1. Nature of operations and going concern

Madison Metals Inc. ("Madison Metals" or the "Company") is a company incorporated under the provisions of the British Columbia Business Corporations Act on October 11, 2019. The Company is a reporting British Columbia registered corporation. Its registered and head office is located at 82 Richmond Street East, 4th Floor, Toronto, Ontario, M5C 1P1. The Company began trading on the Canadian Stock Exchange (the "CSE") under the symbol "GREN" on May 13, 2022 and on the OTCQB Venture Market under the symbol "MMTLF" on September 29, 2022.

These unaudited condensed interim consolidated financial statements were prepared on a going concern basis of presentation, which assumes that the Company will continue operations for the foreseeable future and be able to realize the carrying value of its assets and discharge its liabilities and commitments in the normal course of business.

As at August 31, 2022, the Company had not yet achieved profitable operations and expects to incur further losses in the development of its business, all of which constitutes a material uncertainty which casts significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to raise future equity financing to fund its operations and advance the development of its business.

These unaudited condensed interim consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. These adjustments could be material. Management is actively pursuing funding options, being financing and alternative funding options, required to meet the Company's requirements on an ongoing basis. To meet the challenges of the current climate in the financial markets, the Company is minimizing its expenditures.

In March 2020, the COVID-19 outbreak was declared a global pandemic by the World Health Organization. The situation is dynamic and the ultimate duration and magnitude of the impact on the economy, capital markets and the Company's financial position cannot be reasonably estimated at this time. The Company is monitoring developments and will adapt its business plans accordingly. The actual and threatened spread of COVID-19 globally could adversely impact the Company's ability to carry out its plans and raise capital.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of October 31, 2022, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual financial statements as at and for the year ended November 30, 2021, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending November 30, 2022 could result in restatement of these unaudited condensed interim consolidated financial statements.

These unaudited condensed interim consolidated financial statements do not include the statement of income and comprehensive income as there were no activities during the nine months ended August 31, 2022.

3. Share exchange agreement

On November 17, 2021, the Company entered into a share exchange agreement (the "Share Exchange Agreement") with 2160083 Ontario Inc. ("216") to acquire all of the issued and outstanding common shares of 216 in consideration for 8,000,000 common shares in the capital of the Company (the "Consideration Shares"). 216 holds a 100% interest in Richards Lake Uranium Project located around Kenora, Ontario.

Pursuant to the terms of the Share Exchange Agreement, the Consideration Shares will be subject to escrow and released as follows:

- 25% on the date that is 4 months from the closing date;
- 25% on the date that is 12 months from the closing date;
- 25% on the date that is 18 months from the closing date; and
- 25% on the date that is 24 months from the closing date.

On December 31, 2021, the Company completed the Share Exchange Agreement.

The acquisition constitutes an asset acquisition as 216 did not meet the definition of a business, as defined in IFRS 3 - Business Combinations. As a result of this asset acquisition, an exploration and evaluation asset of \$2,029,915 has been recorded. This reflects the difference between the estimated fair value of consideration given less the fair value of the net assets acquired.

The allocation of estimated fair value of consideration given is as follows:

Fair value of net assets acquired

Cash	\$	1
Accounts payable and accrued liabilities		(201)
Loan payable		(29,715)
Exploration and evaluation assets		2,029,915
	\$	<u>2,000,000</u>

10. Financial risk management

The Company's financial assets carried at fair value consist of marketable securities. The Company has classified its marketable securities as FVTPL.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – inputs that are not based on observable market data.

The following table sets forth the Company's financial assets measured at fair value by levels within the fair value hierarchy:

August 31, 2022	Level 1	Level 2	Level 3	Total
Marketable securities	\$ 18,000	\$ -	\$ -	\$ 18,000

November 30, 2021	Level 1	Level 2	Level 3	Total
Marketable securities	\$ 39,000	\$ -	\$ -	\$ 39,000

The Company is exposed to varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes, inclusive of counterparty limits, controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company ensures, as far as reasonably possible, it will have sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. The Company believes that these sources will be sufficient to cover the likely short-term cash requirements.

Credit risk

Credit risk is the risk of a loss in a counterparty to a financial instrument that fails to meet its contractual obligations. The Company's exposure to credit risk is limited to its marketable securities. The Company limits its exposure to credit risk by holding its marketable securities in deposits with high credit quality Canadian financial institutions.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to foreign currency risk is minimal.

11. Capital management

The Company manages its capital structure and makes adjustment to it based on the funds available to the Company in order to support the operations. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital and cash.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended August 31, 2022.

12. Other transactions

On January 17, 2022, the Company entered into a binding letter of intent (the "LOI") with Giraffe Energy Investments Close Corporation and Otjiwa Mining and Prospecting Close Corporation (the "Vendors") to acquire 85% interest in 3 separate concessions named the Rossing North Uranium Project located in the Erongo Province, Namibia, Africa. For consideration to acquire the concession, the Company will pay US\$150,000 cash and issue 1,600,000 common shares of the Company to the Vendors. The transaction has not closed to the date of these financial statements.

In June 2022, the Namibian Ministry of Mines and Energy approved the transfer of EPL-7011 to Pennyworth PTY, which is majority-owned by the Company (85%), with Namibian partners holding 15%. EPL-7011 and EPL-8531, whose transfer is in progress, make up the Rossing North Uranium Project.

13. Subsequent events

On September 12, 2022, the Company entered into an agreement to acquire a 23% interest in Mining Licence 121 ("ML121") through the acquisition of 24 shares of Namibia Nuclear Corporation (Proprietary) Limited ("Namibia Nuclear") which equals a 24% ownership interest in Namibia Nuclear, by way of a share purchase agreement (the "SPA").
