**METALITE RESOURCES INC.**  
**INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS -**  
**QUARTERLY HIGHLIGHTS**  
**THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2024**

---

**MANAGEMENT'S DISCUSSION AND ANALYSIS - QUARTERLY HIGHLIGHTS**

The following Interim Management's Discussion and Analysis ("Interim MD&A") of Metalite Resources Inc. ("Metalite" or the "Company") for the three and nine months ended September 30, 2024 is dated as of November 29, 2024 and has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management discussion & analysis, being the Management Discussion & Analysis ("Annual MD&A") for the fiscal year ended December 31, 2023. This Interim MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since the date of the Annual MD&A.

This Interim MD&A has been prepared in compliance with section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the unaudited condensed interim consolidated financial statements of the Company for the three and nine months ended September 30, 2024 in addition to the audited annual consolidated financial statements for the years ended December 31, 2023 and 2022, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's unaudited condensed interim consolidated financial statements and the financial information contained in this Interim MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS. Information contained herein is presented as of November 29, 2024, unless otherwise indicated.

For the purposes of preparing this Interim MD&A, Management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of the Company's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Company and its operations can be obtained from the offices of the Company or from [www.sedarplus.ca](http://www.sedarplus.ca) and the Company's website [www.metaliteresources.com](http://www.metaliteresources.com).

**COMPANY OVERVIEW**

On April 1, 2019, Metalite was incorporated under the laws of the province of British Columbia. The Company's principal business activity is the exploration for mineral resources in New South Wales, Australia. Metalite is a public company whose common shares trade on the Canadian Securities Exchange ("CSE") under the symbol METL. On October 20, 2023, the Company consolidated its share capital on a 1 new to 10 old shares basis. All share and per share amounts have been retroactively restated for all prior periods to reflect the share consolidation.

On February 20, 2024, the Company announced that its subsidiary, Next Generation Resources inc. has filed an assignment under Section 49 of the Bankruptcy and Insolvency Act (*Canada*), effective February 12, 2024. In connection with the above, S. Funtig and Associates Inc. has been appointed as the bankruptcy trustee.

The Company's head office address is 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

**Interim Management Discussion and Analysis - Quarterly Highlights**  
**Three And Nine Months Ended September 30, 2024**  
**Dated - November 29, 2024**

---

**CORPORATE UPDATES**

On January 19, 2024, the Company announced that it has entered into an arm's length non-binding letter of intent ("LOI") with Cachee Gold Mines Corp. dated January 19, 2024 to acquire an interest in an advanced stage critical metals project located in Flett and Angus townships, Ontario.

Additionally on January 29, 2024, the Company granted incentive stock options to certain directors, officers, employees and consultants of the Company to acquire an aggregate of 1,150,000 common shares in the capital of the Company at an exercise price of \$0.05 (the "Options") in accordance with its Equity Incentive Plan. Of the total Options granted, 900,000 Options have been granted to certain directors and officers of the Company. All Options are fully vested as at the date of grant and exercisable for a five-year term expiring January 24, 2029.

On January 26, 2024 the Company announced that it has changed its auditor from Crowe MacKay LLP., Chartered Professional Accountants (the "Former Auditor") to DNTW Toronto LLP, Chartered Professional Accountants ("Successor Auditor") effective January 12, 2024.

On April 7, 2024, Osprey Advanced Materials Inc. ("Osprey"), a wholly-owned subsidiary of Cachee Gold Mines Corp. ("Cachee") entered into a contract mining agreement with Ferromin Inc. ("Ferromin") on Osprey's advanced stage critical metals project located in Flett and Angus townships, Ontario ("Titan Project").

On April 15, 2024, the Company announced by mutual agreement, Cachee and Metalite have extended the term of the LOI. All other terms and conditions of the LOI (as further described in Metalite press release dated January 19, 2024) remain unchanged.

On May 10, 2024, the Company announced the appointment of Chris Hazelton as Chief Executive Officer and Director of the Company effective immediately.

On June 27, 2024 the Company announced that Paul L. Jones and Mario Miranda have resigned from the board of directors of the Company and Jeff Berman and Jeremy Goldman have been appointed to the board of directors effective June 26, 2024. The Company thanks Mr. Jones and Mr. Miranda for their service to the Company and welcomes Mr. Berman and Mr. Goldman as new independent members of the board, who will also serve on the Company's audit committee.

