THE ACCOMPANYING NOTES ARE AN INTEGRAL PART OF THESE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

AMMPOWER CORP. (the "Company" or "Ammpower") is a clean energy company focused on the production of green ammonia. On September 18, 2020, the Company received approval from the Canadian Securities Exchange ("CSE") for the listing of its common shares on the CSE and on October 6, 2020, commenced trading on the CSE under the symbol "SOLD" which was subsequently changed to "AMMP". The Company is also listed on the Frankfurt stock exchange under "601A" and OTC under "AMMPF".

On January 6, 2023, the Company acquired 50.05% of Progressus Clean Technologies Inc. ("Progressus"). As consideration, the Company issued 50,000,000 common shares of the Company. The Company's cracking technology and Progressus' gas separation technology serve as means to extract green hydrogen from its carrier in the context of our clean energy initiatives. The Progressus intellectual property allows us to expand our technology-based clean energy agenda.

The Company was incorporated on December 3, 2019 in British Columbia. The head office and principal address of the Company is located at 5 Hazelton Avenue, Toronto, Ontario, Canada, M5R 2E1. The Company's registered and records office is located at 2800 Park Place – 666 Burrard Street, Vancouver, BC V6C 2Z7.

2. BASIS OF PREPARATION

(a) Statement of Compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC") and in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on October 27, 2023.

(b) Basis of Measurement

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The condensed interim consolidated financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company. The functional currency of the US subsidiaries is the US dollar. The functional currency of the Irish subsidiary is the Euro.

2. BASIS OF PREPARATION – (cont'd)

(c) Going Concern

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At August 31, 2023, the Company has not achieved profitable operations, has accumulated losses of $62,701,342 since inception and expects to incur further losses in the development of its business.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including, the relations between NATO and Russian Federation regarding the situation in Ukraine, the escalation of war between Israel and Hamas in Gaza and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

The above material uncertainties cast significant doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon successful results from its production of green ammonia, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited consolidated financial statements as at May 31, 2023.

Recent accounting pronouncements and changes in accounting policies

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods are as follows:

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date. These amendments are effective for reporting periods beginning on or after January 1, 2023 and are not expected to have a material impact on the Company.

Amendments to IAS 8 – Definition of accounting estimates
IAS 8 – Accounting policies, changes in accounting estimates and errors ("IAS 8") was amended in February 2021. The IASB issued 'Definition of Accounting Estimates' to help entities distinguish between accounting policies and accounting estimates. These amendments are effective for reporting periods beginning on or after January 1, 2023 and are not expected to have a material impact on the Company.

3. SIGNIFICANT ACCOUNTING POLICIES – (cont'd)

Amendments to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies
These amendments continue the IASB's clarifications on applying the concept of materiality. These amendments help companies provide useful accounting policy disclosures, and they include: requiring companies to disclose their material accounting policies instead of their significant accounting policies; clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and do not need to be disclosed; and clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material. The IASB also amended IFRS Practice Statement 2 to include guidance and examples on applying materiality to accounting policy disclosures. These amendments are effective for reporting periods beginning on or after January 1, 2023 and are not expected to have a material impact on the Company.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Critical judgments in applying accounting policies

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Going Concern

The assessment of the Company's ability to continue as a going concern require significant judgement. See Note 2(c).

Research and development

Research costs are recognized as an expense when incurred, but development costs may be capitalized as intangible assets if certain conditions are met, as described in International Accounting Standard ("IAS") 38 Intangible Assets. Management has determined that development costs do not meet the conditions for capitalization under IAS 38, and all research and development costs have been expensed.

5. DEPOSITS

Deposits are comprised of $632,622 (May 31, 2023 - $626,663) on the purchases of various equipment intended for resale.

Whabouchi Property

On March 31, 2021, the Company completed the acquisition of all of the outstanding common shares of AmTek. As consideration, the Company issued 12,000,000 common shares of the Company fair valued at $0.95 per share and discounted using the average strike put-option model, which resulted in a present value of $8,753,000 on acquisition date. AmTek is the owner of the Whabouchi South lithium exploration property located in the James Bay/Eeyou Istche region of Quebec and is working on the development of a proprietary technology to produce green ammonia, a potential carbon-free energy source. The transaction was accounted for as an asset acquisition on the basis that AmTek does not meet the definition of a business as it had no ongoing business operations. Accordingly, the acquisition is accounted for in accordance with IFRS 2 Share-based payment whereby the Company issued shares in exchange for the net assets of AmTek. A fair value of $8,707 was allocated to the Whabouchi property as part of the purchase price allocation. The Company also issued 960,000 common shares as finders fee which was valued at $912,000.

(Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS – (cont'd)

On July 20, 2023, the Company entered into an asset purchase agreement with Consolidated Lithium Metals Inc.("Consolidated Lithium"), a company with common officers, whereby Consolidated Lithium acquires 100% of the Whabouchi Property. As consideration, Consolidated Lithium will pay $60,000 in cash (received). There is a 1% NSR of which Consolidated Lithium has the option to repurchase at any time for $250,000. During the three months ended August 31, 2023, the Company recorded a gain of sale of exploration and evaluation assets for $51,293.

