Notes to the Unaudited Condensed Interim Financial Statements

September 30, 2022

(expressed in Canadian dollars unless otherwise noted)

1. Nature of operations and going concern

PNG Copper Inc. (the "Company" or "PNG Copper Inc.") was incorporated on October 4, 2017 under the Canada Business Corporations Act (the "Act") as Golden Birch Resources Inc. The name was changed to PNG Copper Inc. on August 12, 2021. The principal business of the Company is the acquisition, exploration and development of mineral property interests in Papua New Guinea. The Company is a reporting issuer in the Province of Ontario and is incorporated in Canada with limited liability under the legislation of Canada. The head office is located at 66 Wellington Street West, Suite 4100, Toronto, Ontario M5K 1B7.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of amounts expended on exploration and evaluation activities is dependant upon a discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and future profitable production or, alternatively, upon disposition of such properties at a profit. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, expropriation, currency exchange fluctuations and restrictions and political uncertainty.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements, unregistered prior claims and agreements, aboriginal claims, social license requirements and non-compliance with regulatory requirements.

The Company had a net loss of \$2,042,317 (September 30, 2021 - \$2,696,396) for the period ended September 30, 2022, had an accumulated deficit of \$11,966,248 (December 31, 2021 - \$9,958,111) and a working capital deficiency of \$(179,646) (December 31, 2021 - \$(425,660)) as at September 30, 2022. The Company's ability to continue as a going concern is dependent on the Company being able to satisfy its liabilities as they become due, the Company being able to obtain the necessary financing to complete the development of its mineral properties, the attainment of profitable mining operations, and/or the receipt of proceeds from the disposition of its mineral properties. The outcome of these matters cannot be predicted at this time. There is no assurance that funds will be available on terms acceptable to the Company or at all. These financial statements do not include any adjustments to the carrying values and classification of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its liabilities in anything other than the ordinary course of operations. Such adjustments could be material.

1. Nature of operations and going concern (continued)

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

2. Basis of presentation

(a) Statement of compliance with International Financial Reporting Standards

These financial statements, including comparatives, have been prepared in accordance and compliance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

(b) Basis of preparation

The interim condensed financial statements for the nine months ended September 30, 2022 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed financial statements do not include all information and disclosures required in the annual financial statements, and should be read in conjunction with the annual financial statements as at December 31, 2021.

Current accounting changes

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2022. Many are not applicable or do not have a significant impact to the Company and have been excluded.

Future Accounting changes

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for accounting periods beginning on January 1, 2022 or later. Updates that are not applicable or are not consequential to the Company have been excluded.

Notes to the Unaudited Condensed Interim Financial Statements

September 30, 2022

(expressed in Canadian dollars unless otherwise noted)

3. Significant accounting policies

These unaudited condensed interim financial statements have been prepared in accordance with IFRS as issued by the IASB on a basis consistent with those followed in the Company's most recent annual financial statement for the year ended December 31, 2021.

These unaudited condensed interim financial statements do not include all note disclosures required by IFRS for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended December 31, 2021. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the nine month period ended September 30, 2022 are not necessarily indicative of the results that may be expected for the year ending December 31, 2022.

The significant accounting policies followed in these condensed interim financial statements are consistent with those applied in the Corporation's audited annual financial statements for the year ended December 31, 2021.

Use of critical estimates and judgements

The preparation of these condensed interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income, and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed by management on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future year if the revision affects both current and future year.

In preparing these condensed interim consolidated financial statements, the significant judgements and estimates made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements as at and for the year ended December 31, 2021.

Keveri Property, Papua New Guinea

Pursuant to an option and joint venture agreement with Papuan Mineral Pty Ltd. (PMPL) and its wholly owned subsidiary Papuan Miners Ltd. (PML) dated August 28, 2018, which agreement was replaced by a definitive option agreement amongst the parties dated March 20, 2020, the Company has an option to acquire 85% of the issued and outstanding shares of PML. PML is the legal and beneficial owner of 100% of the licences which encompass the Keveri Project in Papua New Guinea. The renewal application for one of the two licences for the Keveri Project is currently in process.