**CORPORATE EVENTS SUBSEQUENT TO SEPTEMBER 30, 2024**

Subsequent to September 30, 2024, the Company entered into a sublease agreement related to the mining equipment leased.

Subsequent to September 30, 2024, the Company announced that it has entered into a binding letter of intent ("LOI") dated November 26, 2024 to acquire 100% interest in Lyra Mining Corp. ("Lyra"), a private arm's length company incorporated in Ontario, which holds a key land position in the historic Elliot Lake Uranium Mining District in Ontario ("Elliot Lake North Project"). Pursuant to the LOI, Metalite will acquire 100% interest in Lyra ("Acquisition") by issuing 20,000,000 common shares in the capital of Metalite ("Metalite Shares") to the shareholders of Lyra on a pro-rata basis, subject to certain contractual resale restrictions to be determined by Metalite and Lyra prior to closing. The Acquisition is expected to be completed by way of a three-cornered amalgamation whereby a new wholly-owned subsidiary of Metalite, will amalgamate with Lyra and all of the issued and outstanding common shares of Lyra following the amalgamation will immediately be exchanged for common shares of Metalite. The Acquisition is subject to a number of conditions, including, but not limited to: i) due diligence review by each of the parties; ii) execution of the definitive agreement on or before January 31, 2025; iii) Lyra completing a capital raise such that it has working capital of no less \$200,000 in cash on closing; iv) receipt of the approval of Lyra shareholders and v) the parties obtaining all requisite regulatory approvals. There can be no assurance that the Acquisition will be completed as proposed or at all.

## **EXPLORATION EVENTS**

There were no significant exploration events during and subsequent to the nine months ended September 30, 2024.

Subsequent to September 30, 2024, the Company entered into a sublease agreement related to the mining equipment leased.

Subsequent to September 30, 2024, the Company announced that it has entered into a binding letter of intent ("LOI") dated November 26, 2024 to acquire 100% interest in Lyra Mining Corp. ("Lyra"), a private arm's length company incorporated in Ontario, which holds a key land position in the historic Elliot Lake Uranium Mining District.

## **LETTER OF INTENT**

### ***Lyra Mining Corp. Letter of Intent***

The Company announced that it has entered into a binding letter of intent ("LOI") dated November 26, 2024 to acquire 100% interest in Lyra Mining Corp. ("Lyra"), a private arm's length company incorporated in Ontario, which holds a key land position in the historic Elliot Lake Uranium Mining District in Ontario ("Elliot Lake North Project"). Pursuant to the LOI, Metalite will acquire 100% interest in Lyra ("Acquisition") by issuing 20,000,000 common shares in the capital of Metalite ("Metalite Shares") to the shareholders of Lyra on a pro-rata basis, subject to certain contractual resale restrictions to be determined by Metalite and Lyra prior to closing. The Acquisition is expected to be completed by way of a three-cornered amalgamation whereby a new wholly-owned subsidiary of Metalite, will amalgamate with Lyra and all of the issued and outstanding common shares of Lyra following the amalgamation will immediately be exchanged for common shares of Metalite. The Acquisition is subject to a number of conditions, including, but not limited to: i) due diligence review by each of the parties; ii) execution of the definitive agreement on or before January 31, 2025; iii) Lyra completing a capital raise such that it has working capital of no less \$200,000 in cash on closing; iv) receipt of the approval of Lyra shareholders and v) the parties obtaining all requisite regulatory approvals. There can be no assurance that the Acquisition will be completed as proposed or at all.

### ***Cachee Letter of Intent***

The Company entered into an arm's length non-binding letter of intent ("LOI") with Cachee Gold Mines Corp. ("Cachee") dated January 19, 2024 to acquire an interest in an advanced stage critical metals project located in Flett and Angus townships, Ontario ("Titan Project").

On April 15, 2024, by mutual agreement, Cachee and Metalite have extended the term of the LOI and the deadline for the completion of the financing by Metalite to May 31, 2024.

While the exclusivity period under the letter of intent has concluded, Metalite and Cachee remain in discussions and continue to explore potential opportunities for collaboration. Updates regarding these discussions will be provided as developments occur. Pursuant to the terms of the LOI, Cachee previously agreed to advance an amount of up to CAD \$50,000 to fund certain operating expenses of Metalite as evidenced by a secured promissory note, which bears an interest of 15% per annum and is due on December 31, 2024.

