

## **Draganfly Secures One Million Dollar Flight Services Contract**

Los Angeles, CA. March 23, 2021 -- Draganfly Inc. (OTCQB: DFLYF) (CSE: DFLY) (FSE: 3U8) ("Draganfly" or the "Company"), an award-winning, industry-leading drone solutions, and systems developer, today announced that it has signed a \$1M services deal to deploy EagleEye™ AI flight services with Windfall Geotek Inc. ("Windfall Geotek") (TSX-V: WIN) (OTCQB: WINKF).

Windfall Geotek flies mining prospect with magnetometers. The data is placed into EagleEye™ along with other data and provides recommended targets for mining companies to drill. This was traditionally done by fixed-wing aircraft flying mag surveys. Draganfly flies smaller patterns and uses EagleEye's™ AI software to get better results and provide better potential targets using the AI data. The mining focus will be on battery metals nickel, zing, lithium, and cobalt.

Windfall Geotek is a mining services company and a leader in the use of Artificial Intelligence (AI) and advanced knowledge-extraction techniques since 2005. Windfall Geotek has contractually agreed to have Draganfly provide \$1M in flight services over the course of the next year with \$500,000 already directly funded and allocated.

"We are excited about this phase of Windfall's growth with Draganfly. Bringing our two technology and service platforms together is industry-defining as we can provide the most ecologically friendly and in-depth exploration solution in the industry," said Dinesh Kandanchatha, Chairman of Windfall Geotek. "Together we will transform primary exploration by finding low/zero carbon solutions through AI and drones."

"We are excited about deepening our partnership with Windfall Geotek," said Cameron Chell, CEO of Draganfly. "EagleEye™ is a brilliant and unique offering that leverages Draganfly sensors and drone technology, creating a proprietary digital exploration solution that is both cost-effective and sustainable."

### **About Windfall Geotek – Powered by Artificial Intelligence (AI) since 2005**

Windfall Geotek (TSX-V: WIN), (OTCQB: WINKF) is an Artificial Intelligence company that has been in business for over 15 years developing its proprietary CARDS analysis (AI) and data mining techniques. Windfall Geotek can count on a multidisciplinary team that includes professionals in geophysics, geology, Artificial Intelligence, and mathematics. It combines available public and private datasets including geophysical, drill hole and surface data. The algorithms designed and employed by Windfall Geotek are calculated to highlight areas of interest that have the potential to be geologically similar to other gold deposits and mineralization. Windfall Geotek's objective is to develop a new royalty stream by significantly enhancing and participating in the exploration success rate of mining and to continue the Land Mine detection application as a high priority. Windfall has played a part in numerous past discoveries utilizing its methodology as described at: <https://windfallgeotek.com/>.

#### **Forward-Looking Statements**

This release contains certain “forward looking statements” and certain “forward-looking information” as defined under applicable Canadian securities laws. Forward-looking statements and information can generally be identified by the use of forward-looking terminology such as “may”, “will”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “continue”, “plans” or similar terminology. Forward-looking statements and information are based on forecasts of future results, estimates of amounts not yet determinable and assumptions that, while believed by management to be reasonable, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Forward-looking statements include, but are not limited to, statements with respect to the flight services agreement with Windfall Geotek. Forward-looking statements and information are subject to various known and unknown risks and uncertainties, many of which are beyond the ability of the Company to control or predict, that may cause the Company’s actual results, performance or achievements to be materially different from those expressed or implied thereby, and are developed based on assumptions about such risks, uncertainties and other factors set out here in, including but not limited to: the potential impact of epidemics, pandemics or other public health crises, including the current outbreak of the novel coronavirus known as COVID-19 on the Company’s business, operations and financial condition, the successful integration of technology, the inherent risks involved in the general securities markets; uncertainties relating to the availability and costs of financing needed in the future; the inherent uncertainty of cost estimates and the potential for unexpected costs and expenses, currency fluctuations; regulatory restrictions, liability, competition, loss of key employees and other related risks and uncertainties disclosed under the heading “Risk Factors” in the Company’s most recent filings filed with securities regulators in Canada on the SEDAR website at [www.sedar.com](http://www.sedar.com). The Company undertakes no obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents managements’ best judgment based on information currently available. No forward-looking statement can be guaranteed and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information.
