

**GOLDEN BIRCH ANNOUNCES APPOINTMENT OF CHRIS CORNELIUS
TO ITS BOARD OF DIRECTORS**

Timmins, ON, Canada (April 15, 2021) – Golden Birch Resources Inc. (CSE: GBRX) (“Golden Birch” or the “Company”) is pleased to announce that it has nominated Chris Cornelius to the board of the Company to fill the vacancy left from the resignation of Stephen Lewin. Mr. Cornelius has extensive experience in the resources sector, with over 30 years of experience.

Chris Cornelius is a ‘hands-on’ prospect generator and resource developer, who has held multi-dimensional positions in exploration, engineering, and operations. He has been directly involved in the management, drilling, and completion of several thousand wells in many of the world’s major hydrocarbon provinces. In 2007, he founded Cuadrilla Resources Corp, Europe’s foremost shale gas explorer, leading the company as its CEO to the discovering of the Bowland Basin Shale Play in Lancashire; an *in-situ* resource >300 trillion cubic feet. He is currently the CEO and President of CanCambria Energy Corp, a private Vancouver based South American focused exploration company. With long time partners he has been directly involved in the structured financing of numerous private and public start-ups. Chris holds a B.Sc. from Manchester University and Ph.D. from Birmingham University in the UK, both in geology.

Alan Martin, CEO & Executive Director of Golden Birch states, *“Chris brings a wealth of information from his many years of experience in the mining and exploration sectors. We are pleased to welcome Chris to our Board of Directors and we look forward to his contribution as we advance Golden Birch’s projects in Papua New Guinea.”*

About Golden Birch Resources Inc.

Golden Birch Resources Inc. is a mineral exploration company focused on acquiring, exploring, and developing quality mineral properties in Papua New Guinea. Golden Birch continues to maintain and develop strong relationships with the local community and landowners that was initiated by Papuan Minerals Ltd. The Company is also committed to the safety of its employees and consultants and respect for the environment.

Forward Looking Statements

This Press Release contains forward-looking statements that involve risks and uncertainties, which may cause actual results to differ materially from the statements made. Such statements reflect the Company’s present views, future plans, objective or goals, including words to the effect that the Company or management expects a stated condition

or result to occur. When used in this document, the words “may”, “would”, “could”, “will”, “intend”, “plan”, “anticipate”, “believe”, “estimate”, “expect” and similar expressions are intended to identify forward-looking statements. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management’s expectations. Many risks, uncertainties, and other factors involved with forward-looking information could cause our actual results to differ materially from the statements made, including those factors discussed in filings made by us with the Canadian securities regulatory authorities.

Forward-looking information in this news release includes, but is not limited to, the Offering, the Company’s objectives, goals or future plans, statements, such actual results of current exploration programs, the general risks associated with the mining industry, the price of copper, gold and other metals, currency and interest rate fluctuations, increased competition and general economic and market factors, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, the inability to predict and counteract the effects of COVID-19 on the business of the Company, including but not limited to the effects of COVID-19 on the price of commodities, capital market conditions, restriction on labour and international travel and supply chains, and those risks set out in the Company’s public documents filed on SEDAR.

Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