## **Arthurs Seat**

Exploration License No. 9144 ("EL 9144") was granted on April 30, 2021 by the Department of Regional NSW – MEG. Additionally, the Company estimates that a minimum exploration expenditure and associated expenses of AUD \$25,000 in year one and AUD \$50,000 in year two will be required, based on certain MEG requirements.

Arthurs Seat spans 42 km<sup>2</sup> across the northwestern region of the New England Orogenic Terrane. The New England Orogenic Terrane comprises island-arc and continental-arc gold-Silver mineralized belts, which host extensive intrusion related polymetallic deposits. These include Mount Carrington (24 Moz Ag), Webb (>12 Moz Ag), Hillgrove (2 Moz Au), Gympie (5 Moz Au), Cracow (3 Moz Au), Mount Morgan (>5 Moz Au) and Mount Rawdon (2 Moz Au).

**Metalite Resources Inc.**  
**Interim Management Discussion and Analysis - Quarterly Highlights**  
**Three And Nine Months Ended September 30, 2024**  
**Dated - November 29, 2024**

---

The property is centred on the regional Severn Thrust Fault and mineralized granitic/sandstone contact. The property includes 3 historic silver mines and prospects. Mineralization is found in white quartz and tourmaline veins cutting the greisenised granite - Meta- sedimentary contact zone. This contact spans over 15 km strike length within the concession, historically mined for silver and tin ore. The contact target and associated mines remain unexplored sub-surface since mining ended in 1890.

Elevated gold grades observed at the Cox gold/silver Prospect, are interpreted as related with the hanging wall of the deep-seated Severn Thrust Fault – potentially representing a robust 7km long un-explored secondary target.

The Property includes:

- Murray and Co Mine: Worked in the late 1890's - underground adits and shafts were driven on silver and tin rich quartz and tourmaline veins, which intrude metasediments along the greisenised granite contact.
- Sampling of large mine waste dumps adjacent to Murray and Co mine returned grades of up to 1085 g/t Ag and 1400 ppm Sb. Indicating historic mining on the property was highly selective and extremely high-grade.

Exploration work

Despite historic mining activity, the property remains largely under-explored. Field work will initially focus on field sampling of historic workings and prospects, in conjunction with gridded soil geochemical sampling and geophysics to better define mineralization across the contact and Severn Fault targets.

