#### **1. NATURE OF OPERATIONS**

4Front Ventures Corp. (“4Front” or the “Company”) exists pursuant to the provisions of the British Columbia Corporations Act. On July 31, 2019, 4Front Holdings LLC (“Holdings”) completed a Reverse Takeover Transaction (“RTO”) with Cannex Capital Holdings, Inc. (“Cannex”) whereby Holdings acquired Cannex and the shareholders of Holdings became the controlling shareholders of the Company (Note 9). Following the RTO, the Company is listed on the Canadian Securities Exchange (“CSE”) under the ticker “FFNT” and are quoted on the OTC (OTCQX: FFNTF).

As of June 30, 2020, the Company operates 9 dispensaries in Massachusetts, Illinois, Maryland, Michigan, and Arkansas. The Company operates two production facilities in Massachusetts, and one in Illinois.

The Company leases real estate and sells equipment, supplies and intellectual property to cannabis producers in the state of Washington. The Company also owns and operates Pure Ratios (which was acquired by Cannex in June 2019), a CBD-focused wellness company in California, that sells non-THC products throughout the United States.

While marijuana and CBD-infused products are legal under the laws of several U.S. states (with varying restrictions), the United States Federal Controlled Substances Act classifies all “marijuana” as a Schedule I drug, whether for medical or recreational use. Under U.S. federal law, a Schedule I drug or substance has a high potential for abuse, no accepted medical use in the United States, and a lack of safety for the use of the drug under medical supervision.

The Company’s business could be materially and adversely affected by the outbreak of a widespread epidemic or pandemic or other public health crisis, including arising from the novel strain of the coronavirus known as “COVID-19.” This has resulted in significant economic uncertainty and consequently, it is difficult to reliably measure the potential impact of this uncertainty on our future financial results.

The head office address of the Company is 5060 North 40<sup>th</sup> Street, Suite 120, Phoenix, Arizona, and the registered office is 550 Burrard Street, Suite 2900, Vancouver, British Columbia.

#### **2. BASIS OF PRESENTATION**

##### **(a) Statement of Compliance**

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and should be read in conjunction with the Company’s audited consolidated financial statements as of and for the year ended December 31, 2019. They do not include all the information required for a complete set of International Financial Reporting Standards (“IFRS”) financial statements. However, selected explanatory notes are included to explain events and transactions deemed significant to provide an understanding of the changes in the Company’s financial position and performance since its most recent annual financial statements. These condensed consolidated interim financial statements were approved and authorized by the Audit Committee on August 26, 2020.

## **2. BASIS OF PRESENTATION (CONTINUED)**

### **(b) Basis of Measurement**

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value. The condensed consolidated interim financial statements are presented in United States dollars (“\$”) which is the functional currency of 4Front and its subsidiaries. Financial amounts are expressed in United States dollars unless indicated otherwise.

## **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **(a) Critical accounting estimates and judgements**

The preparation of the Company’s condensed interim consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The significant judgements made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements.

### **(b) New or amended standards adopted effective January 1, 2020**

The Company has not adopted any new or amended IFRS standards during the period ended June 30, 2020.

## **4. CAPITAL MANAGEMENT**

The Company’s primary objectives, when managing its capital, are to maintain adequate levels of funding to ensure the Company’s ability to continue as a going concern, support the operations of the Company and to maintain corporate and administrative functions. The Company defines capital as notes payable, convertible notes and equity, consisting of the issued units of the Company. The capital structure of the Company is managed to provide sufficient funding for planned operating activities of the Company. Funds are primarily secured through a combination of equity capital raised by way of private placements and debt. There can be no assurances that the Company will be able to continue raising equity capital and debt in this manner.

Capital is comprised of the Company’s shareholders’ equity. As of June 30, 2020, the Company’s shareholders’ equity was \$64. There were no changes to the Company’s approach to capital management during the six months ended June 30, 2020. The Company is exposed to certain externally imposed capital requirements, as described in Note 11.

