GOLDSEEK RESOURCES COMMENCES TENDER PROCESS FOR HEMLO DRILL PROGRAM

April 30, 2020, London, Ontario – Goldseek Resources Inc. (CSE:GSK) (“Goldseek” or the “Company”) is pleased to announce it has commenced the drill tender process for its maiden 1,500-meter drill program in the Hemlo Gold Camp. For any drill company interested that we haven’t reached out to, please email us at the contact below. The company has a drill permit valid until April 2022.

Goldseek’s President & CEO Jon Deluce states, “We are very excited to start the process on our maiden 1,500-meter program at our Horizon Property in the Hemlo Mining Camp. We are currently fine-tuning our drill targets, which are outlined in our April 2020 corporate presentation. We will be providing a further update on these targets shortly.

In March 2020, Barrick announced that they tasked “Barrick with turning Hemlo into Tier Two UG gold mine¹”. This is a sign of the continued potential for the deposit, even with previous production of over 21 million ounces during 30 years of operation. With Goldseek sharing 5 km of border with Barrick Gold, we will closely be watching for any exploration developments.”
