SASSY GOLD CORP.

Notes to the Condensed Interim Consolidated Financial Statements

Nine Month Period Ended March 31, 2024

(Expressed in Canadian dollars)

(Unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

Sassy Gold Corp. (the “Company”) was incorporated on June 3, 2019 under the Business Corporations Act (British Columbia). The Company is an exploration stage mining company currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company’s registered and records office is located at suite 400 – 1681 Chestnut Street, Vancouver, British Columbia, V6J 4M6. The Company’s shares are traded on the Canadian Securities Exchange (the “Exchange” or “CSE”) under the symbol “SASY”.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has no sources of revenue, ongoing losses and a deficit of \$9,151,432.

In March 2022, Gander Gold Corporation (“Gander Gold”) completed the listing of its shares on the Exchange and this resulted in the conversion of outstanding Special Warrants into additional common shares. The net effect of this event and other common share issuances as at March 31, 2024 was the dilution of the ownership interest in Gander Gold (Note 14) by the parent entity (“Sassy”),

The Company’s continuation as a going concern is dependent upon its ability to raise equity capital or borrowings sufficient to meet current and future obligations. If for any reason, the Company is unable to continue as a going concern, then this could result in adjustments to the amounts and classifications of assets and liabilities in the Company’s financial statements and such adjustments could be material. The above conditions may cast significant doubt on the Company’s ability to continue as a going concern.

2. BASIS OF PREPARATION***Statement of compliance***

These condensed interim financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and the interpretations of the IFRS Interpretations committee. They do not include all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements, and therefore should be read in conjunction with the Company’s audited financial statements for the year ended June 30, 2023, prepared in accordance with IFRS as issued by the IASB

These condensed interim financial statements were approved by the Board of Directors of the Company on May 24, 2024.

Basis of measurement

All references to dollar amounts in these financial statements and related notes are in Canadian dollars, unless otherwise indicated.

SASSY GOLD CORP.

Notes to the Condensed Interim Consolidated Financial Statements

Nine Month Period Ended March 31, 2024

(Expressed in Canadian dollars)

(Unaudited)

2. BASIS OF PREPARATION (continued)

These financial statements have been prepared on a historical cost basis, using the accrual basis of accounting, except for cash flow information, and financial instruments classified as financial instruments at fair value through profit or loss, or fair value through other comprehensive loss which are stated at fair value.

Functional and presentation currency

The functional currency of the Company and its non-wholly owned subsidiary, Gander Gold is the Canadian dollar, which is also the presentation currency of the financial statements.

Basis of consolidation

These consolidated financial statements include the accounts of Gander Gold, which was incorporated on February 3, 2021 under the Business Corporations Act (BC).

All inter-company transactions and balances have been eliminated upon consolidation.

Control exists where the parent entity has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are included in the consolidated financial statements from the date control commences until the date control ceases.

Use of estimates and judgments

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Income taxes

The calculation of income taxes requires judgment in applying tax laws and regulations, estimating the timing of the reversals of temporary differences, and estimating the reliability of deferred tax assets. These estimates impact current and deferred income tax assets and liabilities, and current and deferred income tax expense (recovery).

Non-monetary transactions

Assets exchanged or transferred in non-monetary transactions are measured at the fair value of the asset given up or the fair value of the asset received, whichever is more reliable.

SASSY GOLD CORP.

Notes to the Condensed Interim Consolidated Financial Statements

Nine Month Period Ended March 31, 2024

(Expressed in Canadian dollars)

(Unaudited)

2. BASIS OF PREPARATION (continued)Share-based payments

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model, which incorporates market data and involves uncertainty in estimates used by management in the assumptions. The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, and, as a result, changes in subjective input assumptions can materially affect the fair value estimate.

Valuation of marketable securities

The Company holds investments in both private and publicly listed companies. Accordingly, the Company uses all 3 levels of the fair value hierarchy to estimate the fair value of its marketable securities. Publicly listed entities are valued using the closing trade price on the date of the transaction and at period end. Private companies are valued at the most recently completed financing, if available. Warrants are valued using the Black-Scholes option-pricing model. A discount for lack of marketability is applied when shares in investments are restricted.

Valuation of dividends

The Company declared non-cash dividends payable in common shares of Gander Gold. The Company has valued the dividend payable using the closing price of Gander Gold common shares on the Exchange.

Significant judgments that management has made at the end of the reporting period are as follows:

Carrying value and the recoverability of exploration and evaluation assets

Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, scoping and feasibility studies, accessible facilities and existing permits.