#### 5. INVENTORY

Raw material is harvested cannabis where the flower has not been removed. Work in process is processed bulk flower and processed cannabis oil. Finished goods are cultivation supplies to be sold to cultivators, purchased and manufactured packaged flower, pre-rolls, vape cartridges, edibles, CBD products, and paraphernalia.

	<b>June 30, 2020</b>	<b>December 31, 2019</b>
Raw materials – harvested cannabis	\$ 777	\$ 659
Raw materials – CBD and ingredients	84	76
Work in process – flower and extract	8,190	6,098
Finished goods – cultivation supplies	116	677
Finished goods – packaged products	3,280	1,628
<b>Total</b>	<b>\$ 12,447</b>	<b>\$ 9,138</b>

#### 6. BIOLOGICAL ASSETS

Biological assets consist of live cannabis plants. For the six months ended June 30, 2020 and the year ended December 31, 2019, the changes in the carrying value of biological assets are shown below.

	<b>June 30, 2020</b>	<b>December 31, 2019</b>
Opening balance	\$ 2,187	\$ 755
Cost to grow harvested and live plants	7,997	7,246
Net change in fair value less costs to sell due to biological transformation	1,853	782
Transferred to inventory upon harvest	(9,847)	(6,596)
<b>Total</b>	<b>\$ 2,190</b>	<b>\$ 2,187</b>

The following significant unobservable inputs, all of which are classified as level 3 on the fair value hierarchy, were used by management as part of this model:

- Selling price - calculated as the annual historical selling price for flower sold by the Company, which is expected to approximate future selling prices.
- Percentage of completion - represents the percentage of total expected costs incurred from growing biological assets as of the measurement date.
- Yield per plant - represents the expected number of grams of finished cannabis inventory which are expected to be obtained from each harvested cannabis plant.
- Wastage - represents the weighted average percentage of biological assets which are expected to fail to mature into cannabis plants that can be harvested.
- Post-harvest costs - calculated as the cost per gram of harvested cannabis to complete the product post-harvest, consisting of the cost of direct and indirect materials and labor related to labeling and packaging.

**4FRONT VENTURES CORP.***Formerly 4Front Holdings, LLC***Notes to Consolidated Interim Financial Statements****For the Six Months Ended June 30, 2020 and 2019 (unaudited)***Amounts expressed in thousands of United States dollars unless otherwise stated***6. BIOLOGICAL ASSETS (CONTINUED)**

The following table quantifies each significant unobservable input and also provides the impact of a 5% increase/decrease in each input would have on the fair value of biological assets:

	<b>June 30, 2020</b>	<b>December 31, 2019</b>	<b>5% Change as of 6/30/2020</b>	<b>5% Change as of 12/31/2019</b>
Average selling price of flower per gram	\$ 6.85	\$ 6.30	\$ 110	\$ 109
Post harvesting costs per gram	\$ .59	\$ 1.75	\$ 12	\$ 21
Yield per plant in grams	158	142	\$ 110	\$ 109
Percentage of completion	54%	65%	\$ 110	\$ 108

Biological assets are measured using Level 3 inputs, and therefore are subject to volatility and several uncontrollable factors, which could significantly affect the fair value of biological assets in future periods.

Biological assets were on average at a comparable stage of growth in 2020 (54% complete) compared to December 31, 2019 (65% complete). The Company aggregates fair value on a percentage of completion. As a result, a cannabis plant that is 50% through its estimated total grow cycle would be ascribed approximately 50% of its harvest date expected fair value (subject to wastage adjustments).

*Cannex Capital Holdings, Inc.*

On July 31, 2019, 4Front Holdings LLC (“Holdings”) and Cannex Capital Holdings, Inc. (“Cannex”) completed their business combination and the creation of 4Front Ventures Corp. (“4Front”). The acquisition combines Cannex’s understanding of large-scale cultivation and manufacturing operations with 4Front’s existing asset base and its retail and regulatory capabilities.

