The accompanying notes are an integral part of these condensed interim financial statements

1. NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Zinc8 Energy Solutions Inc. (Formerly, MGX Renewables Inc.) ("Zinc8" or the "Company") was incorporated on December 8, 2011 in Canada under the legislation of the Province of British Columbia. Zinc8's head office is located at Unit 1 – 8765 Ash Street, Vancouver, BC, V6P 6T3, Canada. Zinc8 is a development-stage company and in the process of developing zinc-air batteries. The Company's shares trade on the Canadian Stock Exchange ("CSE").

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus ("COVID-19"). The Company continues to operate and move its business activity forward at this time. While the impact of Covid-19 is expected to be temporary, the current circumstances are dynamic and the impacts of Covid-19 on business operations cannot be reasonable estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in 2021.

2. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 Interim Financial Reporting. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS as issued by the IASB.

The Company uses the same accounting policies and methods of computation as in the annual financial statements for the year ended December 31, 2020.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported revenues and expenses during the year. The Company's critical accounting estimates and judgements are disclosed in the audited financial statements for the year ended December 31, 2020 and 2019.

4. INTANGIBLE ASSETS

Intangible assets consist of intellectual property comprising the zinc-air regenerative fuel cell systems and zinc fuel cells (the "Zinc Technology") purchased from a third party on January 1, 2016. The development of the Zinc Technology was in process and no amortization has been recorded as at June 30, 2021.

9. FINANCIAL INSTRUMENTS

(a) Fair values

The Company has classified fair value measurements of its financial instruments using a fair value hierarchy that reflects the significance of inputs used in making the measurements as follows:

Level 1: Valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Valuations based on directly or indirectly observable inputs in active markets for similar assets or liabilities, other than Level 1 prices, such as quoted interest or currency exchange rates; and

Level 3: Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

As at June 30, 2021, the fair values of cash, amounts receivable, accounts payable and accrued liabilities, and loans payable approximate their carrying value due to the short-term maturity of these instruments. Lease liabilities are measured at amortized costs using effective interest rate. Cash is carried at level 1 fair value measurement.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. As at June 30, 2021, the Company had working capital of \$13,491,845.

(c) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The Company's cash is largely held in large Canadian financial institutions. The Company does not have any asset-backed commercial paper. The Company's receivables consist of GST receivable due from the Federal Government of Canada. The Company maintains cash deposits with Schedule A financial institutions, which from time to time may exceed federally insured limits. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk.

(d) Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company does not hold any financial liabilities

with variable interest rates. The Company does maintain bank accounts which earn interest at variable rates but it does not believe it is currently subject to any significant interest rate risk.

(e) Foreign currency exchange rate risk The Company's functional and reporting currency is the Canadian dollar and major purchases are transacted in Canadian dollars. As a result, the Company's exposure to foreign currency risk is minimal.

10. CAPITAL MANAGEMENT

The Company's objective when managing capital is to maintain adequate cash resources to support planned activities which include administrative costs and general expenditures. In the management of capital, the Company includes cash, loan payable, lease liabilities, and the components of shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. Historically, funding for the Company's plan is primarily managed through the issuance of additional common shares, through its commercial activities and through obtaining financing. There are no assurances that funds will be made available to the Company when required.

In order to carry out the planned development and pay for administrative costs, the Company will spend its existing working capital and expects to raise additional amounts as needed. The Company will continue to assess new business and seek to acquire an interest in additional business if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash, and all are held in major Canadian financial institutions. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended June 30, 2021. The Company is not subject to externally imposed capital requirements.