The interest will be earned in two stages: To exercise the first option and earn a 51% interest in the Keveri Project, the Company must:

- (a) pay to PMPL \$129,000 AU (\$123,000) within 25 days of execution of the agreement (paid);
- (b) pay to PMPL \$100,000 AU (\$96,000) within six months of the execution of the agreement if the shares of the Company are not listed on a recognized stock exchange ("Listing") (paid);

Notes to the Unaudited Condensed Interim Financial Statements

(expressed in Canadian dollars unless otherwise noted)

4. Exploration and evaluation expenses (continued)

Keveri Property, Papua New Guinea (continued)

- (c) pay to PMPL \$200,000 AU (\$192,000) within twelve months of the execution of the agreement if the shares of the Company are not listed on a recognized stock exchange (paid);
- (d) List the shares of the Company on a recognized stock exchange within 18 months of the execution date, August 24, 2018, of the agreement (Completed). Effective March 2, 2020, the Company commenced trading on the Canadian Securities Exchange ("CSE");
- (e) fund a total of \$300,000 AU in exploration expenditures on the Keveri Project, within twelve months of March 2, 2020 (Completed);
- (f) complete 3,000 metres of diamond drilling within 42 months of March 2, 2020;
- (g) complete an equity financing of not less than \$3,000,000 AU (\$2,876,000), net of fees, upon Listing. Equity financing's completed prior to listing are included in the total (Completed);
- (h) pay to PMPL \$450,000 AU (\$431,000) in cash as follows:
 - (i) \$150,000 AU (\$131,000) upon Listing (paid);
 - (ii) \$150,000 AU (\$149,000) within 12 months of Listing or by the issuance of Common Shares (at the Company's election) at the volume-weighted average price for trading of Common Shares on a recognized stock exchange immediately preceding their issue (paid); and
 - (iii) \$150,000 AU (\$144,000) within 24 months of Listing or by the issuance of Common Shares (at the Company's election) at the volume-weighted average price for trading of Common Shares on a recognized stock exchange immediately preceding their issue (issued).
- (i) pay to PMPL \$1,500,000 AU (\$1,438,000) in cash or in common shares of the Company with values as follows:
 - (i) \$500,000 AU (\$479,000) within 30 months of Listing (issued); and
 - (ii) \$1,000,000 AU (\$959,000) within 36 months of Listing.
- (j) issue to PMPL shares of the Company with a value of \$600,000 AU (\$575,000) upon Listing (issued);
- (k) from the Listing date, pay PMPL an annual option fee of \$150,000 AU (\$144,000) per year until the second option is completed; and
- (l) meet the exploration expenditure requirements to maintain the licences in good standing for a period of two years after listing on a recognized stock exchange and for a period of 12 months should the Company elect not to exercise the second option. Annual exploration expenditure requirements are approximately K60,000 (\$24,000).

Notes to the Unaudited Condensed Interim Financial Statements

(expressed in Canadian dollars unless otherwise noted)

4. Exploration and evaluation expenses (continued)

Keveri Property, Papua New Guinea (continued)

To exercise the second option and earn a further 34% interest in the Keveri Project, the Company must:

- (a) complete 10,000 metres of diamond drilling during the period of the second option; and
- (b) make the following payments in cash or shares of the Company as follows:
 - (i) \$500,000 AU (\$479,000) within 48 months of Listing
 - (ii) \$1,000,000 AU (\$959,000) within 60 months of Listing
 - (iii) \$1,500,000 AU (\$1,438,000) within 72 months of Listing

The Company must pay the applicable ground rent and mineral right fees, which are payable to the Government of Papua New Guinea pursuant to the Prospecting License, and becoming due during the option period. The Company is also obligated to meet PML's statutory and administrative expenses during the option period. These costs are estimated to be approximately \$10,000 annually.

The Project is subject to a 2.0% net smelter royalty ("NSR Royalty") in the Keveri Property, 1/2 of which the Company has the right to purchase (1.0%) at any time for \$1,500,000.

The government of Papua New Guinea holds the right to acquire up to a 30% interest in the licences at any time prior to the commencement of mining by paying to the Company the prorata amount of accumulated exploration expenditures incurred. The government would then further contribute to the development on a prorata basis unless otherwise agreed. They are also entitled to a levy of 0.25% of mine revenue. Two former directors of the Company control PMPL. See Note 8.

9. Commitments and contingencies

The Company's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

10. Capital management

The capital of the Company consists of issued capital, warrants and options. The Company manages and adjusts its capital structure based on available funds in order to support the acquisition, exploration and development of its exploration and evaluation assets. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares, seek debt financing, or acquire or dispose of assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is not subject to any externally imposed capital requirements. Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable. There have been no significant changes in the risks, objectives, policies and procedures in 2022 or 2021.