The business combination was completed by way of a plan of arrangement agreement under the Business Corporations Act (British Columbia) pursuant to the terms of the business combination agreement among Holdings, Cannex, 4Front and 1196260 B.C. Ltd. dated March 1, 2019, as amended (the “Arrangement Agreement”). Pursuant to the terms of the Arrangement Agreement, the former owners of Holdings exchanged, through a series of transactions, their respective interests in Holdings in exchange for a total of 340.4 million shares in 4Front when calculated as if all share classes were converted to Subordinate Voting Shares.

Holdings has been identified for accounting purposes as the acquirer, and accordingly 4Front is considered a continuation of Holdings and the net assets of Cannex on July 31, 2019, the date of the business combination, are deemed to have been acquired by Holdings.

None of the goodwill recognized is expected to be deductible for tax purposes. During the year ended December 31, 2019, the Company recognized an impairment loss of \$131,406 related to the business combination with Cannex.

Acquisition costs of \$2,324, were excluded from the consideration transferred, and were included in general and administrative expenses in the year ended December 31, 2019.

#### **16. RELATED PARTIES (CONTINUED)**

##### **(b) Related party transactions**

Certain subsidiaries which were acquired in the business combination with Cannex have contractual relationships with two licensed Washington cannabis producer/processors: Superior Gardens LLC (d/b/a Northwest Cannabis Solutions) (“NWCS”) and 7Point Holdings LLC (“7Point”). The sole owner of NWCS holds a minority interest in the Company and is an executive in the Company. The sole owner of 7Point, holds a minority interest in the Company, and was an executive of the Company as of June 30, 2020.

NWCS and the Company are parties to a commercial gross lease expiring December 31, 2022 with two five-year renewal options. For the six months ended June 30, 2020 the Company recognized \$4,066 from interest revenue on the lease receivable for this lease.

7Point and the Company are parties to a commercial sublease expiring November 30, 2023 with one five-year renewal option. For the six months ended June 30, 2020 the Company recognized \$1,565 from interest revenue on lease receivable for this lease.

The Company has entered into a service agreement with NWCS to provide consulting and personnel services for growing and processing cannabis for \$30 per month and to act as exclusive purchasing agent for equipment, machinery, and other supplies for \$20 per month for a three-year term expiring January 1, 2021 with automatic renewal for additional three-year terms. The Company recognized a total of \$300 for the six months ended June 30, 2020.

NWCS and the Company have entered into a packaging supply agreement under commercially reasonable pricing terms by which NWCS submits packaging orders for Company-designed packaging sold by NWCS under an exclusive license to use Company brands and recipes in the state of Washington. The packaging supply agreement has an initial term of three years expiring January 1, 2021 with automatic renewal for additional three-year periods. The Company recognized total of \$1,124 in revenue for the six months ended June 30, 2020 under the packaging supply agreement.

At June 30, 2020, the Company held three notes receivable from these related parties with a balance of \$467 (2019 - \$nil).

An officer of the Company is a part-owner of a LI Lending LLC which extended the Company a real estate improvement/development loan of up to \$50,000 of which \$45,000 was drawn upon as of June 30, 2020.

An officer of the Company holds an interest in an online marketing company serving the online CBD market which provides online marketing services for Pure Ratios. Pure Ratios paid \$2,334 (2019 - \$nil) for the six months ended June 30, 2020 to this vendor for marketing services.

The Company has issued notes receivable to related parties that hold or have applied for cannabis licenses or that have secured real estate that can be used for a cannabis facility. The Company had \$606 and \$696 in such notes at June 30, 2020 and 2019, respectively.

