### *About GoldHaven Resources Corp.*

GoldHaven Resources Corp. is a Canadian junior metals exploration Company focused on acquiring and exploring highly prospective land packages in both Canada and Chile. GoldHaven maintains a strategic presence in the gold and silver rich Maricunga Gold Belt of Northern Chile which is host to several mining and advanced exploration projects. The Company has identified a total of 12 high-priority targets at its Alicia and Roma project areas in the Maricunga within a prominent regional NW-SE structural trend along strike from Gold Fields' Salares Norte deposit (5.2 million ounces of Gold<sup>1</sup>). These targets have been designated "High Priority" due to the extent, pervasive alteration, favourable geology, highly anomalous rock geochemical results, and their relative proximity to existing deposits. GoldHaven is also making exploration progress at its Smoke Mountain property (Canada) which is strategically located in the Central British Columbia Porphyry-Epithermal Belt in close proximity to Surge Copper's Berg project, as well as its Pat's Pond claim in Newfoundland's Central Newfoundland Gold Belt (Canada). Pat's Pond is strategically located in close proximity to Marathon Gold's 3.14 Moz<sup>2</sup> Valentine Gold Project and on strike from the Boomerang/Domino VMS deposit. Pat's Pond is highly prospective for gold, copper, silver and zinc and has large scale discovery potential. GoldHaven engages proactively with local and Indigenous rightsholders and seeks to develop relationships and agreements that are mutually beneficial to all stakeholders.
