The accompanying notes are an integral part of these condensed interim consolidated financial statements.

#### 1. Nature of Operations and Going Concern

NetraMark Holdings Inc. (formerly Nurosene Health Inc.) (the "Company") was incorporated under the *Business Corporations Act* (Ontario) on May8, 2019, under the name "2695174 Ontario Inc.". On June 19, 2020, the Company changed its name from "2695174 Ontario Inc." to "Nurosene Inc.". On March 26, 2021, the Company completed a continuance from the *Business Corporations Act* (Ontario) to the *Business Corporations Act* (British Columbia). In connection with tecontinuance, the Company changed its name to "Nurosene Health Inc.". On February 1<sup>st</sup>, 2023, the Company changed its name from "Nurosene Health Inc." to "NetraMark Holdings Inc".

The Company's head office is located at 1655 Dupont Street, Suite 101, Toronto, Ontario M6P 3T1 and its registered office is located at 500 Burrard Street, Suite 2900, Vancouver, British Columbia V6C 0A3.

#### Negative Operating Cash Flow

The Company currently has a negative operating cash flow and may continue to have a negative operating cash flow for the foreseeable future. To date, the Company has begun to generate revenues, however, it is expected that additional capital investment will be required to continue to build the revenue pipeline. The Company's ability to generate revenues and potential to become profitable will depend largely on the ability to develop and market products and services. These condensed interim consolidated financial statements have been prepared on a basis that assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. These condensed interim consolidated financial statements do not reflect any adjustments that may be necessary should the Company be unable to continue as a going concern. The Company incurred a net loss of \$2,084,568 (2021 - \$2,904,584) during the three-month ended December 31, 2022, had working capital deficiency for of \$689,111 (September 30, 2022 – \$810,312). There can be no assurance that any such events will occur or that the Company will ever become profitable.

#### Additional Financing

To date, the Company has no significant source of revenue to fund all of its operational needs and will require significant additional financing to continue its operations. There can be no assurance that such financing will be available at all or on favourable terms. Failure to obtain such additional financing could result in delay or indefinite postponement of the Company's deployment of its products. Additional financing may dilute the ownership interest of the Company's shareholders at the time of the financing and may dilute the value of their investment.

#### Uncertainty of Additional Capital

The Company anticipates expending substantial funds to carry out the development, distribution and development of its products. The Company has been successful in raising funds from the issuance of shares (note 9). Therefore, the Company's ability to obtain additional financing is enough to assume that the Company will continue as a going concern. There can be no assurances that the Company will be able to secure the necessary financing to enable it to continue as a going concern. The factors noted above indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. If the going concern basis is not appropriate, material adjustments may be necessary to the carrying amounts and/or classification of assets and liabilities.

#### 2. Basis of Presentation

# (a) Statement of compliance

These condensed interim consolidated annual financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The accounting policies set out below have been applied consistently to all periods presented.

#### (b) Basis of presentation

These condensed interim consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair value, as detailed in the Company's accounting policies.

#### (c) Functional and presentation currency

The Company's functional currency, as determined by management, is the Canadian dollar. These financial statements are presented in Canadian dollars.

#### (d) Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which formthe basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Management has applied significant estimates and assumptions related to the following:

Fair value of stock options, restricted share units and warrants

Management uses the Black-Scholes option-pricing model to calculate the fair value of stock options, and warrants. Use of this method requires management to make assumptions and estimates about the expected life of options, the risk-free rate, and the volatility of the Company's share price. In making these assumptions and estimates, management relies on historical market data.

#### **Intangible Assets**

Management regularly assesses the recoverability of intangible assets not ready for use at least annually and identifies the best methodology to reflect the fair value of these intangible assets. Management uses the replacement cost method to evaluate the fair value because the costs of these intangible assets were incurred in the past year and the cost to reperform the work is relatively stable.