**17. CONTINGENCIES****(a) Cannabis Industry**

Cannabis is still considered a Schedule 1 substance under the Controlled Substance Act. As such, there is an inherent risk related to the federal government's position on cannabis; additionally, the risk exists, due to the Company's business in cannabis, that third party service providers could suspend or withdraw services and as well as the risk that regulatory bodies could impose certain restrictions on the issuer's ability to operate in the U.S.; however, the Company has deemed it not reasonable to estimate a potential liability related to the possible enforcement of laws against the medical cannabis industry.

**(b) Contingent consideration payable**

As part of the acquisition of Om of Medicine, LLC and Cannex's prior acquisition of Pure Ratios, the Company is subject to contingent consideration payable to the original vendors. The fair value of the contingent consideration, which is based on specific revenue levels achieved over a 2-3 year period, is as follows:

	<b>Om of Medicine</b>	<b>Pure Ratios</b>	<b>Total</b>
<b>Balance, December 31, 2019</b>	\$ 3,964	\$ 1,500	\$ 5,464

#### **17. CONTINGENCIES (CONTINUED)**

The contingent consideration payable is measured at fair value based on unobservable inputs and is considered a Level 3 financial instrument. The determination of the fair value of these liabilities is primarily driven by the Company's expectations of the respective subsidiaries achieving certain milestones. The expected milestones were assigned probabilities and the expected related cash flows were discounted to derive the fair value of the contingent consideration.

- i) *OM of Medicine*: The contingent consideration payable is determined as the amount in excess of gross sales of \$3,400 (for fiscal 2020 and 2021) and \$3,500 (2022) to a maximum payable of \$6,000. At June 30, 2020, the probability of achieving all milestones to Om of Medicine's contingent consideration payable was estimated to be 57%. On June 30, 2020, the probability was increased to 100% and the contingent liability was increased by \$774 and a loss on the fair value adjustment was recorded to Other in Other Income (Expense) on the Consolidated Statements of Operations and Comprehensive Loss.
- ii) *Pure Ratios*: Contingent consideration of \$750 was earned due to CBD sales reaching a milestone, and stock was issued to the seller with a value of \$94. Per an amendment to the agreement, \$656 of the earned consideration was used to reduce the principal of the Accucanna note receivable. As of June 30, 2020, the Company determined that the probability of reaching a separate milestone for THC sales has a 0% probability and the value of the contingent liability was reduced by \$750. A gain on the fair value adjustment was recorded to Other in Other Income (Expense) on the Consolidated Statements of Operations and Comprehensive Loss.

#### **(b) Legal Matters**

In June 2020, the Company sold a legal claim on a consulting client to a third party for \$2,480 in cash. The Company recorded a gain of \$2,480 that was recorded to Other in Other Income (Expense) on the Consolidated Statements of Operations and Comprehensive Loss.

From time to time, the Company may be involved in certain disputes arising in the ordinary course of business. Such disputes, taken in the aggregate, are not expected to have a material adverse effect on the Company. As of June 30, 2020, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations. There are also no proceedings in which any of the Company's directors, officers, or affiliates is an adverse party or has a material interest adverse to the Company's interest.

## **18. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT**

The Company's financial instruments consist of cash, accounts receivable, other receivables, notes receivable, restricted cash, investments, accounts payable and accrued expenses, contingent consideration payable, notes payable, and derivative liabilities. The carrying values of these financial instruments approximate their fair values as of June 30, 2020 and December 31, 2019.

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The three levels of hierarchy are:

Level 1	quoted prices (unadjusted) in active markets for identical assets or liabilities;
Level 2	inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3	inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of the Company's cash, accounts receivable, other receivables, accounts payable and accrued expenses approximates carrying value due to their short-term nature. The Company's restricted cash, and investments approximate fair value due to the nature of the instruments. The Company's notes receivable, convertible notes payable, and notes payable approximate fair value due to the instruments bearing market rate of interest.

There were no transfers between fair value levels during the three and six months ended June 30, 2020 and the year ending December 31, 2019.

### **(a) Financial Risk Management**

The Company is exposed in varying degrees to a variety of financial instruments related risks. The Board mitigates these risks by assessing, monitoring and approving the Company's risk management processes.