Control over Gander Gold

The Company must consolidate the results of another entity when control exists over that entity. The determination of control requires judgment to be exercised when the ownership interest is less than 51%. Other qualitative factors must be considered including, but not limited to, special voting rights or board and management in common.

Going concern

The assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared using the same accounting policies as those used in the Company's annual financial statements at June 30, 2023.

4. MARKETABLE SECURITIES

Name of Security	Carrying Value June 30, 2023	Additions	Dispositions	Gain (Loss)	Fair Value March 31, 2024
	(\$)	(\$)		(\$)	(\$)
Max Power Mining Corp. (MAXX.C)	2,067,000	-	(1,124,676)	(433,549)	508,775

	3,570,863	-	(1,124,676)	(1,420,216)	1,025,971

The Company holds 2,666,667 common shares of Galopper Gold Corp ("Galopper"), a publicly traded gold exploration company. Galopper is a related party by virtue of having an officer in common.

The Company received 5,000,000 common shares of Max Power Mining Corp. ("Max Power") pursuant to the Nicobat disposal agreement (Note 6). The common shares of Max Power are restricted and will be released to the Company in stages over 3 years. Accordingly, the Company has applied a discount for lack of marketability ranging from 0-10% on these common shares. The common shares are publicly listed on the Exchange. Max Power is a related party by virtue of having a director in common. As at March 31, 2024, the Company holds 2,165,000 Max Power shares.

The Company also received 1,000,000 common share purchase warrants of Max Power. These warrants are exercisable at \$0.25 until February 15, 2026. The Company has revalued the warrants at June 30, 2023 to \$303,863 (2022 - \$501,909) using a Black-Scholes option-pricing model and recorded a loss \$198,046 (2022 - \$294,366) on marketable securities.

The assumptions used in the valuation of the warrants are noted in the table below:

Grant Date	Number of Warrants	Expected Price Volatility	Risk Free Interest Rate	Expected Life	Expected Dividend Yield	Fair Value Per Option	Total Fair Value
		(%)	(%)	(yrs)	(%)	(\$)	(\$)

5. RECEIVABLES

Receivables consist of GST receivable in the amount of \$20,609 (June 30, 2023 - \$99,203), government exploration rebate receivable of \$115,500 (June 30, 2023 - \$Nil) and other receivables of \$5,678 (June 30, 2023 - \$5,000).

6. EXPLORATION AND EVALUATION ASSETS**Foremore Property, British Columbia**

In November 2020, the Company acquired a 100% ownership interest in mineral claims located in the Eskay Creek district of British Columbia (the "Foremore Property"). The vendor of the property retained a 3% net smelter return ("NSR") royalty, but Company has the right to purchase back 2% of the NSR for a cash payment of \$2,000,000 and an additional 0.5% for a cash payment of \$1,000,000. On June 24, 2024, the Company is required to commence payment of an annual advanced royalty of \$20,000 until such time as the Company elects to purchase the NSR. At that point the cumulative advanced royalties paid will be deducted from the NSR purchase price disclosed above.

The Company posted a \$32,000 reclamation program security deposit with the Ministry of Energy, Mines and Petroleum Resources in connection with the Foremore Property exploration program.

Gander Properties, NewfoundlandGander North/Gander South/Hermitage/Little River

On February 11, 2021, the Company entered into an agreement (the "Vulcan Agreement"), as amended on April 18, 2024, with Vulcan Minerals Inc. ("Vulcan"), which provides an exclusive option to acquire a 100% ownership interest in certain mineral claims located in Newfoundland (known as the "Gander North", "Gander South Property", the "Little River Property" and the "Hermitage Property"). On February 28, 2021, the Company assigned the Vulcan Agreement to Gander Gold.

Pursuant to the Vulcan Agreement, the Company must make the following cash and share payments as well as incur minimum exploration expenditures in order to complete the acquisition:

Date	Shares	Cash	Exploration Expenditures
		(\$)	(\$)
Upon execution of the Agreement (issued and paid)	1,000,000	100,000	-

6. EXPLORATION AND EVALUATION ASSETS (continued)**Gander Properties, Newfoundland (continued)**

The Company also reimbursed Vulcan for a refundable staking deposit totaling \$28,950 which is posted with the government of Newfoundland and Labrador.

Vulcan will retain a 3% net smelter return (“NSR”) royalty upon the Company completing its obligations under the Vulcan Agreement. The Company has the right to purchase back one half of the NSR (1.5%) for a cash payment of \$2,000,000 and the issuance of 500,000 common shares of the Company.