#### Impairment test for goodwill and intangibles

Goodwill is assessed annually for impairment. To determine the impairment of goodwill, the management has applied discount rate to future cash flows to calculate the recoverable amounts of cash generating units.

# 2. Basis of Presentation (Continued)

(d) Use of estimates and judgements (Continued)

Determination of a Cash Generating Unit (CGU)

Management's judgement is required in determining the Company's CGUs for the impairment assessment of its goodwill and intangible assets. The CGUs have been determined considering level of operating activities and independent cash flows generated from groups of assets. Management determined the smallest identifiable group of assets that independently generates cash flows and whose cash flow is largely independent of the cash inflows from other assets or group of assets is the entire company.

Amortization of intangible assets

The management has considered an estimate and assumption of the useful life of the asset to be five years.

**Business Combinations** 

The acquisition method of accounting is used to account for the purchase of subsidiaries by the Company. The cost of the acquisition is the aggregate of the consideration transferred, measured at the acquisition date, and the amount of any non-controlling interest in the acquiree. The Company elects to measure the fair value of the purchase consideration and the identifiable intangible assets upon the business combination.

Share-Based Payments

In situations where equity instruments are issued to non-employees, shares issued are recognized at the fair value of services or goods received by the entity. In situations where some or all of the goods or services received by the entity as consideration cannot be estimated reliably, they are measured at the fair value of the equity instrument granted. The fair value of the share-based payments is recognized together with a corresponding increase in equity over a period that services are provided, or goods are received.

Going Concern

The management has assessed the Company's ability to continue as a going concern and elects to use the going concern as the basis of accounting and financial statement preparation.

#### 3. Significant Accounting Policies

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting, and do not include all of the information required for annual audited consolidated financial statements. Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed.

These condensed interim consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended September 30, 2022, which have been prepared in accordance with IFRS. These condensed interim consolidated financial statements of NetraMark were authorized for issue in accordance with a resolution of the Board of Directors on February 23, 2023.

#### 3. Significant Accounting Policies (Continued)

Standards issued and effective for the year ended September 30, 2022:

#### Conceptual Framework

The Company adopted the revised Conceptual Framework for Financial Reporting ("revised conceptual framework"). The revised conceptual framework does not constitute a substantial revision from the previously effective guidance but does provide additional guidance on topics not previously covered such as presentation and disclosure. The adoption of the revised conceptual framework did not have a material impact on the condensed interim consolidated financial statements.

#### Definition of a Business

The Company adopted the IASB amendment regarding the definition of a business under IFRS 3 Business Combinations. This amendment narrowed and clarified the definition of a business, as well as permitted a simplified assessment of whether an acquired set of activities and assets is a group of assets rather than a business. The adoption of the amendment to IFRS 3 did not have a material impact on the condensed interim consolidated financialstatements.

#### 4. Business Acquisition and Goodwill

#### (a) Acquisition of NetraMark Corp

On October 13, 2021, the Company acquired all of the issued and outstanding securities of NetraMark Corp., a privately held company, for a purchase price of CAD\$13,138,942 paid as follows to shareholders of NetraMark:

- (i) The issuance of 6,148,325 common shares of the Company for a fair value of the acquisition date of \$1.80 per share or \$11,066,985.
- (ii) \$2,071,957 in cash

The acquisition has been accounted for using the acquisition method in accordance with IFRS 3, Business Combinations on October 13, 2021, whereby the assets acquired, and the liabilities assumed were recorded at their fair values.

The excess of the consideration paid over the fair value of the identifiable assets (liabilities) acquired was recognised as goodwill which primarily provides the Company to provide solutions to the pharmaceutical industry to help address the very low rate of success in getting candidate medicines, that make it into Phase I clinical trials, through to commercialization and approval by the regulatory bodies.

The transaction cost of the acquisition was \$534,203.

From the date of acquisition to September 30, 2022, this acquisition contributed \$113,031 in revenue for the Company.