### **(b) Credit Risk**

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash, lease receivables, other receivables, and notes receivable. The Company's maximum credit risk exposure is equivalent to the carrying value of these instruments.

The risk exposure is limited to the carrying amounts at the statement of financial position date. The risk to cash deposits is mitigated by holding these instruments with regulated financial institutions. Lease receivables, notes receivables and other receivables credit risk arises from the possibility that principal and interest due may become uncollectible. The Company mitigates this risk by managing and monitoring the underlying business relationships.

As of June 30, 2020, the maximum credit exposure related to the carrying amounts of accounts receivable, notes receivable and lease receivable was \$36,366.

**18. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)****(c) Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations associated with financial liabilities. The Company manages liquidity risk through the management of its capital structure. The Company's approach to managing liquidity is to raise sufficient capital to settle obligations and liabilities when due.

**(d) Interest Rate Risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's secured convertible notes with GGP (Note 11) bear interest at variable rates and is exposed to interest rate risk. If the LIBOR had increased by 1% during the six months ended June 30, 2020, the Company's net loss would have increased by \$168.

**(e) Foreign Exchange Risk**

The Company is exposed to exchange rate fluctuations between United States and Canadian dollars. The Company's share price is denominated in Canadian dollars. If the Canadian dollar declines against the United States dollar, the United States dollar amounts available to fund the Company through the exercise of stock options or warrants will be less. The Company also has bank accounts with balances in Canadian dollars. The value of these bank balances if converted to U.S. dollars will fluctuate. While the Company maintains a head office in Canada where it incurs expenses primarily denominated in Canadian dollars, such expenses are a small portion of overall expenses incurred by the Company. The Company does not have a practice of trading derivatives and does not engage in "natural hedging" for funds held in Canada. The Company has determined that as at June 30, 2020, the effect of a 10% increase or decrease in the Canadian dollar against the U.S. dollar on financial assets and liabilities would result in an increase or decrease of approximately \$64 to comprehensive loss for the six months ended June 30, 2020.

**(f) Other Price Risk**

Price risk is the risk of variability in fair value due to movements in equity or market prices. The Company is subject to risk of prices to its products due to competitive or regulatory pressures.

Operating segments are components of the Company that combine similar business activities, with activities grouped to facilitate the evaluation of business units and allocation of resources by the Company's board and management. As at June 30, 2020, the Company had five reportable segments:

- Production - production of cannabis products, and the importing of equipment and supplies for resale.
- Pure Ratios – production and sale of CBD products.

**20. RESTATEMENT OF 2019 FINANCIAL STATEMENTS**

The Company originally concluded that the Company did not control certain entities that own cannabis licenses. The Company held management agreements where it performed management services in exchange for management fees. In preparation of the 2019 year-end financial statements, the Company concluded that by applying IFRS 10, it did have control of these entities upon the execution of the management agreements in 2015 for Mission MA Inc. (“MMA”), in 2017 for Chesapeake Integrated Health Institute, LLC (“CIHI”) and for Premium Medicine of Maryland (“Premium”) and in 2019 for Maryland Alternative Relief LLC.

The correction is being applied to the three and six months ended June 30, 2019 Condensed Consolidated Interim Statements of Operations and Comprehensive Loss and the Condensed Consolidated Interim Statements of Cash Flows in the accompanying financial statements.

This correction includes the reclass adjustments to remove amounts for discontinued operations and to show them as a single line item on the Condensed Consolidated Interim Statements of Operations and Comprehensive Loss and the Condensed Consolidated Interim Statements of Cash Flows. See Note 23.

## **22. INCOME TAXES**

On July 31, 2019, the Company converted to a C corporation in the province of British Columbia for US tax purposes due to the reverse takeover of Cannex. Prior to July 31, 2019, the Company was classified as a Limited Liability Corporation (“LLC”) for US tax purposes. As such, prior to July 31, 2019, losses generated from operations were passes through to individual members.