On December 22, 2023, the Company entered into an agreement with Puddle Pond Resources Inc., an arms-length vendor, to acquire certain mineral claims that are contiguous to its Gander South project in exchange for \$25,000 in cash (paid) and the issuance of 1,000,000 common shares (issued) of the Company. The vendor will retain a 2% NSR royalty on the claims, half of which may be repurchased by the Company at any time for a payment of \$500,000. The vendor will also be entitled to a one-time bonus payment of 500,000 common shares should the Company delineate a National Instrument 43-101 compliant resource of 200,000 ounces of gold on the newly acquired claims.

Gander North/Carmanville

On March 12, 2021, as amended on April 7, 2021, the Company entered into agreement (the “Gander North Agreement”) with Wildwood Exploration Inc. (“Wildwood”) which provides an exclusive option to acquire a 100% ownership interest in certain mineral claims located in Newfoundland (known as the “Gander North Property” and the “Carmanville Property”).

Wildwood will retain a 2.5% NSR royalty upon the Company completing its obligations under the Gander North Agreement. The Company has the right to purchase that portion of the NSR equal to 1% for a cash payment of \$2,500,000.

The Gander North Agreement was assigned to Gander Gold on May 31, 2021 and accordingly all future cash and share payments as well as exploration expenditures are the responsibility of Gander Gold.

Upon completion of its public listing on the CSE, Gander Gold issued an additional 500,000 common shares to Wildwood valued at \$175,000.

During the year ended June 30, 2023, the Gander Gold determined that it was unlikely it would be proceeding with the Carmanville property, and accordingly recorded a full impairment on the property totaling \$433,311 (2022 - \$Nil).

6. EXPLORATION AND EVALUATION ASSETS (continued)**Highrock Uranium Property, Saskatchewan**

As at March 31, 2024, the Company holds a 20% interest in the Highrock uranium project in Saskatchewan.

Nicobat Property, Ontario

The Nicobat Property consists of non-contiguous mineral claims located in the Rainy River district of Ontario. The property is subject to a 2% NSR, 1% of which may be purchased for a cash payment of \$1,000,000.

On April 23, 2021, the Company entered into an agreement (“Max Power Agreement”) to dispose of the Nicobat Property to privately held Max Power. Pursuant to the Max Power Agreement, Max Power can earn a 100% interest in the Nicobat Property by incurring \$1,000,000 in exploration expenditures on the property over a four year period and issuing 5,000,000 common shares to the Company. The shares are released to the Company in stages over a three year period (3,000,000 currently remain in escrow) from the date of listing of Max Power on the CSE on February 16, 2022 (Note 4). In addition, the Company received 1,000,000 share purchase warrants in Max Power which are exercisable at \$0.25 until February 15, 2024 (Note 4). Finally, the Company will retain a 1% net smelter return royalty on the Nicobat Property, which may be purchased by Max Power at any time for a cash payment of \$1,000,000.

As a result of the above disposal, the Company recognized a gain on option-out of exploration and evaluation asset of \$1,401,043 in the statement of profit and loss.

In February 2024, the Company entered into an amending agreement with Max Power whereby Max Power completed the acquisition of the Nicobat Property in exchange for a two year extension of the expiry date of the outstanding warrants.

11. FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to risk is on its cash. The Company holds its cash in substantial financial institutions to mitigate risk. The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company prepares general operating budget to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company uses its best efforts to ensure that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

The Company's financial liabilities consist of accounts payable and accrued liabilities, all of which are due within twelve months.

The Company's main source of funding has been through the issuance of equity securities for cash and the disposal of marketable securities. The Company's access to financing in the public markets is always uncertain. The Company is highly exposed to liquidity risk.

Price risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. A 10% fluctuation in equity prices would impact profit or loss by approximately \$102,000.

Commodity risk

Commodity price risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for gold and silver are impacted by world economic events that dictate the levels of supply and demand. The Company had no hedging contracts in place as at or during the period ended March 31, 2024.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

11. FINANCIAL RISK MANAGEMENT (continued)***Foreign exchange risk***

Foreign currency exchange rate risk is the risk that the fair value of assets and future cash flows will fluctuate as a result of changes in foreign currency exchange rates. However, the Company's functional currency is the Canadian dollar and the Company doesn't have any material assets or operations that are denominated in a foreign currency. Accordingly, the Company is not exposed to any material foreign exchange risk and has not hedged its limited exposure to currency fluctuations.

Classification of financial instruments

The Company classifies its other financial assets and other financial liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).
