**1. Nature and Continuance of Operations**

Snowy Owl Gold Corp. (formerly 56 Acquisitions Inc.) (the “Company”) was incorporated on November 9, 2018 pursuant to the Business Corporations Act (British Columbia). On May 20, 2020, the Company changed its name from 56 Acquisitions Inc. to Snowy Owl Gold Corp. The Company is listed on the Canadian Securities Exchange (“CSE”) under the symbol “SNOW”.

These financial statements have been prepared using accounting policies in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) on the assumption that the Company will continue as a going concern and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at November 30, 2020, the Company had not yet determined whether the Company’s mineral property asset contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time.

During the first quarter of 2020, there was a global outbreak of a novel coronavirus identified as “COVID-19”. On March 11, 2020, the World Health Organization declared a global pandemic. In order to combat the spread of COVID-19, governments worldwide have enacted emergency measures including travel bans, legally enforced or self-imposed quarantine periods, social distancing and business and organization closures. These measures have caused material disruptions to businesses, governments and other organizations resulting in an economic slowdown and increased volatility in national and global equity and commodity markets.

Central banks and governments, including Canadian federal and provincial governments, have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of any interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

As at November 30, 2020, the Company had not yet achieved profitable operations, has accumulated losses of \$139,628 since inception, and expects to incur further losses in the development of its business. These factors indicate a material uncertainty that may cast substantial doubt on the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is primarily dependent upon its ability to raise financing from equity markets or borrowings and upon successful results from its mineral property exploration activities. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used, then the adjustments required to report the Company’s assets and liabilities on a liquidation basis could be material to these financial statements.

The office of the Company is located at 1100 – 1111 Melville Street, Vancouver, BC, V6E 3V6.

**2. Basis of Preparation**

a) Statement of compliance

These condensed interim financial statements, including comparatives, are unaudited and have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC").

b) Basis of presentation

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's financial statements for the year ended May 31, 2020, with the exception of the following:

- IFRS 3 *Business Combinations* ("IFRS 3"), described in note 2(c).

The preparation of interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements.

These condensed interim financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published and effective at the time of preparation.

These condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value.

c) Recent accounting pronouncements and changes to accounting policies

IFRS 3 – The definition of a business will be amended under IFRS 3. Under the amended definition, to be considered a business an acquisition must include an input and a substantive process that together significantly contribute to the ability to create outputs. The new guidance provides a framework to evaluate when an input and a substantive process are present. Under the prior definition, IFRS 3 stated that a business need not include all of the inputs or processes that the seller used in operating that business "if market participants are capable of acquiring the business and continuing to produce outputs, for example, by integrating the business with their own inputs and processes".

The reference to such integration is now deleted from IFRS 3 in the amendment and the assessment must be based on what has been acquired in its current state and condition. This amendment did not materially impact the Company's condensed interim financial statements upon adoption of this standard.

d) Approval of the condensed consolidated interim financial statements

The condensed interim financial statements of the Company for the three and six months ended November 30, 2020 were reviewed, approved and authorized for issue by the board of directors on January 28, 2021.
