For the six month period ended December 31, 2019

The Management's Discussion and Analysis ("MD&A") was prepared as of February 26, 2020 is intended to supplement and complement the Company's unaudited condensed interim financial statements for six months ended December 31, 2019 and related notes attached thereto. Readers are also encouraged to refer to the audited financial statements for the period ended June 30, 2019 and related notes attached thereto. Accordingly, this MD&A includes the results of operations and cash flows for the six months ended December 31, 2019 and the reader must be aware that historical results are not necessarily indicative of the future performance. All amounts are reported in Canadian dollars.

Unless otherwise stated, financial results have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting.

The Company's unaudited condensed interim financial statements were prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation for the foreseeable future. The operations of the Company were primarily funded by the issue of share capital. The continued operations of the Company are dependent on its ability to develop a sufficient financing plan, receive continued financial support from related parties, complete sufficient debt or equity financing, or generate profitable operations in the future. These condensed interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the company be unable to continue in business.

DESCRIPTION OF BUSINESS

Sassy Resources Corporation (the "Company", "Sassy") was incorporated under the Business Corporations Act (British Columbia) on June 3, 2019. The Company is an exploration stage junior mining company currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company has entered into a plan of arrangement, subsequently accepted by the TSX-V, with its sole shareholder to acquire certain claims located in BC, Canada. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern.
