Notes to the Condensed Interim Financial Statements

November 30, 2020

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

1. CORPORATE INFORMATION

Soldera Mining Corp. (the “Company”) is a mineral property exploration company that is planning an initial public offering (“IPO”) of its shares and intends to list on a Canadian securities exchange. On September 18, 2020, the Company received conditional approval from the Canadian Securities Exchange (“CSE”) for the listing of its common shares on the CSE and on October 6, 2020, commenced trading on the CSE under the symbol “SOLD”.

The Company has an option agreement to earn an interest in a mineral property located in the Klotz Lake Area located in Northwestern Ontario (Note 5) and has not yet determined whether this property contains reserves that are economically recoverable. The recoverability of the carrying amount from the property is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying property, the ability of the Company to obtain necessary financing to satisfy the expenditure requirements under the property option agreement and to complete the development of the property and upon future profitable production or proceeds for the sale thereof.

The Company was incorporated on December 3, 2019 in British Columbia. The head office, principal address and records office of the Company are located at 1000 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2. The Company’s registered address is located at 6th Floor, 905 West Pender Street, Vancouver, BC, V6C 1L6.

2. BASIS OF PREPARATION

(a) Statement of Compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting.

The condensed interim financial statements were authorized for issue by the Board of Directors on January 28, 2021.

(b) Basis of Measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company.

2. BASIS OF PREPARATION – (cont'd)

(c) Going Concern

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At November 30, 2020, the Company has not achieved profitable operations, has accumulated losses of \$388,025 since inception and expects to incur further losses in the development of its business. The above material uncertainties cast significant doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon successful results from its exploration and evaluation activities, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

There was a global pandemic outbreak of COVID-19. To date, there have been a large number of temporary business closures, quarantines and a general reduction in consumer activity in Canada. The outbreak has caused companies and various governmental bodies to impose travel, gathering and other public health restrictions. While these effects are expected to be temporary, the duration of the various disruptions to businesses locally and internationally and the related financial impact cannot be reasonably estimated at this time. Similarly, the Company cannot estimate whether or to what extent this outbreak and the potential financial impact may extend. At this point, the extent to which COVID-19 will or may impact the Company is uncertain and these factors are beyond the Company's control; however, it is possible that COVID-19 may have a material adverse effect on the Company's business, results of operations and financial condition.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited financial statements as at May 31, 2020.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Critical judgments in applying accounting policies

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

SOLDERA MINING CORPORATION

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS – (cont'd)

Exploration and Evaluation Asset and Impairment

The application of the Company's accounting policy for exploration and evaluation assets and impairment of the capitalized expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in profit or loss in the year the new information becomes available.

Going Concern

The assessment of the Company's ability to continue as a going concern require significant judgement. See Note 2(c).

Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

5. EXPLORATION AND EVALUATION ASSETS – (cont'd)

Klotz Lake Property – (cont'd)

Should the Company acquire 100% of the property the optionor will retain a 2% Net Smelter Returns (“NSR”) royalty. 1% of this royalty may be purchased by the Company for \$500,000.

Subsequent to November 30, 2020, the Company advanced \$110,000 to phase 1 work program on the Titan property.

Tuscarora Property

On November 3, 2020, the Company entered into an assignment agreement with Elko Sun Mining Corp (“Elko” or “Assignor”) whereby Elko and American Pacific Mining (US) Inc. are parties to an earn-in option to form joint venture agreement (the “Option Agreement”) dated July 31, 2020, which provides for the grant to the Assignor of an option (the “Option”) to acquire an 80% interest in and to 34 unpatented mining claims located Elkco County, state of Nevada comprising the Tuscarora property. The Company wishes to assume the Assignor’s rights and obligations under the Option Agreement.

Pursuant to the terms of the July 31, 2020 Option agreement, the Company has agreed to assume the following: to earn the initial 51%, the Company is required on or before January 31, 2021, make a cash payment of \$200,000, issue 2,000,000 common shares of the Company and fund exploration expenditures of \$1,350,000 in within 24 months from the date of the Option agreement. On November 4, 2020, the Company issued the 2,000,000 common shares and were fair valued at \$920,000 the date the shares were issued.

After completion of the 51%, the Company has the option to earn another 14% interest by issuing an additional 1,000,000 common shares of the Company and fund a further minimum \$3,000,000 in exploration expenditures on the property and earn the final 15% interest by completing a pre-feasibility study on the property before the end of the Option period.

In addition, the Company will also be responsible for making the payments to the Tuscarora property holders and paying the claim fees. As at November 30, 2020, the Company had paid \$21,220 in claim fees and \$5,257 in anniversary payment and was recorded in the statement of loss and comprehensive loss.

In connection with the assignment agreement the Company issued 1,000,000 common shares as finders fee. This was fair valued at \$460,000 the date the shares were issued.

6. SHARE CAPITAL

(a) Authorized

Unlimited common shares with no par value.

On October 21, 2020, the Company announced a forward stock split on the basis of 2 new for 1 old effective October 26, 2020. The forward stock split has been retroactively presented in the financial statements and all share amounts, including per share amounts, reflect the forward stock split.

8. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of resource properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain credit worthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject to. Capital of the Company comprises of cash and cash equivalents and shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments in high credit quality financial institutions with terms to maturity selected with regards to the expected timing of expenditures from continuing operations.

There were no changes to the Company's approach to capital management during the period ended November 30, 2020.

9. FINANCIAL INSTRUMENTS AND RISKS

The company is exposed through its operations to the following financial risks:

- Liquidity risk
- Market risk
- Credit risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them unless otherwise stated in the note.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections.

The Company monitors its cash flows to meet the Company's normal operating requirements on an ongoing basis and its planned capital expenditures. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. As at November 30, 2020, the Company had a working capital of \$216,075.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, investment fluctuations, and commodity and equity prices. The Company's ability to raise capital to fund mineral resource exploration is subject to risks associated with fluctuations in mineral resource prices. Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Interest rate risk

The Company is not exposed to significant interest rate risk.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

9. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)

Credit Risk

Financial instruments that potentially expose the Company to credit risk is cash and cash equivalents. To minimize the credit risk on cash the Company places the instrument with a high credit quality financial institution. The maximum exposure to loss arising from these advances is equal to their total carrying amounts.

Fair Values

The Company's financial instruments include cash and cash equivalents and accounts payable and accrued liabilities. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature. It is impractical to determine the fair value of these financial instruments with sufficient reliability due to the nature of these financial instruments, the absence of secondary market and the significant cost of obtaining external appraisals. The fair value of these financial instruments approximates their carrying value under the effective interest method.

Fair Value Hierarchy

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities; and
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
