Notes to Unaudited Interim Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

Element Nutritional Sciences Inc. (the “Company”), formerly PJ1 Capital Corp., was incorporated under the Business Corporations Act of British Columbia on June 25, 2018. Effective August 31, 2020, the Company changed its name from PJ1 Capital Corp. to Element Nutritional Sciences Inc.

The Company completed the acquisition of Element Nutrition Inc. (“Element”) through a share exchange agreement (“RTO Transaction”) whereby the Company acquired all the issued and outstanding shares of Element on August 31, 2020, with the former shareholders of Element obtaining control of the Company. On the same date, the Company completed the acquisition of Hammock Pharmaceuticals, Inc. (“Hammock”) through an agreement and plan of merger. References to PJ1 Capital Corp. prior to the RTO Transaction herein are referred to as “PJ1 Capital”.

Element was incorporated under the laws of the province of Ontario on July 11, 2014 and sells nutritional supplements in the form of powders and bars under various brands. Element has completed the development and has begun the commercialization of its flagship brand Rejuvenate.

Following the RTO Transaction, the Company is controlled by Element. Since Element controls the Company after the RTO Transaction, the transaction was accounted for as a reverse acquisition of the Company by Element for accounting purposes.

The historical figures presented in these interim condensed consolidated financial statements represents those of Element and its subsidiaries. The acquired assets and liabilities and results of operations and cash flows of PJ1 Capital and Hammock are reflected only for periods from the acquisition date on August 31, 2020.

The registered office of the Company is located at 1100 Walkers Line, Suite 401 in Burlington, Ontario.

The unaudited interim condensed consolidated financial statements have been authorized for issuance by the Board of Directors on August 30, 2021.

b) Basis of measurement

These unaudited interim condensed consolidated financial statements have been prepared on a going concern basis under the historical cost method.

Notes to Unaudited Interim Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

1. Basis of presentation (continued)

c) Basis of consolidation

The unaudited interim condensed consolidated financial statements comprise the financial statements of the Company and its wholly owned subsidiaries, Jaktrx Inc., which was incorporated on June 17, 2014 and acquired by the Company on March 2, 2018, and Element Nutrition Ltd., which was incorporated on December 3, 2018 in the state of Nevada, Element Nutrition Inc., which was acquired in an RTO on August 31, 2020 and Hammock Pharmaceuticals, Inc. which was acquired on August 31, 2020. The Company controls an entity when it has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The Company consolidates subsidiaries from the date control is obtained and ceases to consolidate a subsidiary on the date control is lost.

All intercompany balances and transactions have been eliminated upon consolidation and preparation of these unaudited interim condensed consolidated financial statements.

d) Functional and presentation currency

These unaudited interim condensed consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency. The functional currency for the Company, Element Nutrition Inc. and Jaktrx Inc. is Canadian dollars and the functional currency for Element Nutrition Ltd. and Hammock Pharmaceuticals, Inc. is U.S. dollars. Foreign currency differences are recognized in other comprehensive income (loss) in the cumulative translation account within accumulated other comprehensive income (loss).

e) Use of estimates and judgments

The preparation of the unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions about future events. These estimates and the underlying assumptions affect the reported amounts of assets and liabilities, the disclosures about contingent assets and liabilities, and the reported amounts of revenues and expenses.

The estimates and assumptions are based on management's best estimates and judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment. Management adjusts such estimates and assumptions when facts and circumstances dictate. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period relate to:

- i. Note 3 – going concern.
- ii. Estimating the Company's incremental borrowing rate in connection with measuring lease liabilities involves judgment when the interest rate implicit in a lease is not readily determinable.

ELEMENT NUTRITIONAL SCIENCES INC.

Notes to Unaudited Interim Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

1. Basis of presentation (continued)

e) Use of estimates and judgments (continued)

- iii. Determining estimates and assumptions in measuring deferred tax assets and liabilities. The determination of income tax is inherently complex and requires making certain estimates and assumptions about future events. Changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in the provision for income taxes.
- iv. Note 10 – determination of the fair value of warrants and options issued estimated at the date of grant using a Black-Scholes pricing model using key assumptions on the life of the warrants, volatility, and risk-free interest rate.

2. Significant accounting policies

These unaudited interim condensed consolidated financial statements have been prepared using the same accounting policies, significant accounting judgments and estimates, and methods of computation as the annual consolidated financial statements of the Company as at and for the year ended December 31, 2020, with the exception of the impact of certain amendments to accounting standards or new interpretations issued by the IASB which are applicable for annual periods beginning on or after January 1, 2021.

Changes in accounting standards effective January 1, 2021:

IFRS 3 - Business Combinations

In October 2018, new amendments to IFRS 3 were issued to provide clarification on the definition of a business. The amendments permit a simplified assessment to determine whether a transaction should be accounted for as a business combination or an asset acquisition. The adoption of this amendment did not have an impact on the unaudited interim condensed consolidated financial statements.

IAS 1 - Presentation of Financial Statements

In October 2018, new amendments to IAS 1 were issued to provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS standards and other publications. The adoption of this amendment did not have an impact on the unaudited interim condensed consolidated financial statements.

ELEMENT NUTRITIONAL SCIENCES INC.

Notes to Unaudited Interim Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2021 and 2020

3. Going concern

These unaudited interim condensed consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has experienced a net loss and negative cash outflows from operations for the six months ended June 30, 2021. While the Company has experienced an increase in the number of locations in which its products are sold, the Company is dependent on additional sources of liquidity to discharge its current liabilities and finance continued growth and operations. While the Company has secured additional sources of liquidity as described in note 10, the Company's ability to continue as a going concern and manage any risks associated with the response to COVID-19 pandemic is dependent upon raising additional capital and sources of liquidity. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These unaudited interim condensed consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate. If the going concern assumption was not appropriate for these interim condensed consolidated financial statements, adjustments would be necessary to the interim condensed consolidated statement of financial position and classifications used, which may be material.

On March 11, 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. This has resulted in governments worldwide, including the Canadian and Ontario governments, enacting emergency measures to combat the spread of the virus. These measures have caused material disruption to businesses globally including Canada and the United States of America resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions however the success of these interventions is not currently determinable. The current challenging economic climate may lead to adverse changes in cash flows, working capital levels and/or debt balances, which may also have a direct impact on the Company's operating results and financial position in the future.

The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and our business are not known at this time. As at the date of the interim condensed consolidated financial statements, the Company has extended its payments terms with suppliers to assist in managing cashflow.

The Company held \$587,939 in U.S. cash at June 30, 2021. The Company manages its exposure through its regular operating and financing activities. A 1% change in the exchange rate between the U.S. dollars and the Canadian Dollar would have an immaterial impact on these unaudited interim condensed consolidated financial statements.
