NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended July 31, 2023 and 2022

(Unaudited – Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

EMP Metals Corp. (“the Company” or “EMP”) was incorporated under the Business Corporations Act of British Columbia on August 3, 2018. The Company is engaged in the exploration and evaluation of mineral properties. The Company’s head office is located at 208A - 980 West 1st Street, North Vancouver, BC V7P 3N4. Effective November 16, 2021, the Company changed its name from Sentinel Resources Corp. to EMP Metals Corp. The Company’s common shares are listed for trading on the Canadian Securities Exchange (the “Exchange”) under the trading symbol “EMPS” and on the OTCQB under the symbol “EMPPF”.

These condensed interim consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. At July 31, 2023, the Company had accumulated losses of \$5,919,297 since its inception and expects to incur further losses in the development of its business. The continuation of the Company is dependent upon obtaining necessary financing to meet its ongoing operational levels of exploration and corporate overhead. There is a material uncertainty related to these conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. Additional funds will be required to enable the Company to continue its operations and there can be no assurance that financing will be available on terms which are acceptable to the Company. These condensed interim consolidated financial statements do not give effect to any adjustments to the amounts and classifications of assets and liabilities which might be necessary should the Company be unable to continue its operations as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in conformity with International Accounting Standard (“IAS”) 34, Interim Financial Reporting, using the same accounting policies as detailed in the Company’s audited financial statements for the year ended April 30, 2023. They do not include all the information required for complete annual financial statements in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) and therefore should be read together with the audited financial statements for the year ended April 30, 2023.

b) Basis of presentation

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements are prepared using the accrual basis of accounting, aside from cash flow information.

EMP METALS CORP.
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended July 31, 2023 and 2022

(Unaudited – Expressed in Canadian Dollars)

c) Consolidation

These condensed interim consolidated financial statements include the financial statements of the Company, its wholly-owned and controlled subsidiaries, Hub City Minerals Corp. (“HCM”), incorporated in British Columbia on April 19, 2021, and Hub City Royalty Corp. (“Royalty Corp.”), incorporated in British Columbia on July 28, 2022. HCM owns 75% of the outstanding common shares of Hub City Lithium Corp. (“HCL”), incorporated in British Columbia on April 19, 2021.

Consolidation of an investee begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Intercompany balances, transactions and unrealized intercompany gains and losses are eliminated upon consolidation.

The Company’s formerly wholly-owned and controlled subsidiary, Sentinel Resources (Australia) Pty Ltd., was dissolved on October 30, 2022.

d) Foreign currencies

The functional currency of a company is the currency of the primary economic environment in which the company operates. The presentation currency for a company is the currency in which the company chooses to present its financial statements.

These condensed interim consolidated financial statements are presented in Canadian dollars. The functional currency of EMP Metals Corp., HCM, HCL and Royalty Corp. is the Canadian dollar. Subsidiaries whose functional currencies differ from that of the parent company (“foreign operations”) are translated into Canadian dollars as follows: assets and liabilities – at the closing rate as at the reporting date, and income and expenses – at the average rate of the period. All resulting changes are recognized in other comprehensive income as exchange difference on translating foreign operations.

Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary assets and liabilities are translated using the historical rate on the date of the transaction. Non-monetary assets and liabilities that are stated at fair value are translated using the historical rate on the date that the fair value was determined. All gains and losses on translation of these foreign currency transactions are charged to profit or loss.

When the Company disposes of its entire interest in a foreign operation, or loses control, joint control, or significant influence over a foreign operation, the foreign currency gains or losses accumulated in other comprehensive loss related to the foreign operation are reclassified to profit or loss. If an entity disposes of part of an interest in a foreign operation which remains a subsidiary, a proportionate amount

of foreign currency gains or losses accumulated in other comprehensive income (loss) related to the subsidiary are reallocated between controlling and non-controlling interests.

e) Critical judgments and estimates

Impairment of exploration and evaluation assets

The carrying value and recoverability of exploration and evaluation assets requires management to make certain estimates, judgments and assumptions about each project and whether a given exploration and evaluation asset has any indicators of impairment. In determining if indicators of impairment exist, management considers the legal title to properties, expectations for future exploration programs and funds available for such, intentions to abandon exploration and evaluation assets, and whether information is available to assess the overall economic viability of the exploration property, including the latest resource prices and forecasts for mineral extraction (if any).

