Notes to Condensed Interim Financial Statements Three Months Ended September 30, 2022 (Expressed in Canadian Dollars) Unaudited

1. Nature of operations and going concern

Goldseek Resources Inc. (the "Company") was incorporated under the British Columbia Business Corporations Act on September 21, 2018. The Company is in the business of acquiring and exploring mineral properties. On February 14, 2020, the Company filed a non-offering prospectus and became a reporting issuer in the provinces of British Columbia and Ontario. The Company's common shares commenced trading on the Canadian Securities Exchange ("CSE") on March 9, 2020 under the stock symbol "GSK". The address of the Company's corporate office and principal place of business is 1231 Huron Street, London, Ontario, N5Y 4L1, Canada.

These unaudited condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of operations in the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

The Company will require additional financing in order to further develop its exploration properties, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. While the Company has been successful in securing equity financings in the past, there is no assurance that it will be able to do so in the future and on terms acceptable to management. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

2. Basis of presentation and statement of compliance

Statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared using the same accounting policies and methods of computation as the most recent annual financial statements for the year ending June 30, 2022, except for those noted in note 3. The unaudited condensed interim financial statements for the three months ended ended September 30, 2022 were reviewed and authorized for issue by the Board of Directors on November 28, 2022.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for certain financial instruments measured at fair value. The financial statements are presented in Canadian dollars, which is the Company's functional and reporting currency.

The preparation of these financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

Notes to Condensed Interim Financial Statements Three Months Ended September 30, 2022 (Expressed in Canadian Dollars) Unaudited

3. Summary of significant accounting policies

Accounting estimates and judgments

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there are significant risk of material adjustments to assets and liabilities in future accounting periods include:

• Recoverable amount of its exploration and evaluation assets: Management assesses whether it is likely that exploration and evaluation costs incurred will be recovered through successful exploration and development or sale of the asset under review. Furthermore, the assessment as to whether economically recoverable reserves exist is itself an estimation process. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the statements of loss and comprehensive loss in the period when the new information becomes available.

Significant judgments:

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in the Company's financial statements include:

- The Company's ability to continue as a going concern and whether there are events or conditions that may give
 rise to significant uncertainty.
- Deferred tax assets and liabilities: The measurement of the deferred tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of deferred taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. For deferred tax calculation purposes, management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and future tax provisions or recoveries could be affected.

Accounting standards issued but not yet effective

The Company has reviewed the accounting standards or amendments to existing accounting standards that have been issued but have future effective dates and determined that these are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Exploration and evaluation assets (continued)

Bonanza Property

The Bonanza Property is located near the Municipality of Senneterre, Quebec. On October 11, 2018, the Company signed a purchase agreement with Delford Investments Inc., Jonathon Deluce (Chief Executive Officer ("CEO") of the Company) and Bradel Properties Ltd. (a shareholder of the Company) and Delinks Holdings Ltd. (a shareholder of the Company) (collectively, the "Bonanza Sellers") to purchase the property, including surface rights, mineral rights and personal property and permits associated with the Bonanza Property. In terms of the agreement, the Company was required to issue 6,000,000 consideration shares to satisfy payment of the purchase price of \$300,000. In addition to the issuance of the consideration shares, the Company has also granted the Bonanza Sellers an undivided royalty equal to 3.0% of the Net Smelter Return ("NSR") in respect to any production from the Bonanza Property.

Horizon Property

Horizon #1 Property

The Horizon #1 Property is located near the Township of Wabikoba Lake Area, Ontario. On February 22, 2019, the Company signed a purchase agreement with four parties, two of which are related to directors (collectively, the "Horizon #1 Sellers") to purchase the property, including surface rights, mineral rights and personal property and permits associated with the property. In terms of the agreement, the Company was required to issue 3,500,000 consideration shares to satisfy payment of the purchase price of \$175,000. In addition to the issuance of the consideration shares, the Company has also granted the Horizon #1 Sellers an undivided royalty equal to 3.0% of the NSR in respect to any production from the Horizon #1 Property.

Horizon #2 Property

The Horizon #2 Property is located near the Township of Wabikoba Lake Area, Ontario. On February 22, 2019, the Company signed a purchase agreement with North American Exploration Inc. (the "Horizon #2 Seller") to purchase the property, including surface rights, mineral rights and personal property and permits associated with the property. According to the agreement, the Company was required to issue 150,000 consideration shares to satisfy payment of the purchase price of \$7,500. Upon issuance of the consideration shares, the Company has also granted the Horizon #2 Seller an undivided royalty equal to 3.0% of the NSR in respect to any production from the Horizon #2 Property.

