## 1. NATURE AND CONTINUANCE OF OPERATIONS

Canamera Energy Metals Corp. (the "Company") was incorporated on September 27, 2018, under the laws of the Province of British Columbia, Canada. On September 20, 2019, the Company completed a plan of arrangement (the "Arrangement") with its former parent, Waraba Gold Limited ("Waraba") formerly known as Zenith Exploration Inc. ("Zenith"), whereby the Mantle property was transferred to the Company, Waraba's one common share in the Company was cancelled and 5,759,282 common shares were issued to the shareholders of Waraba. On May 25, 2022, the Company changed its name to Canamera Energy Metals Corp and commenced trading on the Canadian Securities Exchange under the new symbol "EMET".

The Company is a resource exploration company that is acquiring and exploring mineral properties. The head office, principal address, records office and registered address of the Company are located at 710 1030 West Georgia Street, Vancouver BC.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. At January 31, 2023, the Company had not yet achieved profitable operations, had accumulated losses of \$553,656 (April 30, 2022 - \$442,678) since its inception and expects to incur further losses in the development of its property, all of which casts significant doubt about the Company's ability to continue as a going concern. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon the successful results from its business activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months with loans from directors and companies controlled by directors.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from coronavirus (COVID-19). The Company continues to operate its business and move its exploration activity forward at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in future periods.

## 2. BASIS OF PREPARATION

At April 30, 2022, \$4,147 was due to Daryn Gordon Professional Corporation.

### 7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Cash is carried at fair value using a level 1 fair value measurement. The carrying value of cash, accounts payable and accrued liabilities, and due to related party approximate their fair value because of the short-term nature of these instruments.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

There have been no changes from the prior year.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

## 7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

### *Credit risk*

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions.

### *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at January 31, 2023, the Company had a cash balance of \$311,080 (April 30, 2022 - \$398,229) to settle current liabilities of \$81,800 (April 30, 2022 - \$52,601). All of the Company's accounts payable and accrued liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. To maintain liquidity, the Company is currently investigating financing opportunities.

### *Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Company does not have a practice of trading derivatives.

### *Interest rate risk*

The Company's financial assets exposed to interest rate risk consist of cash balances. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As at January 31, 2023 and April 30, 2022, the Company did not have any investments in investment-grade short-term deposit certificates.

### *Foreign currency risk*

Foreign currency risk is the risk of loss that may arise from changes foreign exchange rates. The Company does not have a practice of trading derivatives.

### *Price risk*

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.