Asset acquisitions

The assessment of whether an acquisition meets the definition of a business or an asset is an area of key judgment. In the acquisitions of HCM and Royalty Corp., judgment was required to determine if the acquisitions represented business combinations, asset acquisitions or acquisition of equity. More specifically, management concluded that HCM and Royalty Corp. did not represent a business as the assets acquired were not an integrated set of activities with inputs, processes and outputs. Further, management determined that the disposal of and subsequent re-acquisition of Royalty Corp. lacked economic substance and were considered as the part of the same transaction in which the remaining equity (33%) of HCM was acquired during the year ended April 30, 2023 by EMP. Since it was concluded that the transactions (Notes 3 and 4) represented the acquisitions of assets or equity, there was no goodwill recognized and the transaction costs were capitalized to the assets acquired rather than expensed.

Shares and warrants issued for asset acquisitions

Management makes estimates in determining the fair value attributed to equity instruments paid as consideration for asset acquisitions, based on the contracted terms for the acquisition. Where common shares are issued for asset acquisitions, management determines the acquisition date and applies the closing market price of the Company's common shares on that date. When warrants are issued as part of asset acquisitions, management must determine the most appropriate valuation model to apply in calculating the grant date fair value of the warrants, and then make estimates of the expected volatility of the stock, the expected life of the warrants, the expected forfeiture rate and an estimated risk-free interest rate for input to the calculation. Inputs and resulting estimates differ depending on the valuation model. Further, should management's estimates as to an appropriate grant date share price or inputs be incorrect, the value of consideration for an asset acquisition could be materially different.

Share-based payments

The Company uses the fair-value method of accounting for share-based payments. Under this method, compensation cost attributable to options granted is measured at fair value, using the Black-Scholes option pricing model, at the grant date and expensed over the vesting period. In determining the fair

(Unaudited – Expressed in Canadian Dollars)

value, the Company makes estimates of the expected volatility of the stock, the expected life of the options, the expected forfeiture rate, and an estimated risk-free interest rate.

3. ACQUISITION OF HUB CITY MINERALS CORP.

On August 27, 2021, the Company entered into a share purchase agreement (the "Acquisition Agreement") with HCM, whereby the Company acquired 67% of the issued and outstanding shares and share purchase warrants of HCM (the "Transaction").

Under the terms of the Acquisition Agreement, the Company acquired 14,070,000 Hub City Units (the "Hub City Units") in exchange for the issuance of 14,070,000 EMP units (each, "EMP Unit") to the holders of the Hub City Units. Each EMP Unit consisted of one common share of EMP and one share purchase warrant, with each share purchase warrant entitling the holder to acquire one additional common share of EMP at an exercise price of \$0.06667 and under the existing terms of the outstanding share purchase warrants of HCM. The Company also settled a pre-existing advance to HCM of \$150,000, which was non-interest bearing.

The Transaction closed on September 2, 2021, at which time EMP became the ultimate parent company of HCM.

The Transaction did not meet the definition of a business combination and therefore, has been accounted for as a purchase of exploration and evaluation assets with the Company acquiring 67% of HCM on September 2, 2021. The consideration for the acquisition of HCM has been allocated at fair value of the assets acquired and liabilities assumed, based on management's best estimate and taking into account all available information at the time of acquisition.

The following table summarizes the fair value of the total consideration paid and the aggregate fair value of identified assets acquired and liabilities assumed:

Purchase price	\$
14,070,000 common shares of the Company at \$0.39 per share	5,416,950

(Unaudited – Expressed in Canadian Dollars)

The fair value of the 14,070,000 warrants (\$4,738,376) was estimated using the Black-Scholes option-pricing model. Weighted average assumptions used in the pricing model were as follows: spot price – \$0.39 per share; risk-free rate – 0.52%; expected life – 3 years; expected volatility – 100%; expected forfeitures – nil%; and expected dividends – \$nil.

During the year ended April 30, 2023, the remaining 33% equity of HCM was acquired by the Company (note 4).

