### **1. CORPORATE INFORMATION**

The Company is a mineral property exploration company whose common shares trade on the Canadian Securities Exchange (“CSE”). On April 28, 2020, the Company received a receipt from the British Columbia Securities Commission for its long -form prospectus dated April 27, 2020 and commenced trading on the CSE on May 4, 2020 under the trading symbol “MAKA”.

The Company was incorporated on September 17, 2019 in British Columbia. The head office of the Company is located at 409 Granville Street, Suite 1000, Vancouver, British Columbia, Canada, V6C 1T2 and its registered and records office is located at 6th Floor, 905 West Pender Street, Vancouver, British Columbia, Canada, V6C 1L6.

### **2. BASIS OF PREPARATION**

#### **(a) Statement of Compliance**

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting.

The condensed interim financial statements were authorized for issue by the Board of Directors on August 30, 2021.

#### **(b) Basis of Measurement**

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed interim financial statements are presented in Canadian dollars, unless otherwise noted.

#### **(c) Going Concern**

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At June 30, 2021, the Company has not achieved profitable operations, has accumulated losses of \$6,310,296 since inception and expects to incur further losses in the development of its business.

There was a global pandemic outbreak of COVID-19. To date, there have been a large number of temporary business closures, quarantines and a general reduction in consumer activity in Canada. The outbreak has caused companies and various governmental bodies to impose travel, gathering and other public health restrictions. While these effects are expected to be temporary, the duration of the various disruptions to businesses locally and internationally and the related financial impact cannot be reasonably estimated at this time. Similarly, the Company cannot estimate whether or to what extent this outbreak and the potential financial impact may extend. At this point, the extent to which COVID-19 will or may impact the Company is uncertain and these factors are beyond the Company’s control; however, it is possible that COVID-19 may have a material adverse effect on the Company’s business, results of operations and financial condition.

### **2. BASIS OF PREPARATION – (cont'd)**

#### **(c) Going Concern – (cont'd)**

The above material uncertainties cast significant doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon successful results from its exploration and evaluation activities, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

### **3. SIGNIFICANT ACCOUNTING POLICIES**

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited financial statements as at December 31, 2020.

### **4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

#### **Critical judgments in applying accounting policies**

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

#### **Exploration and Evaluation Asset and Impairment**

The application of the Company's accounting policy for exploration and evaluation assets and impairment of the capitalized expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in profit or loss in the year the new information becomes available.

**4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS – (cont'd)****Going Concern**

The assessment of the Company's ability to continue as a going concern requires significant judgement. See Note 2(c).

**Title to Mineral Property Interests**

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title or interest therein. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

### **5. EXPLORATION AND EVALUATION ASSETS – (cont'd)**

#### Kenora Gold Property

By a mineral property option agreement dated November 24, 2019, the Company may acquire up to a 100% interest in the Kenora Gold Property. This property consists of 40 mineral tenures and is located in the Kenora Mining Region, Ontario. As consideration, the Company will pay cash of \$110,000, issue 700,000 common shares of the Company and incur \$360,000 in exploration expenditures as follows:

- a) Cash payment of \$40,000 within seven days of signing of the Agreement (paid);
- b) Incur a minimum of \$110,000 in exploration expenditures within the first year from the agreement date (November 24, 2020);
- c) Cash payment of \$30,000 and issuance of 300,000 common shares of the Company on the first anniversary of the listing of the Company on the CSE; and
- d) Cash payment of \$40,000, issuance of 400,000 common shares of the Company and incur a minimum of \$250,000 in exploration expenditures on or before the second anniversary date of the agreement (November 24, 2021).

Should the Company acquire 100% of the property, the optionor will retain a 1% net smelter returns royalty, one half of which may be purchased by the Company for \$500,000. The property is also subject to an aggregate of 4.5% in net smelter returns royalties in favour of previous owners of the property.

Management determined there is uncertainty with respect to whether the Company will continue exploring the property, and as a result, an impairment charge of \$40,000 was recognized for the year ended December 31, 2020.

