1. Nature and Continuance of Operations

Hero Innovation Group Inc. (formerly Euro Asia Pay Holdings Inc.) (the "Company") was incorporated under the British Columbia Business Corporations Act on October 16, 2017. The head office and principal place of business of the Company is located at 170 – 422 Richards Street, Vancouver, British Columbia V6B 2Z4. The Company is a financial technology company. From inception to June 30, 2022, the Company has concentrated its efforts on research and development and has incurred costs related to the development of a mobile application platform.

On February 25, 2021, the Company completed its initial public offering (the "IPO") and its common shares are listed for trading on the Canadian Securities Exchange under the symbol "HRO".

These condensed interim financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to realize its assets and satisfy its liabilities in the normal course of business for the foreseeable future. The business of the Company involves a high degree of risk. The Company has not yet generated significant revenue from operations and incurred a net loss of $2,699,369 for the nine months ending June 30, 2022 and has an accumulated deficit of $11,314,875 as at June 30, 2022. Furthermore, there is no assurance that the Company will be profitable in the future. The continued operations of the Company are dependent on its ability to generate future cash flows from operations or obtain additional financing. These factors raise significant doubt as to the Company's ability to continue as a going concern. These condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption be inappropriate.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic's impact on its business, results of operations, financial position and cash flows in the future.

2. Significant Accounting Policies

These condensed interim financial statements have been prepared on the historical cost basis except for certain assets and financial instruments that are measured at their fair values, as explained in the significant accounting policies below. Historical cost is based on the fair value of the consideration given in exchange for assets.

The condensed interim financial statements were authorized for issuance on August 29, 2022 by the directors of the Company.

(Expressed in Canadian Dollars)

2. Significant Accounting Policies (continued)

(a) Statement of Compliance with International Financial Reporting Standards

These condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, and are based on the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements should be read in conjunction with the Company's financial statements for the year ended September 30, 2021 which include the Company's significant accounting policies and have been prepared in accordance with the same methods of application.

(b) Use of Estimates and Judgments

The preparation of the Company's condensed interim financial statements in accordance with IFRS requires the Company to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Areas requiring a significant degree of estimation include fair value measurements for financial instruments, useful life of equipment, and estimating the fair value of share-based payment transactions. Areas requiring a significant degree of judgement included evaluation of research and development costs for capitalization, the recoverability and measurement of deferred tax assets and liabilities, and assessment of the Company's ability to continue as a going concern.

3. Receivables

Receivables consist of the following:

	June 30, 2022	September 30, 2021
GST	**$ 28,223**	$ 16,925
Loan	**21,584**	
Other	**36,742**	9,318
	$ 86,549	$ 26,243

On October 28, 2021, the Company entered into a loan agreement with NexPay Pty Ltd. Under the agreement, the Company issued a loan of $75,584 (AUD 80,000) which is unsecured, accrues interest at a rate of 5% per annum and had a maturity date of October 28, 2022.

6. Loans Payable

On May 13, 2020, under the Canada Emergency Business Account ("CEBA") program, the Company received a $40,000 loan (the "CEBA Loan"). The CEBA Loan was made available on certain terms and conditions, and in reliance on attestations made by the Company in the loan agreement.

The CEBA Loan is an interest-free loan, available to the Company until December 31, 2020. On January 1, 2021, the CEBA Loan was converted to a 2-year, 0% interest term loan, to be repaid by December 31, 2022. If the Company repays $26,667 by December 31, 2022, a balance of $13,333 will be forgiven. If on December 31, 2022, the Company has not repaid the loan, it may exercise the option for a 3-year term extension and, accordingly, a 5% interest rate will be applied during this extension period on any balance remaining.

On February 26, 2021, the Company received an additional $20,000 loan (the "CEBA Expansion") on terms and conditions similar to the CEBA loan. If the Company repays $13,333 by December 31, 2022, a balance of $6,667 will be forgiven.

The funds from the CEBA Loan may only be used by the Company to pay non-deferrable operating expenses including, without limitation, payroll, rent, utilities, insurance, property tax and regularly scheduled debt service, and may not be used to fund any payments or expenses such as prepayment/refinancing of existing indebtedness, payments of dividends, distributions and increases in management compensation.

Upon initial receipt, the Company recorded the CEBA Loan and CEBA Expansion at fair values of $21,771 and $11,530 respectively, based on a prevailing market rate of 8%. For the nine months ended June 30, 2022, the Company recorded interest of $1,478 and $739 respectively on the CEBA Loan and CEBA Expansion.

7. Share Capital

(a) Authorized

The Company has authorized an unlimited number of common shares.

(b) Issued share capital

On January 7, 2022, the Company closed a non-brokered private placement at a price of $0.25 per unit (the "Offering") for gross proceeds of $575,282. The Company issued and sold an aggregate of 2,301,128 units to various subscribers, with each unit consisting of one common share of the Company and one share purchase warrant. Each warrant is exercisable into one common share of the Company at a price of $0.45 per share for a period of 24 months.

In connection with the Offering, the Company converted an aggregate of $754,049 in outstanding debt relating to an unsecured convertible debenture, a loan with a company related to a director of the Company, and accrued interest into 3,016,196 units on identical terms.

(Expressed in Canadian Dollars)

7. Share Capital (continued)

(Expressed in Canadian Dollars)

11. Management of Capital

The Company's capital structure consists of cash and share capital.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

In order to carry out the planned activities and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to external capital requirements.

12. Financial Instruments and Risk Management

(a) Categories of Financial Instruments and Fair Value Measurements

	June 30, 2022	September 30, 2021
Financial Assets		
Cash and cash equivalents	**$ 319,027**	$ 612,526
Receivables, excluding GST	**58,326**	9,318
Total financial assets	**$ 377,353**	$ 621,844
Financial Liabilities		
Trade payables and due to related parties	**$ 144,245**	$ 258,408
Loan and accrued interest payable	**1,169,956**	439,154
Total financial liabilities	**$ 1,314,201**	$ 697,562

The levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
Level 3 – Inputs that are not based on observable market data.

The fair value of financial instruments at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial instruments recognized at amortized cost in the condensed interim financial statements approximates their fair value due to the demand nature or short-term maturity of these instruments.

12. Financial Instruments and Risk Management (continued)

(b) Management of Financial Risks

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit Risk
Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash. The Company manages its credit risk relating to cash through the use of a major financial institution which has a high credit quality as determined by rating agencies. The Company assessed credit risk as low.

Liquidity Risk
Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered. The Company has nominal sources of revenue and has obligations to meets its administrative overheads and to settle amounts payable to its creditors. The Company has been successful in raising equity financing; however, there is no assurance that it will be able to do so in the future. The Company assesses liquidity risk as high.

Market Risk
Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity prices.

Foreign Exchange Risk
Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company is not exposed to any significant foreign exchange risk.

Interest rate risk
Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash and cash equivalents consist of cash held in bank accounts and redeemable short-term investment certificates. The Company is not exposed to significant interest rate risk.

13. Subsequent Events
