

FOR IMMEDIATE RELEASE

Silver Dollar Receives Permits for Discovery-Stage Drilling at its Ranger-Page Project in Idaho’s Silver Valley

The drill ready Ranger-Page Project is located in the Coeur d’Alene Mining District that ranks among the world’s top producers of silver, lead and zinc

VANCOUVER, BC – October 1, 2024 – Silver Dollar Resources Inc. (CSE: SLV) (OTCQX: SLVDF) (FSE: 4YW) (“Silver Dollar” or the “Company”) is pleased to announce it is in receipt of all necessary permits from state and local agencies regulating exploration activities at its recently acquired Ranger-Page Project in Idaho’s Silver Valley.

About the Ranger-Page Project

Ranger-Page is a drill-ready project in a world-class silver district. The land package covers six historic mines and is ideally situated near Interstate 90 with year-round access to power, water, local infrastructure and a workforce in the Silver Valley skilled in exploration and mining. The primary target areas are up- and down-plunge from historic underground mining, along strike where ground induced polarization (IP) surveys identify anomalies, and where surface trenching identified near surface mineralization. Additional exploration targets have also been identified away from historic mine infrastructure, using soil geochemical data, geological mapping, and ground IP survey data.

About Silver Dollar Resources Inc.

Silver Dollar is a mineral exploration company that is fully funded to execute its near-term exploration plans having closed its last financing with lead orders from billionaire mining investor Eric Sprott and NYSE-listed First Majestic Silver. The Company's primary projects lie within Idaho's prolific Silver Valley and the Durango-Zacatecas silver-gold belt and include the advanced exploration stage Ranger-Page and La Joya projects and the early exploration stage Nora project. Management has an aggressive growth strategy and is actively reviewing potential acquisitions with a focus on drill-ready projects in mining-friendly jurisdictions.
