

## **GOLDHAVEN RECEIVES UPGRADE TO TRADE ON OTCQB® EXCHANGE**

**Vancouver, British Columbia, September 9, 2020:** GoldHaven Resources Corp. (formerly Altum Resources Corp.) (the "Company" or "GoldHaven") (CSE: GOH, OTCQB: ATUMF), Mr. David Smith, President and CEO reports that GoldHaven has been accepted for trading on the OTCQB, a United States stock market that is based in New York and operated by OTC Markets Group. The shares will trade on OTCQB under the ticker symbol OTC: ATUMF.

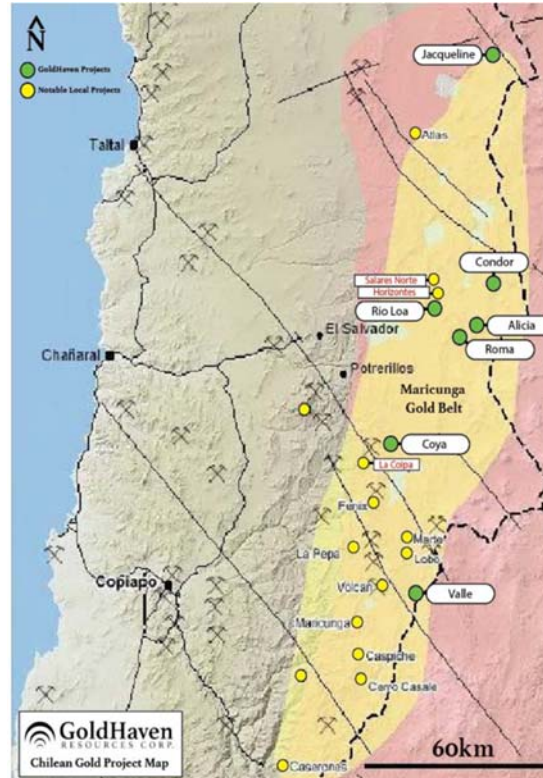

"We are very pleased to begin trading on OTCQB and continue our outreach into the U.S.," said David Smith, President and CEO of the Company. "Further, it will provide liquidity in the trading of its shares and create an opportunity for American investors to participate in the company's investment in the Maricunga Gold Belt. We look forward to providing the market with frequent updates as we plan on the implementation of an aggressive drill program in the first quarter of the coming year."

### ***About OTCQB®***

The OTCQB® Venture Marketplace is for entrepreneurial and development stage U.S. and international companies. To be eligible, companies must be current in their reporting and undergo an annual verification and management certification process. These standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors.

### ***About GoldHaven Resources Corp.***

GoldHaven Resources Corp. is a Canadian junior exploration company active in the Maricunga Gold Belt of northern Chile. The Maricunga measures 150 km north-south and 30 km. east-west and is host to discoveries in the last ten years of 100M oz. gold; 450M Oz. Silver and 13 Billion lbs. copper. The company has agreements in place to acquire seven projects with extensive surface study. GoldHaven has identified four of its seven properties as being "High Priority targets," three of which the company plans to drill commencing in January, 2021. These priority targets were designated as such, firstly due to the analytical work that has been completed on all the properties, and secondly owing to their relative location in respect of existing deposits. One project being Coya which is approx. 16 km. northeast of the La Coipa mine where Kinross extracted over 6.2 million oz.; the second and third being Rio Loa and Alicia which are respectively 25 km. and 30 km. away from GoldField's Salares Norte deposit with a discovery of 5 M oz. gold; 450 M oz. silver; and 13 B oz. copper.

The Company has 24,597,845 common shares issued and outstanding and trades also trades on the CSE under the symbol GOH.

We Seek Safe Harbor.
