

EMP METALS ANNOUNCES APPOINTMENT OF NEW CHIEF OPERATING OFFICER

VANCOUVER, BC, Nov. 20, 2023 /CNW/ - **EMP Metals Corp.** (CSE: EMPS) (OTCQB: EMPPF) ("**EMP Metals**" or the "**Company**") is pleased to announce the appointment of Mr. Paul Schubach, P. Eng as Chief Operating Officer ("COO").

Mr. Schubach is a Professional Engineer with over 12 years of diversified engineering experience. He has spent over ten years working onsite at Mosaic Potash Belle Plaine, the world's largest potash solution mine. Mr. Schubach has held senior-level leadership positions within various departments leading major capital projects, process engineering improvements, and executing the sites equipment condition-based monitoring programs.

Mr. Schubach holds a Bachelor of Applied Science in Industrial Systems Engineering from the University of Regina. He was a member of the University of Regina Cougar Men's Basketball team and recipient of the Presidents Award in recognition of his academic and athletic achievements. He is a registered Professional Engineer with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS).

Mr. Schubach stated, "I am looking forward to the opportunity with EMP Metals in advancing its industry leading lithium project, specifically bringing the lithium brine surface and refining operations into production quickly and efficiently, while remaining focused on optimizing shareholder value. I look forward to working closely with our partners at ROK Resources to continue responsibly advancing the project."

"We are excited to welcome Mr. Schubach to our team as he brings considerable operational experience with large scale brine projects. EMP Metals looks forward to working closely with Mr. Schubach, as we remain on target for the release of our Preliminary Economic Assessment and continuing to demonstrate further operational progress over the coming months," said EMP Metals CEO, Rob Gamley.

About EMP Metals

EMP Metals is a Canadian-based lithium exploration and development company focused on large scale resources using direct lithium extraction ("DLE"). EMP Metals, in partnership with ROK Resources Inc., currently holds 192,000 net (77,700 hectares) acres of Subsurface Dispositions and strategic wellbores in Southern Saskatchewan. Forward-Looking Statements

Information set forth in this news release contains forward-looking statements that are based on assumptions as of the date of this news release. These statements reflect management's current estimates, beliefs, intentions and expectations. They are not guarantees of future performance. EMP Metals cautions that all forward-looking statements are inherently uncertain, and that actual performance may be affected by a number of material factors, many of which are beyond EMP Metals' control. Such factors include, among other things: risks and uncertainties relating to EMP Metals' limited operating history, ability to obtain sufficient financing to carry out its exploration and development objectives on its mineral properties, obtaining the necessary permits to carry out its activities and the need to comply with environmental and governmental regulations. Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, EMP Metals undertakes no obligation to publicly update or revise forward-looking information.

Neither the Canadian Securities Exchange ("CSE") nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this news release.
