RESOURCES

FOR IMMEDIATE RELEASE

## Silver Dollar Prepares for Discovery-Stage Drilling at its Ranger-Page Project in Idaho's Silver Valley

*The drill ready Ranger-Page Project is located in the Coeur d'Alene Mining District that ranks among the world's top producers of silver, lead and zinc*

VANCOUVER, BC – September 11, 2024 – Silver Dollar Resources Inc. (CSE: SLV) (OTCQX: SLVDF) (FSE: 4YW) (“Silver Dollar” or the “Company”) is pleased to announce it is proceeding with the necessary permitting and has contacted multiple contractors to bid on the initial drilling campaign at its recently acquired Ranger-Page Project in Idaho's Silver Valley.

Figure 1: Location of the Ranger-Page Project in the Coeur d'Alene Mining District.

### Project Highlights:

- A drill-ready project in a world-class silver district where over 90 mines have operated since the first major lead-zinc-silver discovery was staked in 1884.
- Ideally situated approximately two kilometres (km) south of Interstate 90 Freeway and the town of Smeltonville, the Project features power, water, year-round access to local infrastructure and a workforce skilled in exploration and mining.
- The Project comprises two contiguous patented lode claim groups – Government Gulch (403 acres) and Page Mine (802 acres) – that consolidate the western end of the Silver Valley mining corridor under a single operator for the first time.

- The land package covers six historic mines with the option to acquire ownership of the Project’s mineral rights, which are not currently subject to any royalties.
- Multiple exploration targets developed over the last two years using modern exploration techniques for the first time.
- Primary target areas are up- and down-plunge from historic underground mining, along strike where ground IP surveys identify anomalies, and where surface trenching identified near surface mineralization.
- Additional exploration targets have been identified away from historic mine infrastructure, using soil geochemical data, mapping, and ground IP survey data.
- The Project borders the Bunker Hill mine that is on track to restart mining in Q4 2024.

### **About Silver Dollar Resources Inc.**

Silver Dollar is a mineral exploration company that is fully funded to execute its near-term exploration plans having closed its last financing with lead orders from billionaire mining investor Eric Sprott and NYSE-listed First Majestic Silver. The Company's primary projects lie within Idaho's prolific Silver Valley and the Durango-Zacatecas silver-gold belt and include the advanced exploration stage Ranger-Page and La Joya projects and the early exploration stage Nora project.

Management has an aggressive growth strategy and is actively reviewing potential acquisitions with a focus on drill-ready projects in mining-friendly jurisdictions.