Horizon North-West Property

The Company acquired 100% interest in the Horizon North-West property on July 21, 2020. The property is subject to a 3.0% NSR. Pursuant to the definitive agreement, the Company issued 40,000 shares valued at \$16,200. The Company can purchase half of the NSR royalty at any time for \$1,500,000 from the legacy royalty holders.

Collectively, the Horizon #1 Property, the Horizon #2 Property and the Horizon North-West Property are presented as the Horizon property.

Quevillon West Property

During the year ended June 30, 2020, the Company acquired the Quevillon West Property by direct staking.

4. Exploration and evaluation assets (continued)

Southern Arm Property

On April 22, 2020, the Company acquired the Southern Arm Property by direct staking. On May 26, 2020, the Company acquired additional 8 claims from Midland Exploration Inc. ("Midland"). The agreement for the property acquisition is as follows:

- The 8 claims were acquired through an exchange of properties agreement with Midland whereby the Company exchanged its Quevillon North Property (see below). The Company granted to Midland a 2% NSR on the Property with a 1% buyback option for \$1 million. Midland agreed to assume the 2% NSR payable on the Quevillon North property as described below:
- The Quevillon North property was acquired by the Company on May 12, 2020. Pursuant to a definitive agreement, the Company acquired 100% interest, subject to a 2% NSR, in the Quevillon North property from two vendors which owned the property as to 50% each, and one vendor was a company controlled by the CEO of the Company. The terms of the purchase were as follows:
 - Upon CSE acceptance, pay \$1,000 in cash (paid) and issue 15,000 shares of the Company (issued with a fair value of \$4,500); and
 - ° The Company can purchase 1% (or 1/2) of the NSR at any time for \$1 million. The royalty was agreed to be assumed by Midland under the terms of the exchange of properties agreement.

Val D'Or North Property

In November 2020, the Company acquired the Val D'Or North Property through direct staking.

Beschefer Property

In February 2021, the Company entered into an option agreement to acquire 100% of the Beschefer Property from Wallbridge Mining Company Limited. Pursuant to the terms of the option agreement, the Company can exercise the option to acquire the property by:

- Incurring \$3,000,000 in exploration expenditures as follows:
 - \$500,000 on or before the first anniversary (incurred);
 - \$1,250,000 accumulated total on or before the second anniversary (incurred); and
 - ° \$3,000,000 accumulated total on or before the fourth anniversary.
- Issuing 4,283,672 common shares of the Company as follows:

8. Segmented information

The Company has one operating segment involved in the exploration of resource properties. All of the Company's exploration activities were in Canada.

9. Financial risks and capital management

The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposures to credit risks are on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with major banks in Canada.

As most of the Company's cash is held by a bank, there is a concentration of credit risk. This risk is managed by using a major bank that is a high credit quality financial institution, as determined by rating agencies.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, such as foreign currency exchange rates, commodity prices, interest rates and liquidity. A discussion of the Company's primary market risk exposures, and how those exposures are currently managed, follows:

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets and liabilities and operating costs are principally denominated in Canadian dollars. The Company has no US dollar hedging program due to its exposure to financial gain or loss as a result of foreign exchange movements against the Canadian dollar.

Commodity price risk

Commodity prices, and in particular gold spot prices, fluctuate and are affected by factors outside of the Company's control. The current and expected future spot prices have a significant impact on the market sentiment for investment in mineral exploration companies and may impact the Company's ability to raise equity financing for its ongoing working capital requirements.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate risk is minimal as there are no outstanding loans or interest-bearing debts. The Company has not entered into any interest rate swaps or other active interest rate management programs at this time.

9. Financial risks and capital management (continued)

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. As at September 30, 2022, the Company has a working capital of \$284,405 (June 30, 2022 - \$343,896). The Company's ability to continue as a going concern is dependent on management's ability to raise additional funding through future debt or equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. The Company is exposed to liquidity risk.

Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can provide returns for shareholders and benefits for other stakeholders.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares, sell assets to settle liabilities or return capital to its shareholders. The Company is not exposed to externally imposed capital requirements. There have been no changes to the Company's capital management during the periods ended September 30, 2022 and 2021.

Classification of financial instruments

The following table summarizes information regarding the carrying values of the Company's financial instruments for the years then ended:

	Sep	September 30, 2022		June 30, 2022	
Assets (i)	\$	364,607	\$	323,305	
Liabilities at amortized cost (ii)	\$	89,581	\$	91,888	

- (i) Assets include cash.
- (ii) Liabilities include accounts payable and accrued liabilities at amortized cost.

Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;
 and
- Level 3 Inputs that are not based on observable market data. Cash is measured at level 1 of the fair value hierarchy.

Cash is measured at level 1 of the fair value hierarchy.