4. ACQUISITION OF ROYALTY CORP.

On July 28, 2022, the Company incorporated a new subsidiary, Royalty Corp. In August 2022, the Company entered into a share exchange agreement with the other shareholders of HCM (refer to note 3) who in aggregate owned 33% of the issued and outstanding shares of HCM, whereby the Company transferred its shares of Royalty Corp. to those shareholders in exchange for their 33% ownership of HCM. As a result, HCM became a 100% wholly-owned subsidiary of the Company. In addition, HCM signed a royalty agreement with Royalty Corp., pursuant to which HCM has granted to Royalty Corp. a 25% net profit royalty on amounts received by HCM from HCL.

On February 17, 2023, the Company announced that it had entered into a securities exchange agreement with the shareholders of Royalty Corp. whereby the Company acquired all of the shares of Royalty Corp. In consideration for all of the shares of Royalty Corp., the Company issued 6,930,000 share purchase warrants to the vendors. Each warrant entitles the holder to purchase one common share of the Company at a price of \$1.25 for a period of three years from the date of issuance. The warrants are subject to the Company's right to accelerate the expiry date for the outstanding but unexercised warrants if the average closing price has been equal to or greater than \$1.75 for 10 consecutive trading days and the Company must issue a news release announcing its intention to exercise the acceleration right.

The transaction has been accounted for as the acquisition of the remaining 33% of HCM. The result of the transaction was the 100% ownership of HCM by the Company and elimination of the non-controlling interest of HCM. This change in the proportion of equity held by the non-controlling interest has been recognized directly in equity and attributed to the shareholders of EMP.

The following table summarizes the fair value of the total consideration paid and the aggregate fair value of identified assets acquired and liabilities assumed:

Purchase price	\$
Fair value of 6,930,000 warrants	2,126,353
	2,126,353
Net assets acquired	\$
Remaining 33% of HCM	2,126,353

(Unaudited – Expressed in Canadian Dollars)

The fair value of the 6,930,000 warrants (\$2,126,353) was estimated using the Black-Scholes option-pricing model. Weighted average assumptions used in the pricing model were as follows: spot price – \$0.62 per share; risk-free rate – 3.66%; expected life – 3 years; expected volatility – 100%; expected forfeitures – nil%; and expected dividends – \$nil.

5. MARKETABLE SECURITIES

Marketable securities are classified as FVTPL and, as a result, are measured at fair market value each reporting period with any changes in fair value recognized in profit or loss. During the year ended April 30, 2023, the Company received 779,557 common shares of Grounded Lithium Corp. ("GLC") as part of a land sale (Note 6). The GLC common shares are subject to a contractual escrow, to be released in equal 1/3 tranches on the 4, 8, and 12-month anniversaries from closing. The GLC common shares were recorded at an initial fair value of \$280,640. As at July 31, 2023, the fair value of the common shares was \$140,320 (April 30, 2023 – \$233,867). As a result, a loss of \$93,547 was recorded in profit or loss for the three months ended July 31, 2023.

Li-Brine Properties

On September 2, 2021, the Company acquired the Li-Brine Properties as a result of the acquisition of HCM (Note 3). HCL holds 212,633 acres (86,050 hectares) of subsurface crown mineral dispositions in Saskatchewan, with the focus on potential lithium resource prospects.

On May 24, 2022, the Company entered into a Wellbore Takeover Agreement (the "Agreement"). Within the Agreement the Company assumes the provision for decommissioning of the well, estimated at \$70,000. The well is located in the Tyvan area of Southeast Saskatchewan which is within one-half mile of HCM's lands. Such liabilities have been paid to the government of Saskatchewan and satisfied in full.

On September 27, 2022, the Company acquired an additional wellbore in its Mansur Permit Area. The new well, 101/14-36-008-13 W2M ("Second Test Well"), is located at the Mansur Permit Area of southeast Saskatchewan and is approximately half a mile from the Company's first test well in the Mansur. The Second Test Well was acquired for no consideration and the assumption of future abandonment and reclamation costs.

The company which owns 25% of HCL is responsible for 25% of exploration costs incurred. All payments received during the year ended April 30, 2023 and the three months ended July 31, 2023 have been treated as contributions to non-controlling interest.

