About the Company

BVCI is an Ontario incorporated company and is registered as a money service business with the Financial Transaction and Reports Analysis Centre of Canada (FINTRAC). It is a provider of an innovative technology infrastructure to participants in the emerging blockchain and distributed ledger technology industry. Instrumental to BVCI's business and growth strategy is BVC Chain, a proprietary blockchain platform and distributed ledger technology, which can operate as a centralized or decentralized ledger. BVC Chain was designed to be a turnkey solution, which can be customized and implemented by organizations wishing to deploy blockchain platform based solutions, products or services. BVC Chain will also serve as the platform and infrastructure for BvcPay and CADT. BvcPay is a cloud based mobile application that is intended to have the capability to function as a Digital Currency wallet and which can facilitate point of sale and online transactions using Bitcoin, Ethereum and CADT. CADT is the native Digital Currency of the BVC Chain, and it

is intended to be a stablecoin. BVCi's CADT business division is expected to issue CADT, a cryptographic stablecoin supported on a 1:1 basis with an equivalent amount of Canadian dollar held in a custodial account. CADT is expected to support real time pricing, payment, settlement, digital asset issuance and ledger capabilities.

To allow BVCi to carry out its CADT related business, BVCi filed an application on June 17, 2021 to obtain registration as an exempt market dealer in accordance with applicable securities laws in Ontario, Alberta, and British Columbia. Such application is pending, and there is no assurance that BVCi will obtain such registration. Unless and until the Company is registered under applicable securities laws for purposes of carrying out its CADT related business, or the Company is otherwise satisfied that it can conduct such business in compliance with all applicable securities laws, it intends to have all its CADT trading occur through a dealer (via the BVC Chain) that is registered in a category of registration under applicable securities laws which permits CADT to be traded through it, which dealer arrangement is subject to finalization. Accordingly, there is no assurance BVCi will be able to pursue its proposed CADT business or any related BvcPay business that relies on CADT.
