

Braxia Scientific CEO to Deliver Keynote Address at H.C. Wainwright & Co. 1st Annual Mental Health Conference: Neuropsychiatry, Psychedelics, and Beyond

TORONTO, June 24, 2022 /CNW Telbec/ - Braxia Scientific Corp. ("Braxia", or the "Company"), (CSE: BRAX) (OTC: BRAXF) (FWB: 4960), a medical research company with clinics providing innovative ketamine treatments for persons with depression and related disorders, is pleased to announce its participation at the H.C. Wainwright Global Investment Conference from June 27 – 28, 2022 in New York.

*Braxia Scientific CEO Dr. Roger McIntyre will deliver two live presentations at the conference beginning with a Keynote address - **Introduction to the State of Mental Healthcare** – to kick off the conference on Monday, June 27 at 8:15 a.m. ET*

Dr. McIntyre, will also deliver a second presentation on Monday, June 27 at 4:00 p.m. ET providing an overview of the Braxia's business, including its progress on increasing access to novel ketamine and psychedelic treatments for patients with depression, while also expanding the clinical research infrastructure required to execute on the Company's growing pipeline of registered clinical trials alongside third-party sponsors.

Braxia's trials include Canada's first multi-dose psilocybin-assisted therapy trial which commenced in November 2021 and recently reported positive preliminary results.

Dr. McIntyre will also be available to host one-on-one meetings with institutional investors registered with H.C. Wainwright and Co.

About Braxia Scientific Corp.

Braxia Scientific is a medical research company with clinics that provide innovative ketamine treatments for persons with depression and related disorders. Through its medical solutions, Braxia aims to reduce the illness burden of brain-based disorders, such as major depressive disorder among others. Braxia is primarily focused on (i) owning and operating multidisciplinary clinics, providing treatment for mental health disorders, and (ii) research activities related to discovering and commercializing novel drugs and delivery methods. Braxia seeks to develop ketamine and derivatives and other psychedelic products from its IP development platform. Through its wholly owned subsidiary, the Canadian Rapid Treatment Center of Excellence Inc., Braxia currently operates multidisciplinary community-based clinics offering rapid-acting treatments for depression located in Mississauga, Toronto, Ottawa, and Montreal.

ON BEHALF OF THE BOARD

"Dr. Roger S. McIntyre"

Dr. Roger S. McIntyre
Chairman & CEO

Forward-looking Information Cautionary Statement

This news release contains forward-looking statements within the meaning of applicable securities laws. All statements that are not historical facts, future estimates, plans, programs, forecasts, projections, objectives, assumptions, expectations, or beliefs of future performance are "forward-looking statements."

Forward-looking statements include statements about the intended promise of ketamine-based treatments for depression and the potential for ketamine to treat other emerging psychiatric disorders, such as Bipolar Depression. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events, or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements. Such risks and uncertainties include, among others, the failure of ketamine, psilocybin and other psychedelics to provide the expected health benefits and unanticipated side effects, dependence on obtaining and maintaining regulatory approvals, including acquiring and renewing federal, provincial, municipal, local or other licenses and engaging in activities that could be later determined to be illegal under domestic or international laws. Ketamine and psilocybin are currently Schedule I and Schedule III controlled substances, respectively, under the Controlled Drugs and Substances Act, S.C. 1996, c. 19 (the "CDSA") and it is a criminal offence to possess such substances under the CDSA without a prescription or a legal exemption. Health Canada has not approved psilocybin as a drug for any indication, however ketamine is a legally permissible medication for the treatment of certain psychological conditions. It is illegal to possess such substances in Canada without a prescription.

These factors should be considered carefully, and readers are cautioned not to place undue reliance on such forward-looking statements. Although the Company has attempted to identify important risk factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other risk factors that cause actions, events or results to differ from those anticipated, estimated or intended. Additional information identifying risks and uncertainties that could affect financial results is contained in the Company's filings with Canadian securities regulators, including the Amended and Restated Listing Statement dated April 15, 2021, which are available at www.sedar.com. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in forward-looking statements.
