1. Nature and Continuance of Operations

Hero Innovation Group Inc. (formerly Euro Asia Pay Holdings Inc., the "Company") was incorporated under the British Columbia Business Corporations Act on October 16, 2017. The head office and principal place of business of the Company is located at 170 – 422 Richards Street, Vancouver, British Columbia V6B 2Z4. The Company is a financial technology company. From inception to December 31, 2022, the Company has concentrated its efforts on research and development and has incurred costs related to the development of a mobile application platform.

On February 25, 2021, the Company completed its initial public offering (the "IPO") and its common shares were listed for trading on the Canadian Securities Exchange under the symbol "EAP".

These condensed interim financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to realize its assets and satisfy its liabilities in the normal course of business for the foreseeable future. The business of the Company involves a high degree of risk. The Company has not yet generated significant revenue from operations and incurred a net loss of \$885,358 for the three months ending December 31, 2022 and has an accumulated deficit of \$13,191,168 as at December 31, 2022. Furthermore, there is no assurance that the Company will be profitable in the future. The continued operations of the Company are dependent on its ability to generate future cash flows from operations or obtain additional financing. These factors raise significant doubt as to the Company's ability to continue as a going concern. These condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption be inappropriate.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic's impact on its business, results of operations, financial position and cash flows in the future.

2. Significant Accounting Policies

These condensed interim financial statements have been prepared on the historical cost basis except for certain assets and financial instruments that are measured at their fair values, as explained in the significant accounting policies below. Historical cost is based on the fair value of the consideration given in exchange for assets.

The condensed interim financial statements were authorized for issuance on February 27, 2023 by the directors of the Company.

2. Significant Accounting Policies (continued)

(a) Statement of Compliance with International Financial Reporting Standards

These condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, and are based on the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements should be read in conjunction with the Company's financial statements for the year ended September 30, 2022 which include the Company's significant accounting policies and have been prepared in accordance with the same methods of application.

(b) Use of Estimates and Judgments

The preparation of the Company's condensed interim financial statements in accordance with IFRS requires the Company to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Areas requiring a significant degree of estimation include fair value measurements for financial instruments, useful life of equipment, and estimating the fair value of share-based payment transactions. Areas requiring a significant degree of judgement included evaluation of research and development costs for capitalization, the recoverability and measurement of deferred tax assets and liabilities, and assessment of the Company's ability to continue as a going concern.