8. RIGHT OF USE ASSETS AND LEASE LIABILITIES

On July 14, 2021, the Company entered into a general office lease agreement in Toronto, Ontario. The lease is for five years, with an option to renew for another 5 years, commencing on August 1, 2021, with the first payment due on October 1, 2021. The annual cost of the monthly payment is $144,000 per annum. The Company paid a deposit of $36,000 which represents first and last months' rent and a security deposit ($12,000). The Company applied the first and last month's payments against the lease liability and recorded the security deposit in prepaid expenses and deposit. In accordance with IFRS 16, the Company recognized a right-of-use asset and lease liability on the lease commencement date.

On August 2, 2021, the Company entered into an agreement to lease a facility in Michigan, USA. The lease has an 86-month term with an optional 5-year extension and the first payment commencing October 1, 2021. The annual cost of the monthly payment is US$179,304, which will increase by 3% annually. In accordance with IFRS 16, the Company recognized a right-of-use asset and lease liability on the lease commencement date.

11. LICENSE AGREEMENT

On August 10, 2022, the Company entered into an agreement with Blue Ocean Salt Corp. ("Blue Ocean") (formerly known as Clean Light Acquisition Corp), a company incorporated in BC, whereby, the Company has granted Blue Ocean licensing rights for North America, the United Kingdom and the European Union for a period of two years to use certain licensed technology bundled with Blue Ocean's products. The license will allow Blue Ocean to buy, use, sell, modify, create derivative works of, and distribute AmmPower's licensed technology only as a bundle with Blue Ocean's products. As consideration, Blue Ocean has agreed to pay US$200,000 in cash (received) and Blue Ocean will issue 5% of its issued and outstanding common shares to the Company which will be subject to escrow.

On April 4, 2023, Blue Ocean was acquired by Vortex Energy Corp. ("Vortex"). As part of the acquisition, Blue Ocean acknowledged the error in not issuing the shares to the Company and in a subsequent agreement agreed to issue 690,000 shares of Vortex between the date of the signed acknowledgment and the initial two-year licensing term. The shares will be issued with various hold periods in various tranches. 13. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of resource properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain credit worthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject to. Capital of the Company comprises of cash and shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments in high credit quality financial institutions with terms to maturity selected with regards to the expected timing of expenditures from continuing operations.

There were no changes to the Company's approach to capital management during the three months ended August 31, 2023.

14. FINANCIAL INSTRUMENTS AND RISKS

The company is exposed through its operations to the following financial risks:

- Liquidity risk
- Market risk
- Credit risk
- Interest rate risk
- Price risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, polices and processes for managing those risks or the methods used to measure them unless otherwise stated in the note.

14. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections.

The Company monitors its cash flows to meet the Company's normal operating requirements on an ongoing basis and its planned capital expenditures. All of the Company's financial liabilities except for lease liabilities (Note 8), convertible loans (Note 9) and promissory notes (Note 12) have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. As at August 31, 2023, the Company had a working deficiency of $2,700,871 (May 31, 2023 working capital deficiency– $2,308,425).

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, investment fluctuations, foreign currency, commodity and equity prices. The Company's ability to raise capital to fund its operations is subject to risks associated with fluctuations in these market factors. Management closely monitors foreign exchange, commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Interest Rate Risk

The Company pays interest on its convertible notes at a fixed rate of 10% per annum and pays interest on its promissory notes at a fixed rate of 5% and 10% per annum. The Company does not have any material variable interest rates and is not exposed to any material interest rate risk on its debt instruments.

Foreign Currency Risk

The Company may be exposed to foreign currency risk on fluctuations related to cash, accounts payable and accrued liabilities and lease liabilities that are denominated in a foreign currency. As at August 31, 2023, the Company held cash denominated in US dollars of US$13,810 (May 31, 2023 – US$42,383), accounts payable and accrued liabilities of US$1,117,945 (May 31, 2023 – US$961,183), due to relate parties of US$70,000 (May 31, 2023 – US$75,000) and lease liabilities of US$749,655 (May 31, 2023 – US$772,873) translated at US$1 for every $1.35. These factors expose the Company to foreign currency exchange rate risk, which could have a material adverse effect on the profitability of the Company. A 10% change in the exchange rate would change other comprehensive income/loss by approximately $260,000.

The Company currently does not plan to enter into foreign currency future contracts to mitigate this risk.

Credit Risk

Financial instruments that potentially expose the Company to credit risk is cash. To minimize the credit risk on cash the Company places the instrument with a high credit quality financial institution. The maximum exposure to loss arising from these advances is equal to their total carrying amounts.

14. FINANCIAL INSTRUMENTS AND RISKS – (cont'd)

Fair Values

The Company's financial instruments include cash, accounts payable and accrued liabilities, due to related parties and lease liabilities. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their nature.

Fair Value Hierarchy

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy as follows:

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities; and

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company did not have any financial instruments carried at fair value as at August 31, 2023.
