Each Warrant is exercisable into one (1) Share at an exercise price of \$0.10 until September 3, 2026. The remainder of the Private Placement may close in one or more additional tranches.

The Company intends to use approximately \$60,000 of the proceeds raised from the Private Placement for general working capital purposes, and approximately \$75,000 for current and anticipated payables.

The securities issued under the Private Placement will be subject to a statutory hold period in accordance with applicable securities laws of four months and one day from the date of issue, expiring January 4, 2025. No finder’s fees will be paid in connection with the Private Placement.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy securities in the United States, nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. The securities being offered have not been, nor will they be, registered under the U.S. Securities Act of 1933, as amended (the “**1933 Act**”), or under any U.S. state securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the 1933 Act and applicable state securities laws.

### **About Battery X Metals Inc.**

Battery X Metals Inc. (CSE:BATX) (OTCQB:BATXF) (FSE:ROW, WKN:A3EMJB) is dedicated to advancing the clean energy transition through the development of proprietary lithium-ion battery technologies and exploring domestic battery and critical metals resources. The Company and its portfolio companies focus on testing and extending electric vehicle (EV) battery lifespan, recovering valuable battery metals from end-of-life lithium-ion batteries, and exploring domestic battery and critical metals resources.

Battery X Metals owns 49% of Lithium-ion Battery Renewable Technologies Inc. (LIBRT), which develops technology to improve EV battery longevity and health diagnostics. LIBRT holds the exclusive North American license for BatteryMap AI, an AI model with a comprehensive patent portfolio for precise battery monitoring and prediction, extensively trained on vast amounts of real-world data.

The Company's wholly-owned subsidiary, Battery X Recycling Technologies Inc., in collaboration with the University of British Columbia (UBC), pioneers advanced EV battery metal recovery technologies. With a focus on recovering battery-grade metals, including lithium, nickel, cobalt, manganese, copper, and graphite, from the residual material of shredded lithium-ion batteries known as black mass, utilizing an eco-friendly proprietary froth flotation separation process.

Battery X Metals' Y Lithium Project in Northern Saskatchewan spans 5,855 hectares and shows significant potential for lithium-cesium-tantalum pegmatites. The Company also owns the Nunavik, QC Leaf River Project, and the Abitibi, QC Reservoir-Dozios Project, each covering approximately 3,500 hectares and located near key lithium exploration sites. Additionally, Battery X Metals holds The Belanger Property located in one of Canada's most prolific gold mining districts, Red Lake, Ontario. Battery X Metals also holds an equity stake in Premier Silver Corp., which owns the Mallay Mine & Processing Plant in Peru. This diversification enhances Battery X Metals' portfolio, offering opportunities in both battery and precious metals sectors.