#### Rude Creek Property

By a mineral property option agreement dated May 11, 2020, the Company may acquire up to a 70% interest in the Rude Creek Property. This property consists of 14 mineral tenures covering 4,157 hectares in the Whitehorse Mining District in the Yukon Territory. As consideration, the Company will pay cash of \$125,000, issue 3,750,000 common shares of the Company and fund aggregate expenditures of \$3,175,000 as follows:

- a) Cash payment of \$50,000 on the effective date (paid);
- b) Complete a going public transaction and fund expenditures on the property of at least \$175,000 (paid) on or before September 30, 2020;
- c) Cash payment of \$25,000 and issue 1,000,000 common shares on or before March 1, 2021 (paid and shares issued);
- d) Fund expenditures on the property of at least \$500,000 on or before September 30, 2021 (incurred);
- e) Cash payment of \$25,000 and issue 1,250,000 common shares on or before March 1, 2022;
- f) Fund expenditures on the property of at least \$1,000,000 on or before September 30, 2022;
- g) Cash payment of \$25,000 and issue 1,500,000 common shares on or before March 1, 2023; and
- h) Fund expenditures on the property of \$1,500,000 on or before September 30, 2023.

Should the Company acquire 70% of the property, the optionor will retain a 3% net smelter returns royalty, 1% of which may be purchased by the Company for \$2,000,000.

**(e) Stock Options**

The Company adopted a stock option plan under which it is authorized to grant options to officers, directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. The options can be granted for a maximum of ten years and vest as determined by the Board of Directors. The exercise price of each option granted may not be less than the fair market value of the common shares.

On March 17, 2021, the Company granted 487,500 stock options to directors and officers of the Company and consultants. The stock options entitle the holders thereof the right to purchase one common share for each option at \$0.38 per share expiring on October 27, 2025. The stock option vest at 50% on March 17, September 17, 2021 and 50% on March 17, 2022. The fair value of the stock options of \$126,750 was determined using the Black Scholes option valuation model with the following assumptions – Share price on date of grant of \$0.38; Risk-free interest rate of 0.74%; Dividend yield of 0%; Expected life of 4 years; forfeiture rate of 0% and Expected volatility of 100%. Since the Company does not have enough history of trading prices, the Company utilized annualized volatility of comparable start-up companies. During the six months ended June 30, 2021, the Company recorded \$54,396 in share-based payments.

On October 27, 2020, the Company granted 510,000 stock options to directors and officers of the Company. The stock options entitle the holders thereof the right to purchase one common share for each option at \$0.93 per share expiring on October 27, 2025. The stock option vest as follows: 97,500 stock options on the date of grant, 153,000 stock options on October 27, 2021, 185,500 stock options on October 27, 2022 and 74,000 stock options on October 27, 2023. The fair value of the stock options of \$351,900 was determined using the Black Scholes option valuation model with the following assumptions – Share price on date of grant of \$0.93; Risk-free interest rate of 0.36%; Dividend yield of 0%; Expected life of 5 years; forfeiture rate of 0% and Expected volatility of 100%. Since the Company does not have enough history of trading prices, the Company utilized annualized volatility of comparable start-up companies. During the year ended December 31, 2020, the Company recorded \$136,903 in share-based payments. During the six months ended June 30, 2021, the Company recorded \$56,057 in share-based payments.

### 8. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of resource properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain credit worthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject to. Capital of the Company comprises of cash and cash equivalents and shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments in high credit quality financial institutions with terms to maturity selected with regards to the expected timing of expenditures from continuing operations.

There were no changes to the Company's approach to capital management during the period.

### 9. FINANCIAL INSTRUMENTS AND RISKS

The company is exposed through its operations to the following financial risks:

- Liquidity risk
- Market risk
- Credit risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them unless otherwise stated in the note.

### **9. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)**

#### **Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections.

The Company monitors its cash flows to meet the Company's normal operating requirements on an ongoing basis and its planned capital expenditures. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. As at June 30, 2021 the Company had a working capital deficiency of \$40,643.

#### **Market Risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, investment fluctuations, and commodity and equity prices. The Company's ability to raise capital to fund mineral resource exploration is subject to risks associated with fluctuations in mineral resource prices. Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

#### **Interest rate risk**

The Company is not exposed to significant interest rate risk.

#### **Price risk**

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

#### **Credit Risk**

Financial instruments that potentially expose the Company to credit risk is cash and cash equivalents. To minimize the credit risk on cash the Company places the instrument with a high credit quality financial institution. The maximum exposure to loss arising from these advances is equal to their total carrying amounts.

**9. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)****Fair Values**

The Company's financial instruments include cash and accounts payable and accrued liabilities. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature. It is impractical to determine the fair value of these financial instruments with sufficient reliability due to the nature of these financial instruments, the absence of secondary market and the significant cost of obtaining external appraisals. The fair value of these financial instruments approximates their carrying value under the effective interest method.

**Fair Value Hierarchy**

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy as follows:

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities; and

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
