

## Draganfly Selected to Launch New Access & Healthcare Solutions with Fobi

*Webinar on March 1<sup>st</sup> will discuss how Draganfly's Vital Intelligence technology is helping Fobi's new PassPro Wallet pass platform deliver more interoperable and automated access and healthcare solutions*

**Los Angeles, CA. February 23, 2022** – Draganfly Inc. (NASDAQ: DPRO) (CSE: DPRO) (FSE: 3U8) (“**Draganfly**” or the “**Company**”), an award-winning, industry-leading drone solutions and systems developer, is pleased to announce that the Company will launch its new Access & Healthcare Solutions with its key partner Fobi AI Inc. (“**Fobi**”) (TSXV: FOBI) (OTCQB: FOBIF), a leader in providing real-time data analytics through artificial intelligence to drive operational efficiencies and profitability, during a joint webinar at 3 p.m. PST on March 1, 2022.

A lack of access, data interoperability and automation continues to be a major challenge for hosting in-person events and gatherings. This issue is creating an increasing amount of friction in communities and across a number of industries including venue management and tourism.

To address this and improve the user experience, Draganfly and Fobi are working together to provide flexible and agile solutions to meet the needs of established organizations across a variety of major markets.

An integral part of the Access & Healthcare Solutions being offered by Draganfly and Fobi is the deployment of the Company's Vital Intelligence Smart Vital Kiosks. Powered by Draganfly's [Vital Intelligence](#) platform, the kiosks can screen, with voluntary consent, temperature, blood pressure, heart rate, respiratory rate, and oxygen saturation (SpO2) in seconds. The system does not register any personal data of the individual being screened.

Integrations such as Draganfly's Smart Vital System enable Fobi's PassPro Wallet pass platform to help industry leaders solve multiple pain points. The platform will now be able to automatically deliver customers' verified credentials like vital signs, access privileges and more to both a Fobi PassPro Wallet pass for easy customer access, as well as to a back-end portal for improved management by organizations.

According to a recent event participation survey by [MarTech](#), respondents are generally in favor of health and safety protocols including vaccine status verification and test result tracking if it means they can physically attend conferences and events. Organizers are continuing to look for ways to adapt with data from [EventMB](#) revealing that 74% have become more proficient with venue management technologies.

Additional details about the joint solutions being offered by Draganfly and Fobi will be shared during the webinar on March 1, 2022.

You can register for the webinar here: [https://us02web.zoom.us/webinar/register/WN\\_fojVFc-yTnqcNvFqR5dSDg](https://us02web.zoom.us/webinar/register/WN_fojVFc-yTnqcNvFqR5dSDg)

Panelists will include:

- Cameron Chell, CEO of Draganfly
- Rob Anson, CEO of Fobi
- Tamer Shafiq, CTO of Fobi
- Steven McAuley, CEO of Empower Clinics Inc.

“Draganfly is thrilled to be working with Fobi to provide effective and sustainable solutions that solve access, data interoperability and automation problems across a number of industries including tourism and venue management,” said Cameron Chell, CEO of Draganfly. “The health insights delivered by our Vital Intelligence platform continue to be invaluable for universities, corrections facilities, sporting events and large-scale conferences.”

“Industry leaders are looking for ways to address the lack of interoperability and automation for access solutions. Draganfly’s Vital Intelligence technology makes it possible for our PassPro platform to provide a higher level of health security for venues, tourism and other industries with verified credentials including vital signs, access privileges and so much more,” said Rob Anson, CEO of Fobi.
