#### **Notes to the Condensed Interim Financial Statements**

Nine months ended September 30, 2023 and 2022

#### 1. Nature and Continuance of Operations

Temas Resources Corp. (the "Company") was incorporated pursuant to the provisions of the British Columbia Business Corporations Act on June 25, 2018, under the name "Clean Earth Chemical Corp." On August 12, 2019, the Company changed its name to Temas Resources Corp.

The Company's head office and registered office is located at 520 - 999 West Hastings Street, Vancouver, British Columbia, V6C 2W2. The Company's principal business activity is the acquisition, development and exploration of mineral properties.

On June 26, 2023, the Company consolidated its issued and outstanding common shares on the basis of 9 pre-consolidation common shares to 1 post consolidation common share. All information relating to basic and diluted loss per share, issued and outstanding common shares, and per share amounts in these financial statements have been adjusted retroactively to reflect the share consolidation

The Company has an accumulated deficit of \$10,247,976 as at September 30, 2023. The Company's continued operations are dependent upon its ability to obtain the necessary financing to complete the development of its mineral properties (note 6) and to bring them into future profitable production or realize proceeds from their dispositions. The Company has not yet determined whether its mineral properties contain reserves that are economically recoverable. All of the preceding indicates the existence of a material uncertainty that may cast substantial doubt about the Company's ability to continue as a going concern. These condensed interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying condensed interim financial statements.

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

These condensed interim financial statements were authorized by the Board of Directors on October 27, 2023.

#### **Notes to the Condensed Interim Financial Statements**

Nine months ended September 30, 2023 and 2022

The condensed interim financial statements for the nine months ended September 30, 2023 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the presentation of interim statements including IAS 34, Interim Financial Reporting.

#### **Basis of Measurement**

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified in accordance with measurement standards under IFRS. All dollar amounts presented are in Canadian dollars unless otherwise specified. These condensed interim financial statements have been prepared using IFRS principles applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they come due.

#### 3. Significant Accounting Policies

The Company's significant accounting policies can be read in Note 3 to the Company's annual audited financial statements at and for the year ended December 31, 2022.

#### 4. Loan's receivable

As at September 30, 2023, the Company had advanced \$124,541 (December 31, 2022 - \$115,418) to its associated company ORF Technologies Inc. The amount advanced is non-interest bearing, unsecured and has no set terms of repayment.

#### 5. Prepaid expenses and deposits

#### 6. Exploration and Evaluation Assets

The carrying value of the Company's mineral properties is as follows:

	Lac Brule	La Blache	DAB	Piskanja	Total
December 31, 2021	\$ 29,000 \$	5,827,721 \$	550,000 \$	179,175 \$	6,585,896
Technical services	-	-	-	127,638	127,638
Impairment provision	-	-	-	(306,813)	(306,813)
December 31, 2022	\$ 29,000 \$	5,827,721 \$	550,000 \$	- \$	6,406,721
September 30, 2023	\$ 29,000 \$	5,827,721 \$	550,000 \$	- \$	6,406,721

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as for problems arising from the frequently ambiguous conveyance history characteristic of many mineral properties. The Company has investigated the title to its exploration and evaluation assets and, to the best of its knowledge, the title is in good standing.
