### About Battery X Metals Inc.

Battery X Metals Inc. (CSE: BATX) (OTCQB: STUPF) is focused on the exploration and acquisition of critical mineral property assets in North America, such as battery and precious metals, and developing battery recycling technology to support the growing demand for sustainable and environmentally friendly energy solutions. The Company's Opatica Lithium Project is located in the Quebec James Bay region, an area known for its abundance of hard rock lithium resources. Additionally, the Company's wholly owned subsidiary, Battery X Recycling Technologies Inc., is dedicated to developing innovative technologies for refining battery metals and facilitating urban mining from spent lithium-ion batteries. Battery X Metals Inc. also holds ownership of gold exploration properties in Ontario's Red Lake Mining District, strategically located near Kinross Gold's Sobel property. With a dedicated management team, focused on maximizing shareholder value and commitment to sustainability, Battery X Metals is positioned to be an emerging leader in critical mineral exploration and tomorrow's battery recycling industry.

## **Forward-Looking Statement Cautions**

This press release contains certain "forward-looking statements" within the meaning of Canadian securities legislation, relating to the Company's plans and expectations regarding the Consolidation and Name Change; the completion of the Name Change and Consolidation, including the final number of Common Shares outstanding on completion of the Consolidation; and the date in which the Common Share ultimately trade under the new name and on a post-Consolidation basis. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "aims," "suggests," "indicate," "often," "target," "future," "likely," "pending," "potential," "goal," "objective," "prospective," and "possibly," and similar expressions, or that events or conditions "will," "would," "may," "can," "could" or "should" occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made, and they involve a number of risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Except to the extent required by applicable securities laws and the policies of the Canadian Securities Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change. Factors that could cause future results to differ materially from those anticipated in these forward-looking statements include risks associated with the completion of the Acquisition and risks associated with mineral exploration operations, including the risk that the Company will encounter unanticipated geological factors, the possibility that the Company may not be able to secure permitting and other governmental clearances necessary to carry out the Company's exploration plans, the risk that the Company will not be able to raise sufficient funds to carry out its business plans, and the risk of political uncertainties and regulatory or legal changes that might interfere with the Company's business and prospects. The reader is urged to refer to the Company's Management's Discussion and Analysis, publicly available through the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR) at [www.sedar.com](http://www.sedar.com) for a more complete discussion of such risk factors and their potential effects.
