### **Kraken Energy Engages Drill Contractor for Drill Program at Apex Uranium Project in Nevada**

**Vancouver, British Columbia – July 13, 2022 – Kraken Energy Corp. (CSE: UUSA; OTCQB: UUSAF)** (the "Company" or "Kraken") is pleased to announce that it has engaged Nasco Industrial Services and Supply ("**NISS**") to conduct a diamond drill program at the Company's Apex Uranium Project ("**Apex**" or the "**Project**") in Lander County, Nevada.

NISS, whose clients include Hecla Mining, First Majestic Silver, and Rio Tinto, is a leader in low-impact drilling operations utilizing centrifuge technology to capture drill cuttings, as well as operating from platform or track-mounted set ups to minimize surface disturbance. The implementation of low-impact drilling exceeds current best practices and fits well with the Company's objectives to explore and develop mineral properties in an environmentally responsible manner.

"The low-impact drilling approach utilized by NISS will allow us to drill the historic Apex Mine area with minimal surface disturbance and water consumption, which are important considerations when working in Nevada," stated Chairman, Garrett Ainsworth. "With a drilling contractor now engaged, we are excited to have taken another step towards an initial drill program at the Apex Property."
