**About Copper Peak: The Magno & Three Guardsmen Properties**

Copper Peak holds 100% ownership of the Magno and Three Guardsmen mineral properties in British Columbia's Liard Mining District. The Magno property includes 24 mineral tenures, while the Three Guardsmen property holds 12. Both projects focus on the late Cretaceous terranes, known to host significant porphyry deposits like those at Casino and Red Mountain. The exploration team will target granitic bodies beneath promising skarn deposits, aiming to identify the source of mineralized fluids linked to these skarns. The focus will be on extensive geochemical and geophysical exploration to identify potential porphyry sources.