On March 15, 2023, the Company closed the sale of 33 sections (8,498 hectares) of undeveloped land in the Kindersley area to Grounded Lithium Corp. ("GLC"). As consideration for the sale, the Company received \$195,326 in cash and 779,557 GLC common shares. The GLC common shares are subject to a contractual escrow, to be released in equal 1/3 tranches on the 4, 8, and 12-month anniversaries from closing. The Company recorded a gain on sale of \$420,647, determined as per below:

- a) **Authorized** – Unlimited common shares without par value.
- b) **Issued and outstanding** – 70,654,571 common shares
- c) **Issuances**

On March 17, 2023, the Company closed a non-brokered private placement financing by issuing 8,333,333 units at a price of \$0.60 per unit for proceeds of \$5,000,000. Each unit comprises one common share of the Company and one-half of one share purchase warrant. Each whole warrant entitles the holder to purchase one common share at a price of \$0.90 per share until September 16, 2024. The Company assigned \$83,333 value to the warrants using the residual value method. The Company has the right to accelerate the expiry date of the warrants if, at any time, the average closing price of the Company's common shares is equal to or greater than \$1.25 for 10 consecutive trading days. In the event of acceleration, the expiry date will be accelerated to a date that is 30 business days after the Company issues a news release announcing that it has elected to exercise this acceleration right.

The Company paid cash share issue costs of \$22,481, paid finders fees totaling \$259,536 related to the private placement and issued an aggregate of 432,560 finders warrants, with each finders warrant entitling the holder to purchase one common share at a price of \$0.60 per share until September 16, 2024. The fair value of the 432,560 finders warrants was determined to be \$116,458 and estimated on the date of issue using the Black-Scholes option pricing model with the following assumptions: exercise price of \$0.60, spot price of \$0.58, dividend yield of \$nil, risk free interest rate of 3.15%, expected life of 1.5 years and expected volatility of 100%.

During the year ended April 30, 2023, the Company issued 12,960,724 common shares pursuant to the exercise of warrants for total gross proceeds of \$2,560,716. \$866,519 was transferred from reserves to share capital as a result. The weighted average share price at dates the warrants were exercised was \$0.35.

During the year ended April 30, 2023, the Company issued 388,041 common shares pursuant to the exercise of agent's options for total gross proceeds of \$89,249. \$76,365 was transferred from reserves to share capital as a result. The weighted average share price at dates the agent's options were exercised was \$0.33.

d) Stock Options

On March 15, 2019, the Company adopted a stock option plan (the “Stock Option Plan”), which provides that, subject to the requirements of the Exchange, the aggregate number of securities reserved for issuance will be 10% of the number of the Company’s common shares issued and outstanding at the time such options are granted. Options may be granted under the Stock Option Plan to the directors, officers, employees, management or consultants of the Company and its affiliates, if any, as the Board of Directors may from time to time designate. The Stock Option Plan provides that the number of common shares that may be reserved for issuance to any one individual upon exercise of all stock options held by such individual may not exceed 5% of the issued common shares, if the individual is a director, officer, employee or consultant, or 1% of the issued common shares, if the individual is engaged in providing investor relations services, on a yearly basis. All options granted under the Stock Option Plan will expire not later than the date that is ten years from the date that such options are granted. Options terminate earlier as follows: (i) immediately in the event of dismissal with cause; (ii) 90 days from date of termination other than for cause; or (iii) one year from the date of death or disability.

On March 24, 2023, the Company granted a total of 1,800,000 stock options to its directors, officers and consultants. The stock options have an exercise price of \$0.65 per share and expire on March 24, 2028. The stock options will vest as to 25% every 3 months after the grant date. The fair value of the options granted was \$0.40 per share.

The fair value of these options on the date of grant was determined using the Black-Scholes option pricing model and the following weighted average assumptions:

	April 30, 2023
Risk free interest rate	3.15%
Expected life	5.00 years
Expected volatility	100%
Expected forfeiture	Nil
Expected dividends	Nil

During the three months ended July 31, 2023, the Company recorded \$302,379 (2022 - \$35,428) of share-based compensation expense.

The changes in the stock options for the year ended April 30, 2023 and three months ended July 31, 2023 are as follows:
