1. NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Lexston Mining Corporation (formerly Lexston Life Sciences Corp.) (the "Company") was incorporated on January 3, 2020 under the laws of the province of British Columbia. On October 16, 2023, the Company changed its name to Lexston Mining Corporation to reflect its change of business into mineral exploration and development. The address of the Company's registered and records office is 1150 – 789 West Pender Street, Vancouver, BC, V6C 1H2 and its principal place of business is 929 Mainland Street, Vancouver, BC V6B 1S3.

During the six-month period ended November 30, 2023, the Company incurred a net loss of \$250,597 (November 30, 2022 – \$719,644) and has used net cash in operating activities of \$278,623 (November 30, 2022 - \$506,640). As at November 30, 2023, the Company has an accumulated deficit of \$3,762,626 (May 31, 2023 - \$3,512,029). The Company expects to incur further losses in the development of its operations. While the Company has positive working capital, the ability of the Company to carry out its business objectives is dependent on its ability to secure continued financial support from related parties, to obtain public equity financing, or to ultimately attain profitable operations in the future. If and when the Company can attain profitability and positive cash flows is uncertain.

While the Company has been successful in securing financing in the past, there is no assurance that financing will be available in the future on terms acceptable to the Company. These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and thus be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these consolidated financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis and in accordance with International Financial Reporting Standards ("IFRS"). These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at fair value. These financial statements are presented in Canadian dollars, which is also the Company's functional currency.

Principles of Consolidation

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Egret Bioscience Ltd. ("Egret") and Zenalytic Laboratories Ltd. ("Zen").

The Company's unaudited condensed interim consolidated financial statements include the accounts of all subsidiaries subject to control by the Company. Control is achieved when the Company has the power to, directly or indirectly, govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is obtained and continue to be consolidated until the date that such control ceases. Intercompany balances, transactions, and unrealized intercompany gains and losses are eliminated upon consolidation.

(formerly Lexston Life Sciences Corp.) NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE AND SIX-MONTH PERIODS ENDED NOVEMBER 30, 2023 AND 2022 (Expressed in Canadian dollars) (UNAUDITED)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates and Judgments

The preparation of these unaudited condensed interim consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both the current and future periods.

Significant areas requiring the use of management estimates include the collectability of accounts receivable, carrying value of investment, the useful lives and carrying value of property and equipment and intangible assets, fair value of share-based compensation, and recoverability of unrecognized deferred income tax assets.

Significant judgments include the following:

- Assessment of whether the going concern assumption is appropriate which requires management to take into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period;
- Determining whether the acquisitions of Egret and Zen are a business combination or an asset acquisition. In a business combination, all identifiable assets, liabilities, and contingent liabilities acquired are recorded at their fair values. In determining the allocation of the purchase price in a business combination, including any acquisition related contingent consideration, estimates including market based and appraisal values are used. The contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in the acquisition transaction. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity;
- Judgment with respect to the assessment of fair value of investment in a private company. The fair value of common shares in a private company is determined by valuation techniques such as recent arm's length transactions, option pricing models, or other valuation techniques commonly used by market participants; and
- Costs to develop products that will be sold are capitalized to the extent that the criteria for recognition as intangible assets in IAS 38, *Intangible Assets*, are met. Those criteria require that the product is technically and economically feasible, which management assesses based on the attributes of the development project, perceived user needs, industry trends and expected future economic conditions. Management considers these factors in aggregate and applies significant judgment to determine whether the product is feasible.

Significant Accounting Policies

These unaudited condensed interim consolidated financial statements follow the same accounting policies and methods of application as the annual audited consolidated financial statements for the year ended May 31, 2023.

(formerly Lexston Life Sciences Corp.) NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE AND SIX-MONTH PERIODS ENDED NOVEMBER 30, 2023 AND 2022 (Expressed in Canadian dollars) (UNAUDITED)

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of these exposures. These risks include liquidity risk, credit risk, price risk, currency risk and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

Fair values

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's consolidated statement of financial position as at November 30, 2023 as follows:

	Fair Value Measurements Using			
	Quoted prices in Significant			
	active markets	other	Significant	
	for identical observable unobservable			
	instruments	inputs	inputs	Carrying
	(Level 1)	(Level 2)	(Level 3)	Amount
	\$	\$	\$	\$
Investment	_	1	_	1

Fair value measurements of financial instruments are required to be classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The levels of the fair value hierarchy are defined as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Inputs for assets or liabilities that are not based on observable market data.

The fair values of other financial instruments, which include cash, accounts receivable, accounts payable and accrued liabilities, and amounts due to related party approximate their carrying values due to the relatively short-term maturity of these instruments.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising debt and equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. The Company has cash of \$233,872 at November 30, 2023 (May 31, 2023 – \$510,995) in order to meet short-term liabilities of \$22,164 (May 31, 2023 – \$11,207). There is no assurance that financing will be available or, if available, that such financing will be on terms acceptable to the Company. The Company monitors its risk of shortage of funds by monitoring the maturity dates of its existing liabilities. The Company's accounts payable and amounts due to related parties are all due within one year.

Foreign exchange rate and interest rate risk

The Company is not exposed to any significant foreign exchange rate or interest rate risk.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders.

The Company depends on external financing to fund its activities. The capital structure of the Company currently consists of cash, and equity comprised of issued share capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, or sell assets to fund operations. Management reviews its capital management approach on a regular basis. The Company is not subject to externally imposed capital requirements.

5. MINERAL PROPERTIES

Dory Property

The Company entered into a mineral property option agreement dated January 18, 2023 and amended May 31, 2023. In order to exercise the option and earn a 51% interest in the Dory Property, which consists of four mineral claims located 25 km west of Port Alberni in British Columbia, the Company must, within six months from the date of acceptance by the Canadian Securities Exchange (the "Exchange") of the option agreement and the change of business of the Company:

- a) pay to the Optionor \$85,000 (outstanding); and
- b) issue to the Optionor a total of 250,000 (to be issued) common shares of the Company.

The Company will earn a further 49% interest in the Dory Property making the total interest of the Company in the Property 100% by:

- a) making a cash payment to the Optionor in the amount of \$10,000 within one year from the date of the acceptance of the Option Agreement and the change of business of the Company by the Exchange;
- b) incurring expenditures on the Dory Property in the amount of \$100,000 within one year from the date of the acceptance of the Option Agreement and the change of business of the Company by the Exchange; and
- c) issuing to the Optionor a total of 250,000 common shares of the Company within one year from the date of the acceptance of the Option Agreement and the change of business of the Company by the Exchange.

The option is subject to 2% net smelter return royalty in favour of the Optionor, 1/2 of which can be repurchased by the Company for \$1,000,000.

5. MINERAL PROPERTIES (continued)

Project 176 and Itza Properties

The Company entered into a mineral property option agreement dated November 27, 2023 with three optionors to acquire 100% interest in the uranium mineral property, with three optionors (the "**Optionors**") to acquire 100% interest

in the uranium mineral property, generally known as "Project 176" (claim 103470) and "Project Itza" (claim numbers 103463, 103478 and 103465) located in the Thelon Basin in Nunavut and occupying a total area of 5,661.93 hectares (the "**Property**").

To exercise the option and earn the 100% interest in the Property, the Company has over a period of two years to pay a total of \$400,000 and issue a total of 6,000,000 shares to the Optionors as follows:

- upon the execution of the Agreement to pay \$10,000 (advanced);
- sixty days from the date of the Agreement to pay \$90,000 and issue 1,000,000 shares;
- within one year from the date of the Agreement to pay \$100,000 and issue 2,000,000 shares; and
- within two years from the date of the Agreement to pay \$200,000 and issue 3,000,000 shares.

The Option is subject to a net smelter return royalty payable by the Company to the Optionors equal to one percent on the proceeds from production for all minerals derived from the Property. The Company may elect to purchase from the Optionors at any time one-half of the net smelter return royalty, upon the payment to the Optionors of \$1,000,000.

The Agreement provides for an investigative period of 60 days. The investigative period locks the Property for the Company for sixty days in exchange for a non-refundable payment of \$10,000 (advanced as per above upon execution). During the investigative period the Company plans to perform further investigations regarding the Property and can terminate the Agreement by providing a one day's written notice to the Optionors without making any additional payments or issuing any shares.

6. INVESTMENT

On July 7, 2021, the Company acquired 750,000 Class C non-voting common shares of Psy Integrated Health Inc. ("Psy Integrated"), a private company incorporated in the province of British Columbia, at \$0.10 per share for \$75,000, representing 13% of the total issued and outstanding shares of Psy Integrated and no voting rights, board representation, or involvement in the day-to-day nature of its operations. The Company's investment in Psy Integrated is recorded as FVTPL.

During the year ended May 31, 2023, the Company recorded an unrealized loss of \$28,999 (2022 - \$46,000) on its investment in Psy Integrated, and as at May 31, 2023, has a carrying value of \$1 (2022 - \$29,000).

8. SHARE CAPITAL

Authorized

Unlimited number of common shares, voting, without par value.

On May 27, 2022, the Company consolidated its issued and outstanding common shares on the basis of 5 old common shares to 1 new common share. Unless otherwise noted, all shares, options and warrants have been retroactively adjusted to reflect the consolidation.

Escrow Shares

Pursuant to an escrow agreement effective June 7, 2021, a total of 4,260,000 common shares of the Company were deposited into escrow for certain principal shareholders. Under the escrow agreement, 10% of the escrowed common shares were released (on the date of listing) and 15% will be released subsequently every 6 months thereafter over a period of 36 months. As of November 30, 2023, there were 1,278,000 (May 31, 2023 – 1,917,000) shares held in escrow.

8. SHARE CAPITAL (continued)

Share Issuances

Period ended November 30, 2023

(a) During the six-month period ended November 30, 2023, the Company issued 30,000 common shares as a result of 30,000 incentive stock options exercised at a price of \$0.05 for total proceeds of \$1,500 which resulted in the transfer of \$1,299 from share-based payment reserves.

Year ended May 31, 2023

(a) During the year ended May 31, 2023, the Company issued 18,562,440 units at \$0.05 per unit for proceeds of \$928,122, including 800,000 units issued to officers and directors of the Company for proceeds of \$40,000. Each unit consisted of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one common share for a period of five years at \$0.075 per share. As part of the private placement, the Company paid finders' fees of \$19,880 and issued 397,600 brokers warrants under the same terms and conditions as the warrants issued pursuant to the private placement. The value of the brokers warrants amounted to \$21,576 based on the value of the equity instruments issued. This issuance cost was recorded as reduction in share capital and an increase in reserves.

See Subsequent Event Note 12.

9. SHARE PURCHASE WARRANTS

The continuity of share purchase warrants is summarized below:

	Weighted average exercise price \$	Number of warrants
Balance, May 31, 2022	0.75	2,790,319
Issued pursuant to private placement	0.075	18,562,440
