1. Nature of operations and going concern

Madison Metals Inc. ("Madison Metals" or the "Company") is a company incorporated under the provisions of the British Columbia Business Corporations Act on October 11, 2019. The Company is a reporting British Columbia registered corporation. Its registered and head office is located at 82 Richmond Street East, 4th Floor, Toronto, Ontario, M5C 1P1. The Company began trading on the Canadian Stock Exchange (the "CSE") under the symbol "GREN" on May 13, 2022, on the OTCQB Venture Market under the symbol "MMTLF" on September 29, 2022, and on the Frankfurt Stock Exchange under the symbol "4EF0" on December 15, 2023.

These unaudited condensed interim consolidated financial statements were prepared on a going concern basis of presentation, which assumes that the Company will continue operations for the foreseeable future and be able to realize the carrying value of its assets and discharge its liabilities and commitments in the normal course of business.

The Company had not yet achieved profitable operations, with a current net loss of \$1,164,776 for the six months ended May 31, 2024 (2023 - net loss of \$1,131,649) and an accumulated deficit of \$11,872,892 as at May 31, 2024 (November 30, 2023 - \$10,708,116). The Company expects to incur further losses in the development of its business, all of which constitutes a material uncertainty which casts significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to raise future equity financing to fund its operations and advance the development of its business.

These unaudited condensed interim consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. These adjustments could be material. Management is actively pursuing funding options, being financing and alternative funding options, required to meet the Company's requirements on an ongoing basis. To meet the challenges of the current climate in the financial markets, the Company is minimizing its expenditures.

2. Material accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of July 19, 2024, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual financial statements as at and for the year ended November 30, 2023, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending November 30, 2024 could result in restatement of these unaudited condensed interim consolidated financial statements.

These unaudited condensed interim consolidated financial statements do not include the statement of income and comprehensive income as there were no activities during the six months ended May 31, 2024.

Kenora Uranium Project

In December 2021, the Company acquired a 100% interest in the Richards Lake Uranium Project located around Kenora, Ontario. In January 2022, the Company issued 50,000 shares (valued at \$12,500) to acquire additional claims.

On May 16, 2023, the Company signed a binding option agreement with Great Northern Energy Metals Inc. ("GNEM"), a private British Columbia-registered company. Under the terms of the agreement, GNEM will pay the Company \$50,000 on signing (received) and incur \$900,000 in exploration over three years (\$300,000 per year) to earn a 60% interest. Upon completing the earn-in, Madison will retain a 40% free-carry interest in the project.

During the year ended November 30, 2023, the Company assessed the property for impairment based on the estimated fair value less costs of disposal based on the option agreement with GNEM and recorded an impairment loss of \$1,800,658. The fair value less costs of disposal was estimated using GNEM's obligations to earn in 60% of the property, using discount rate of 16%. An increase/decrease of 5% in the discount rate result in an increase/decrease in impairment loss of approximately \$39,000/\$34,000.

In May 2024, the agreement was amended to extend the first-year expenditure commitments into the second year of the agreement.
