applicable securities laws. By its nature, forward-looking information is subject to numerous risks and uncertainties, some of which are beyond Innocan's control. The forward-looking information contained in this news release is based on certain key expectations and assumptions made by Innocan, including expectations and assumptions concerning the anticipated benefits of the products, satisfaction of regulatory requirements in various jurisdictions and satisfactory completion of requisite production and distribution arrangements.

Forward-looking information is subject to various risks and uncertainties which could cause actual results and experience to differ materially from the anticipated results or expectations expressed in this news release. The key risks and uncertainties include but are not limited to: general global and local (national) economic, market and business conditions; governmental and regulatory requirements and actions by governmental authorities including the granting of any patents underlying a patent application; and relationships with suppliers, manufacturers, customers, business partners and competitors. There are also risks that are inherent in the nature of product distribution, including import / export matters and the failure to obtain any required regulatory and other approvals (or to do so in a timely manner) and availability in each market of product inputs and finished

products. The anticipated timeline for entry to markets may change for a number of reasons, including the inability to secure necessary regulatory requirements, or the need for additional time to conclude and/or satisfy the manufacturing and distribution arrangements. As a result of the foregoing, readers should not place undue reliance on the forward-looking information contained in this news release concerning the timing of launch of product distribution. A comprehensive discussion of other risks that impact Innocan can also be found in Innocan's public reports and filings which are available under Innocan's profile at www.sedar.com.

Readers are cautioned that undue reliance should not be placed on forward-looking information as actual results may vary materially from the forward-looking information. Innocan does not undertake to update, correct or revise any forward looking information as a result of any new information, future events or otherwise, except as may be required by applicable law.