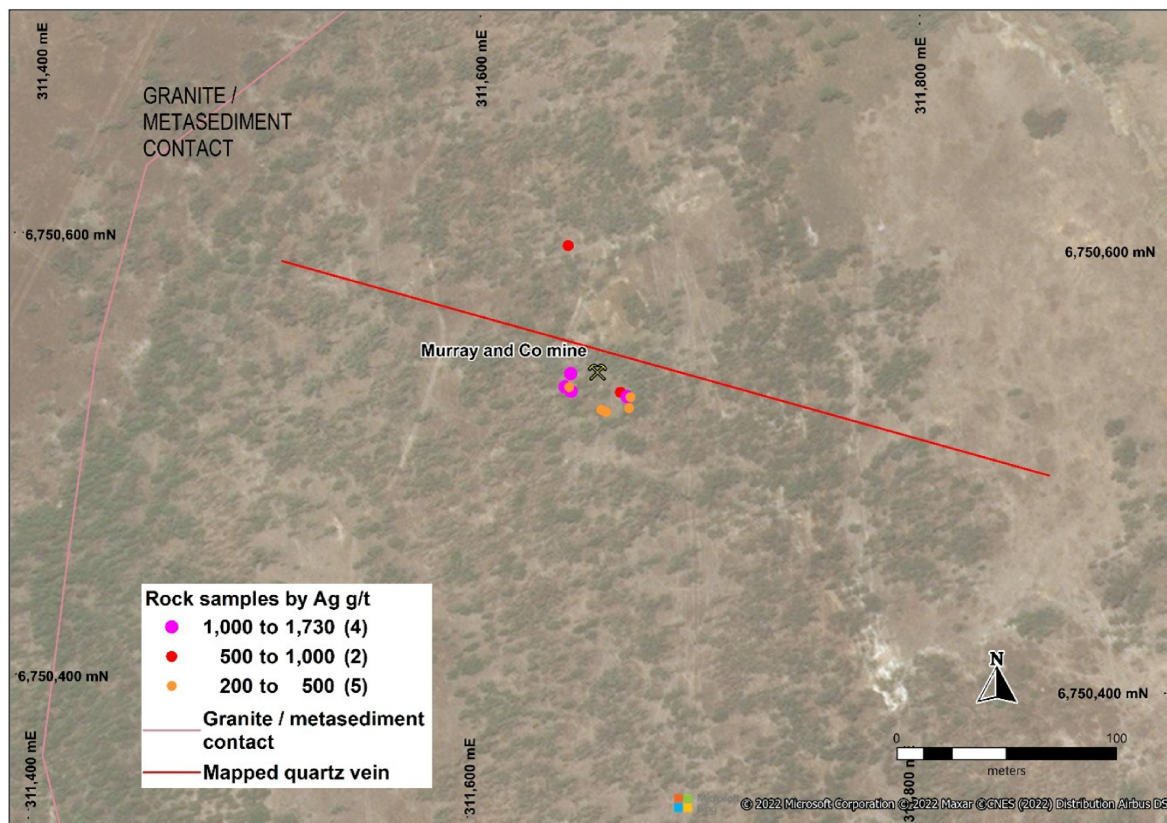

A total of 274 rock chip samples have been collected at the Arthurs Seat Project (EL 9144). Field work was targeted at sampling mullock dumps and shafts at the Murray and Co mine and McDonalds Prospect, as well as sampling along the N-S fault and the greisen altered granite contact at the Arthurs Seat Prospect. Key results are described below.

**Murray and Co Mine**

Twenty seven (27) rock samples were collected from the Murray and Co Mine dump heaps and historic shafts. Highly anomalous gold and silver assays were returned over 40 m strike length at the Murray and Co Mine, demonstrated in the figure below. The Murray and Co Mine is located within a zone of quartz veined metasediment approximately 350 m in E-W strike length.

The highest gold value of **6.27 g/t Au and 1,385 g/t Ag** was returned from the westerly most shaft from a brecciated and silicified metasediment containing multiple quartz veins. The table below shows significant assay results from the rock chip sampling at Murray and Co Mine. Very little historic work has been done at Murray and Co Mine. These gold assays are the first to be reported at this prospect.

**Metalite Resources Inc.**  
**Interim Management Discussion and Analysis - Quarterly Highlights**  
**Three And Nine Months Ended September 30, 2024**  
**Dated - November 29, 2024**

High-grade sampling results from Murray and Co Mine coloured by Ag g/t. Highest gold result of 6.27 g/t Au and 1,725 g/t Ag in 40 m zone of historic shafts.

Other assays surrounding Murray and Co Mine include 16 samples that graded between 0.2 g/t – 0.01 g/t Ag.

Significant assay results from rock chip sampling program at the Murray and Co Mine (>100 g/t Ag, > 0.09g/t Au) from Arthurs Seat Project, EL 9144. Listed in order of sample number.

Sample ID	Easting	Northing	RL	Lithology	Au g/t	Ag g/t

**Interim Management Discussion and Analysis - Quarterly Highlights**  
**Three And Nine Months Ended September 30, 2024**  
**Dated - November 29, 2024**

**McDonalds Mine Prospects**

Forty-seven (47) rock samples were collected at the McDonalds prospect and returned anomalous gold and silver assays over an area 600 m x 350 m. Visual observations of some samples included massive stibnite and returned antimony (Sb) values up to 12.75% Sb.

These results are encouraging and show the potential for a polymetallic precious and base metal deposit along strike from the high-grade silver values at the Murray and Co Mine located 2.75 km to its west.

*Significant assay results from rock sampling program at the McDonalds prospect (>0.1g/t Au and >20g/t Ag) from Arthurs Seat Project, EL 9144. Listed in order of sample number, rounded to 2 decimal places.*

**Three And Nine Months Ended September 30, 2024**  
**Dated - November 29, 2024**

**LIQUIDITY AND CAPITAL RESOURCES**

The Company finances its operations through the sale of its equity securities, loans and other financing activities. The Company has no producing mineral properties. The Company intends to obtain financing in the future primarily through equity financing, loans and other financing activities. There can be no assurance that the Company will succeed in obtaining additional financing, now and in the future. Failure to raise additional financing on a timely basis could cause the Company to suspend its operations and/or sell its interests in certain properties.

The continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management believes it will be able to raise funds as required in the long term, but recognizes the risks attached thereto.

As at September 30, 2024, the Company had current assets of \$24,709 (December 31, 2023 - \$43,738) and current liabilities of \$605,751 (December 31, 2023 - \$443,575). As of September 30, 2024, the Company has a working capital deficit of \$581,042 (December 31, 2023 - \$399,837). The Company initiated restructuring activities in order to preserve cash until such time it can obtain additional financing.

**Selected Cash Flow Information**

	<b>Nine Months Ended September 30, 2024</b>
<b>Operating activities</b>	
Net loss for the period	(224,715)
Items not affecting cash (a)	54,531
Changes in non-cash working capital items (b)	112,527
<b>Net cash used in operating activities</b>	<b>(57,657)</b>

(a) Non-cash items of \$54,531 consisted of share-based compensation of \$38,115, depreciation of \$10,754, interest paid of \$5,882, and unrealized foreign exchange loss of \$220.

(b) Cash used for working capital purposes of \$112,527 consisted of a decrease in accounts receivables of \$3,748, a decrease in prepaid expenses of \$2,568, a decrease in assets related to operations to be wound-up of \$3,170, and an increase in accounts payable and accrued liabilities of \$103,041.

During the nine months ended September 30, 2024, the Company had cash outflows from investing activities of \$8,483, which was due to lease payments of \$8,483.

**RELATED PARTY TRANSACTIONS**

Related parties include Officers, the Board of Directors, close family members and enterprises which are controlled by these individuals as well as certain persons performing similar functions. Related party transactions conducted in the normal course of operations are measured at the exchange value (the amount established and agreed to by the related parties).

The Company had the following transactions involving officers and directors for the following periods:

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2024</b>	<b>2023</b>	<b>2024</b>	<b>2023</b>

	<b>1.20</b>	<b>2,774,960</b>

The Company no agent warrants outstanding as of the date of this Interim MDA.

#### **CAPITAL RISK MANAGEMENT**

Capital is comprised of the Company's shareholders' equity. The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital. The Company is not subject to external capital restrictions. There were no changes in the Company's approach to capital management.

#### **ENVIRONMENTAL LIABILITIES**

The Company is not aware of any environmental liabilities or obligations associated with its mineral properties. The Company is conducting its operations in a manner consistent with governing environmental legislation.

#### **OFF BALANCE SHEET ARRANGEMENTS**

The Company is not a party to any off-balance sheet arrangements or transactions.

#### **ADOPTION OF NEW ACCOUNTING POLICIES**

During the nine months ended September 30, 2024, the Company did not adopt any new IFRS standards, interpretations, amendments and improvements of existing standards which had any material impact on the Company's unaudited condensed interim consolidated financial statements.

#### **ACCOUNTING STANDARDS ISSUED BUT NOT YET APPLIED**

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for annual periods beginning on or after January 1, 2025 or later periods. The Company is currently evaluating the impact of the adoption of these new standards on its unaudited condensed interim consolidated financial statements.

#### **TRENDS AND ECONOMIC CONDITIONS**

The Company continues to monitor its spending and will amend its plans based on business opportunities that may arise in the future. Management regularly monitors economic conditions and estimates their impact on the Company's operations and incorporates these estimates in both short-term operating and longer term strategic decisions.

The Company's business financial condition and results of operations may be affected by economic and other consequences from Russia's military action against Ukraine and the sanctions imposed in response to that action in late February 2022. While the Company expects any direct impacts, of the pandemic and the war in the Ukraine, to the business to be limited, the indirect impacts on the economy and on the mining industry and other industries in general could negatively affect the business and may make it increasingly difficult for it to raise additional equity or debt financing. Management cannot accurately predict the future impact these items may have on:

- Global commodity prices
- Demand and the ability to explore for valuable minerals;
- Purchasing power of the Canadian dollar; and
- Ability to obtain funding.

#### **RISKS AND UNCERTAINTIES**

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risk and Uncertainties" in the Company's annual management's discussion & analysis for the fiscal year ended December 31, 2023, available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).