The Company’s statutory U.S federal income tax rate is 27.7%. The Company’s provision for income taxes differs from applying the U.S. federal income tax rate to income before taxes primarily due to the effect of IRC Section 280E, state income taxes, certain share-based compensation, interest accretion on debt, and miscellaneous permanent differences.

Internal Revenue Code (“IRC”) Section 280E denies, at the US federal level, deductions and credits attributable to a trade or business trafficking in controlled substances. Because the Company is subject to IRC Section 280E, the Company has computed its US tax based on gross receipts less cost of goods sold. The tax provision for the six months ended June 30, 2020 and the year ended December 31, 2019, have been prepared based on the assumption that cost of goods sold is a valid expense for income tax purposes.

## **23. DISPOSALS AND DISCONTINUED OPERATIONS**

On January 21, 2020, the Company sold two management companies that controlled two Arkansas cannabis licenses to a third party for \$2 million. A gain of \$2 million is included in gain on sale of subsidiaries in the Consolidated Statements of Operations and Comprehensive Loss. The entities sold had no operations through the sale date.

On February 22, 2019, the Company acquired PHX Interactive LLC and control of Greens Goddess Inc., an Arizona cannabis dispensary. On March 20, 2020, the Company completed the divestiture of these entities through a sale to a third party for \$6 million in cash. On December 31, 2019 the Company tested the Greens Goddess goodwill for impairment and based on the sale price, recorded \$1,092 in goodwill impairment. The Company paid a \$348 fee to a lender in exchange for allowing the Company to sell the dispensary. This fee is recorded as a disposal cost and is netted with gains as part of gain on sale of subsidiaries in the Consolidated Statements of Operations and Comprehensive Loss. Revenue and expenses, gains or losses relating to the discontinuation of these operations have been eliminated from the profit or loss from the Company’s continuing operations and are shown as part of a single line item in the interim condensed consolidated statements of operations and comprehensive loss.

During April 2020, the Company contemplated the divesture of non-core assets in Pennsylvania, Maryland, and Arkansas.

On May 7, 2020, the Company completed the sale of the Mission Pennsylvania II LLC dispensary with a third party for \$10.55 million in cash. A gain for this sale is included in gain on sale of subsidiaries in the interim condensed consolidated statements of operations and comprehensive loss. Revenue and expenses, gains or losses relating to the discontinuation of these operations have been eliminated from profit or loss from the Company’s continuing operations and are shown as part of a single line item in the interim condensed consolidated statements of operations and comprehensive loss.

#### 23. DISPOSALS AND DISCONTINUED OPERATIONS (CONTINUED)

On April 30, 2020, the Company signed an agreement to sell three Maryland dispensaries to the same party that purchased Mission Pennsylvania. A fourth Maryland dispensary is expected to be sold to a non-controlling interest. The Company expects to receive a total of approximately \$7.2 million in cash for these sales which are awaiting approval from the state of Maryland which is expected by the end of the third quarter of 2020. The Company owns three management companies, Adroit Consulting, Old Line State Consulting, Silver Spring Consulting, and one dispensary, Mission Maryland LLC. The three management companies control the following entities with dispensary licenses: Chesapeake Integrated Health Institute, Maryland Alternative Relief LLC, and Premium Medicine of Maryland LLC.

In April 2020, the Company committed to a plan for the sale of Arkansas Natural Products I Management LLC, which controls a dispensary, Arkansas Natural Products I LLC. The Company is negotiating a sale with a non-controlling interest and the sale is expected to close by the end of the third quarter of 2020.

The assets and liabilities allocable to the operations within Maryland and Arkansas are classified as a disposal group. Revenue and expenses, gains and losses relating to the discontinuation of the operations have been eliminated from profit or loss from the Company's continuing operations and are shown as a single line item in the unaudited interim condensed consolidated statements of operations and comprehensive loss.
