MAKARA MINING CORP.

Notes to the Condensed Interim Financial Statements

March 31, 2021

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

1. CORPORATE INFORMATION

The Company is a mineral property exploration company whose common shares trade on the Canadian Securities Exchange (“CSE”). On April 28, 2020, the Company received a receipt from the British Columbia Securities Commission for its long-form prospectus dated April 27, 2020 and commenced trading on the CSE on May 4, 2020 under the trading symbol “MAKA”.

The Company was incorporated on September 17, 2019 in British Columbia. The head office of the Company is located at 409 Granville Street, Suite 1000, Vancouver, British Columbia, Canada, V6C 1T2 and its registered and records office is located at 6th Floor, 905 West Pender Street, Vancouver, British Columbia, Canada, V6C 1L6.

2. BASIS OF PREPARATION

(a) Statement of Compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting.

The condensed interim financial statements were authorized for issue by the Board of Directors on May 27, 2021.

(b) Basis of Measurement

The condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3 of the annual financial statements at December 31, 2020. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed interim financial statements are presented in Canadian dollars, unless otherwise noted.

(c) Going Concern

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At March 31, 2021, the Company has not achieved profitable operations, has accumulated losses of \$5,516,543 since inception and expects to incur further losses in the development of its business.

2. BASIS OF PREPARATION – (cont'd)

(c) Going Concern – (cont'd)

There was a global pandemic outbreak of COVID-19. To date, there have been a large number of temporary business closures, quarantines and a general reduction in consumer activity in Canada. The outbreak has caused companies and various governmental bodies to impose travel, gathering and other public health restrictions. While these effects are expected to be temporary, the duration of the various disruptions to businesses locally and internationally and the related financial impact cannot be reasonably estimated at this time. Similarly, the Company cannot estimate whether or to what extent this outbreak and the potential financial impact may extend. At this point, the extent to which COVID-19 will or may impact the Company is uncertain and these factors are beyond the Company's control; however, it is possible that COVID-19 may have a material adverse effect on the Company's business, results of operations and financial condition.

The above material uncertainties cast significant doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon successful results from its exploration and evaluation activities, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited financial statements as at December 31, 2020.

Accounting standards and amendments

The following new standards and amendments are not yet effective and have not been applied in preparing these financial statements. The Company does not expect the adoption of this standard to have a significant impact on the condensed interim financial statements.

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date. These amendments are effective for reporting periods beginning on or after January 1, 2023.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS – (cont'd)**Critical judgments in applying accounting policies**

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Exploration and Evaluation Asset and Impairment

The application of the Company's accounting policy for exploration and evaluation assets and impairment of the capitalized expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in profit or loss in the year the new information becomes available.

Going Concern

The assessment of the Company's ability to continue as a going concern requires significant judgement. See Note 2(c).

Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title or interest therein. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Kenora Gold Property

By a mineral property option agreement dated November 24, 2019, the Company may acquire up to a 100% interest in the Kenora Gold Property. This property consists of 40 mineral tenures and is located in the Kenora Mining Region, Ontario. As consideration, the Company will pay cash of \$110,000, issue 700,000 common shares of the Company and incur \$360,000 in exploration expenditures as follows:

- a) Cash payment of \$40,000 within seven days of signing of the Agreement (paid);
- b) Incur a minimum of \$110,000 in exploration expenditures within the first year from the agreement date (November 24, 2020) (incurred);

5. EXPLORATION AND EVALUATION ASSETS – (cont'd)

Kenora Gold Property – (cont'd)

- c) Cash payment of \$30,000 and issuance of 300,000 common shares of the Company on the first anniversary of the listing of the Company on the CSE (May 4, 2021); and
- d) Cash payment of \$40,000, issuance of 400,000 common shares of the Company and incur a minimum of \$250,000 in exploration expenditures on or before the second anniversary date of the agreement (November 24, 2021).

Should the Company acquire 100% of the property, the optionor will retain a 1% net smelter returns royalty, one half of which may be purchased by the Company for \$500,000. The property is also subject to an aggregate of 4.5% in net smelter returns royalties in favour of previous owners of the property.

Subsequent to the year-end, management determined there is uncertainty with respect to whether the Company will continue exploring the property, and as a result, an impairment charge of \$40,000 was recognized for the year ended December 31, 2020.

Rude Creek Property

By a mineral property option agreement dated May 11, 2020, the Company may acquire up to a 70% interest in the Rude Creek Property. This property consists of 204 mineral claims covering 4,157 hectares in the Whitehorse Mining District in the Yukon Territory. As consideration, the Company will pay cash of \$125,000, issue 3,750,000 common shares of the Company and fund aggregate expenditures of \$3,175,000 as follows:

- a) Cash payment of \$50,000 on the effective date (paid);
- b) Complete a going public transaction and fund expenditures on the property of at least \$175,000 (incurred) on or before September 30, 2020;
- c) Cash payment of \$25,000 (paid) and issue 1,000,000 common shares on or before March 1, 2021 (issued);
- d) Fund expenditures on the property of at least \$500,000 on or before September 30, 2021 (incurred);
- e) Cash payment of \$25,000 and issue 1,250,000 common shares on or before March 1, 2022;
- f) Fund expenditures on the property of at least \$1,000,000 on or before September 30, 2022;
- g) Cash payment of \$25,000 and issue 1,500,000 common shares on or before March 1, 2023; and
- h) Fund expenditures on the property of \$1,500,000 on or before September 30, 2023.

Should the Company acquire 70% of the property, the optionor will retain a 3% net smelter returns royalty, 1% of which may be purchased by the Company for \$2,000,000.

Win Property

On September 21, 2020, the Company staked an additional 127 claims (Win Claims) which is contiguous with the southern boundary to the Rude Creek Property for a total of \$36,000.

8. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of resource properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain credit worthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject to. Capital of the Company comprises of cash and cash equivalents and shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments in high credit quality financial institutions with terms to maturity selected with regards to the expected timing of expenditures from continuing operations.

There were no changes to the Company's approach to capital management during the period ended March 31, 2021.

9. FINANCIAL INSTRUMENTS AND RISKS

The company is exposed through its operations to the following financial risks:

- Liquidity risk
- Market risk
- Credit risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them unless otherwise stated in the note.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections.

The Company monitors its cash flows to meet the Company's normal operating requirements on an ongoing basis and its planned capital expenditures. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. 9. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, investment fluctuations, and commodity and equity prices. The Company's ability to raise capital to fund mineral resource exploration is subject to risks associated with fluctuations in mineral resource prices. Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Interest rate risk

The Company is not exposed to significant interest rate risk.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Credit Risk

Financial instruments that potentially expose the Company to credit risk is cash and cash equivalents. To minimize the credit risk on cash the Company places the instrument with a high credit quality financial institution. The maximum exposure to loss arising from these advances is equal to their total carrying amounts.

Fair Values

The Company's financial instruments include cash and cash equivalents and accounts payable and accrued liabilities. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature.

Fair Value Hierarchy

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities; and
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
