FOR IMMEDIATE RELEASE

## Silver Dollar Signs Surface Rights Agreement for La Joya Silver Project in Durango, Mexico

*Fieldwork commences for the first time in seven years*

**VANCOUVER, BC – June 23, 2021 – Silver Dollar Resources Inc. (CSE: SLV) (OTCQB: SLVDF) (“Silver Dollar” or the “Company”)** is pleased to announce it has entered into a formal surface rights agreement with one of two local communities at the La Joya silver project (the “Project”) located in the state of Durango, Mexico.

*Click on the image above to view a two-minute video introducing the La Joya Project*

The agreement signed with the local ejido of Noria de Pilares, who collectively own and farm the land in the area, allows for surface exploration and drill targeting on the La Noria portion of the La Joya property.

“We knew when we optioned La Joya it had been inactive for many years, so our first priority was to engage the local stakeholders to establish and work towards building a mutually beneficial relationship,” said Mike Romanik president of Silver Dollar. “Covid has added some unique

challenges to this process, but we are fortunate to have an experienced Country Manager in Mark Malfair as part of the team and signing of this surface agreement paves the way for exploration to commence for the first time in over seven years. We look forward to working with the local communities to advance the project in a responsible and respectful manner.”

Silver Dollar has reported the following milestones since signing the letter of intent to acquire the La Joya Project in June 2020:

- Appointed economic geologists Perry Durning and Frank (Bud) Hillemeier as technical advisors. Having worked together for decades, Perry and Bud received the PDAC’s 2010 Thayer Lindsley International Mineral Discoveries Award in recognition of their outstanding record of grassroots discoveries.
- Entered into a definitive agreement with First Majestic Silver Corp. (NYSE: AG) to acquire up to a 100% interest in the Project (see news release of [August 10<sup>th</sup>, 2020](#)).
- Reported the Project’s highest grade drill core assays to date for silver, copper and gold not previously released from Phase 3 drilling that was conducted in 2014 by previous operator SilverCrest Mines Inc. (see news release of [August 25, 2020](#)).
- Closed \$10,500,000 exploration financing with lead orders from billionaire mining investor Eric Sprott; and First Majestic, one of the largest silver producers in Mexico.
- Retained consulting and engineering firm Tetra Tech, Inc. who provided technical support services on the Project to SilverCrest between 2010 and 2015.
- Engaged Mark Malfair, a Durango-based consulting geologist with 25 years of experience, as Country Manager for the Project. Mark has served as country manager in both Mexico and Honduras, and his previous roles include vice president of exploration for Chesapeake Gold Corp. where he was lead member of the ground team responsible for advancing the Metates Au-Ag-Zn Project in the state of Durango.
- Tetra Tech completed a compilation and reinterpretation of all historical data on the Project that identified several new areas for follow-up that demonstrate potential to host additional high-grade mineralization.
- Strengthened the executive suite with Guillermo Lozano-Chávez, MSc., MBA, being elected to the board of directors. Guillermo is a professional geologist with over 40 years of experience in Latin American mineral exploration. Previously, he was vice president of exploration for First Majestic where he was responsible for all exploration programs in and around five operating mines.
- Signed surface rights agreement with ejido Noria de Pilares.
- Commenced relogging and resampling of select historical drill core, and a focused surface sampling and mapping program to refine drill collar locations for Silver Dollar’s initial drilling program.

Cam Norton, P.Geo., of Tetra Tech Canada Inc., is the independent “Qualified Person” as defined in National Instrument 43-101, who has reviewed and approved the technical content in this news release.

## **About Silver Dollar Resources Inc.**

Silver Dollar is a mineral exploration company that completed its initial public offering in May 2020 and is fully funded for 2021 with over \$10 million in the treasury. The Company's projects are located in two of the prolific mining jurisdictions in the world and include the advanced exploration and development stage La Joya Silver Project in state of Durango, Mexico, and the discovery-stage Pakwash Lake and the Longlegged Lake properties in the Red Lake Mining District of Ontario, Canada. The Company has an aggressive growth strategy and is actively reviewing projects in mining-friendly jurisdictions internationally for potential acquisition.
