

NUROSENE'S CHIEF SCIENTIFIC OFFICER TO PRESENT AT WORLD ORPHAN DRUG CONGRESS USA 2022

Nurosene's Chief Scientific Officer, Dr. Joseph Geraci PhD, will present at the world's most important orphan drug and rare disease event July 11-13, 2022 in Boston.

TORONTO, June 8, 2022 /CNW/ - [Nurosene Health Inc.](#) ("Nurosene" or the "Company") (CSE: MEND) (Frankfurt: 8TV) (OTC: MNNDP), a healthtech company focused on delivering innovative AI-based technology solutions for mental performance and wellness, will present at the World Orphan Congress USA 2022 on July 11-13, 2022 in Boston, Massachusetts.

This event brings together leading pharmaceutical and biotech companies, government and regulatory authorities, patient advocacy groups, payers, investors and solution providers. The conference was designed for industry experts to meet and brainstorm ways to advance orphan drug development and improve access to life-saving therapies.

"I am honored to be speaking at such a prestigious event alongside powerful industry leaders. I will be speaking about how advanced AI techniques are now making it possible to gather valuable insights about small groups of patients that can lead to novel treatments for rare diseases." - said Dr. Joseph Geraci, Chief Scientific Officer.

Forward-Looking Statements

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation which is based upon Nurosene's current internal expectations, estimates, projections, assumptions and beliefs, and views of future events. Forward-looking information can be identified by the use of forward-looking terminology such as "expect", "likely", "may", "will", "should", "intend", "anticipate", "potential", "proposed", "estimate" and other similar words, including negative and grammatical variations thereof, or statements that certain events or conditions "may", "would" or "will" happen, or by discussions of strategy. Forward-looking information includes estimates, plans, expectations, opinions, forecasts, projections, targets, guidance, or other statements that are not statements of fact.

Any forward-looking information speaks only as of the date on which it is made, and, except as required by law, Nurosene does not undertake any obligation to update or revise any forward-looking information, whether as a result of new information, future events, or otherwise. New factors emerge from time to time, and it is not possible for Nurosene to predict all such factors. When considering these forward-looking statements, readers should keep in mind the risk factors and other cautionary statements in Nurosene's Final Long Form Prospectus dated May 20, 2021 and Management's Discussion and Analysis for the year ended September 30, 2021 ("MD&A"), and filed with the applicable Canadian securities regulatory authorities on SEDAR at www.sedar.com. The risk factors and other factors noted in Nurosene's Final Long Form Prospectus and MD&A could cause actual events or results to differ materially from those described in any forward-looking information.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
