

Innocan Pharma Celebrates Dr. Joseph Pergolizzi's Recognition Among Stanford University's List of the Top 2% Most-Cited Scientists Worldwide

HERZLIYA, Israel and CALGARY, Alberta, Oct. 9, 2024 /CNW/ -- Innocan Pharma Corporation (CSE: INNO) (FSE: IP4) (OTCQB: INNPF) ("Innocan" or the "Company"), a pioneer in the pharmaceutical and biotechnology industries, is pleased to announce that Dr. Joseph V. Pergolizzi, Jr., M.D., a member of Innocan's Scientific Advisory Board, has been recognized among the top 2% most-cited scientists in the world in a new list published by Stanford University. This achievement underscores Dr. Pergolizzi's long-term contribution to medical science and his influential role in shaping global healthcare practices.

Dr. Pergolizzi was appointed to Innocan Pharma's Scientific Advisory Board in September 2023. His role focuses on promoting pharmaceutical human product R&D and supporting the Company's planned FDA filing for new medications. His expertise in pain management, critical care medicine, and regulatory processes are key in advancing Innocan's pharmaceutical developments.

"We are incredibly proud of Dr. Pergolizzi's well-deserved recognition as one of the most-cited scientists worldwide," said **Iris Bincovich, CEO of Innocan Pharma**. "His recognition as part of Stanford University's top 2% is a reflection of his dedication to advancing medical research. His expertise has been pivotal in advancing our R&D efforts and aligning them with FDA regulatory pathways. I congratulate Dr. Pergolizzi on this outstanding honor and look forward to continuing our strong collaboration as we work together to advance innovative cannabinoid-based therapies and drug delivery solutions to enhance patients' quality of life."

About Innocan Pharma:

Innocan is a pharmaceutical tech company that operates under two main segments: Pharmaceuticals and Consumer Wellness. In the Pharmaceuticals segment, Innocan focuses on developing innovative drug delivery platform technologies comprises with cannabinoids science, to treat various conditions to improve patients' quality of life. This segment involves two drug delivery technologies: (i) LPT CBD-loaded liposome platform facilitating exact dosing and the prolonged and controlled release of CBD into the blood stream. The LPT delivery platform research is in the preclinical trial phase for two indications: Epilepsy and Pain Management. In the Consumer Wellness segment, Innocan develops and markets a wide portfolio of innovative and high-performance self-care products to promote a healthier lifestyle. Under this segment Innocan has established a Joint Venture by the name of BI Sky Global Ltd. that focuses developing on advanced targeted online sales.

Caution Regarding Forward-Looking Information

Certain information set forth in this news release, including, without limitation, the Company's plans for human trials of its LPT-CBD platform, is forward-looking information within the meaning of applicable securities laws. By its nature, forward-looking information is subject to numerous risks and uncertainties, some of which are beyond Innocan's control. The forward-looking information contained in this news release is based on certain key expectations and assumptions made by Innocan, including expectations and assumptions concerning the anticipated benefits of the products, satisfaction of regulatory requirements in various jurisdictions and satisfactory completion of production and distribution arrangements.

Forward-looking information is subject to various risks and uncertainties that could cause actual results and experience to differ materially from the anticipated results or expectations expressed in this news release. The key risks and uncertainties include but are not limited to: global and local (national) economic, political, market and business conditions; governmental and regulatory requirements and actions by governmental authorities; and potential disruption of relationships with suppliers, manufacturers, customers, business partners and competitors. There are also risks that are inherent in the nature of product distribution, including import/export matters and the failure to obtain any required regulatory and other approvals (or to do so in a timely manner). The anticipated timeline for entry to markets may change for a number of reasons, including the inability to secure necessary regulatory requirements, or the need for additional time to conclude and/or satisfy the manufacturing and distribution arrangements. As a result of the foregoing, readers should not place undue reliance on the forward-looking information contained in this news release. A comprehensive discussion of other risks that impact Innocan can be found in Innocan's public reports and filings which are available under Innocan's profile at www.sedarplus.ca.

Readers are cautioned that undue reliance should not be placed on forward-looking information as actual results may vary materially from the forward-looking information. Innocan does not undertake to update, correct or revise any forward-looking information as a result of any new information, future events or otherwise, except as may be required by applicable law.
