## **Lancaster Resources Announces Financing**

**November 7, 2023**

**Vancouver, British Columbia - Lancaster Resources Inc. (CSE:LCR | OTCQB:LANRF | FRA:6UF0) (the "Company")** is pleased to announce that it intends to complete a non-brokered private placement for aggregate gross proceeds of up to \$800,000 (the "**Offering**"). The Offering will consist of up to 3,750,000 shares that qualify as flow-through shares for purposes of the *Income Tax Act (Canada)* at a price of \$0.08 per share. Also, as part of the Offering, the Company intends to issue up to 10,000,000 units at an issue price of \$0.05 per unit, with each unit comprised of one common share and one common share purchase warrant. Each warrant will be exercisable into one common share of the Company at an exercise price of \$0.07 per share for a period of five years.

The proceeds from the private placement will be used to support the Company's ongoing activities, as outlined in the News Release dated October 26, 2023.

Finders fees of up to 8% cash and 8% warrants may be paid to finders in connection with the Offering. All securities issued as part of the Offering will be subject to a statutory hold period of four months and one day from the issuance date.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

### **About Lancaster Resources Inc.**

Lancaster Resources (CSE:LCR | OTCQB:LANRF | FRA:6UF0) is engaged in exploring battery and critical metals to take advantage of the global shift towards decarbonization and electrification. Lancaster has rights to acquire 100% of the Alkali Flat Lithium Project, near Lordsburg, New Mexico, USA, a set of claims approximately 5,200 acres (8.1 square miles) in size that Lancaster is exploring for concentrated sub-surface lithium brine deposits. Lancaster's vision is to produce Net Zero Lithium using direct lithium extraction technology powered by solar or geothermal energy.

Lancaster also holds the rights to a 100% interest in the Trans-Taiga Lithium Property located within the James Bay lithium district of Quebec and lying on the same geological trend as significant lithium discoveries, including Patriot Metals' Corvette Property. Lancaster plans to conduct exploration activities with a holistic view of stakeholder interests. Guiding Lancaster Resources' journey is a skilled

management and technical team with collective involvement in over 15 commercial mineral discoveries and endowed with extensive experience in the creation of lithium brine targets and the exploration and development of Lithium projects across Canada, the American West, Mexico, and South America.