The following represents the allocation of the purchase price:

Purchase Price Allocated to:	\$
Net tangible assets (liabilities)	(159,685)
Intangible assets – NetraMark technology	3,112,436
Goodwill	10,434,314
Deferred tax liability	(248,123)
Total Consideration Paid	13,138,942

# 4. Business Acquisition and Goodwill (Continued)

#### (b) Goodwill

In accordance with the requirements of IAS 36, the CGU with goodwill was tested for impairment as at September 30, 2022. The Company calculated value in use (VIU) using a discounted cash flow method that projects future cash flows over a 5-year period. Revenue and cash flow assumptions were based on a combination of past results and expectations of future growth throughout a business cycle. These cash flows were then discounted using a weighted average cost of capital of 32%. Every 0.5% change in the discount rate will change the value in use by \$299,000. This test resulted in the goodwill impairment:

Goodwill	\$
Balance, September 30, 2021	-
Additions	10,434,314
Impairment	(4,028,953)
Balance, September 30, 2022	6,405,361
Impairment	-
Balance, December 31, 2022	6,405,361

#### 5. Other Receivables

As at December 31, 2022, the Company holds \$61,402 (September 30, 2022 – \$245,181) in other receivables comprised of GST/HST receivables.

#### 6. Short-Term Investments

On March 11, 2021, the Company purchased a \$40,000 guaranteed investment certificate ("GIC") to secure its credit cards. The terms of the GIC are for 1 year at a rate of 0.40% per annum. On August 02, 2022, the Company signed up for a GIC for \$5,000 for 1 year at a rate of 1.5% per year.

#### 7. Intangible Assets

The business acquisition of NetraMark Corp. on October 13, 2021, resulted in additions of \$3,112,436 intangible assets which were amortized using the straight line method over five years.

The intangible asset acquired consist of the proprietary technology owned by NetraMark Corp.

Intangible Assets	Capitalized Development Costs \$	Acquired Technology \$	Total \$
Opening Balance, September 2021	1,582,321	-	1,582,321
Additions	152,494	-	152,494
Additions through business combinations	-	3,112,436	3,112,436
Impairment	(1,734,815)	-	(1,734,815)
Amortization		(596,905)	(596,905)
Balance, September 30, 2022	-	2,515,531	2,515,531
Amortization		(152,622)	(152,622)
Balance, December 31, 2022	-	2,362,909	2,362,909

#### 8. Deferred Revenue

As at September 30, 2022 the Company received \$23,029 as a result of signing contracts with customers. These contracts were signed at the end of June 2022 and the total for these contracts are \$110,958.

# 9. Shareholders' Equity

#### Authorized share capital

The Company is authorized to issue an unlimited number of common shares.

#### Outstanding share capital

As at December 31, 2022, the Company's outstanding share capital is entirely composed of common shares.

		Number of	Amount

- 1) On October 13, 2021, the Company acquired NetraMark Corp (Note 4). As part of the consideration paid pursuant to the business acquisition, the Company issued 6,148,325 common shares valued at \$1.80 per share which was the closing price of the Company's stock on the day of issuance.
- 2) On October 14, 2021, the Company issued 215,311 shares valued at \$1.77 per share to consultants of the Company for services performed in relation to the NetraMark Corp acquisition (Note 4)
- 3) During the month of November 2021, 10,000 warrants were exercised at a price of \$0.90 to purchase 10,000 common shares for gross proceeds of \$9,000.

# 9. Shareholders' Equity (continued)

- 4) During the month of November 2021, 51,333 options were cashless exercised for 21,140 shares on their forfeiture at a price of \$1.55.
- 5) During the month of December 2021, 116,102 warrants were exercised at a price of \$0.90 to purchase 116,102 common shares for gross process of \$104,492.
- 6) During the month of March 2022, 7,500 warrants were exercised at a price of \$0.40 to purchase 7,500 common shares for gross proceeds of \$3,000.
- 7) On June 8, 2022, the Company issued 1,487,500 units of common shares valued at \$0.40 per unit through a private placement and 743,750 private placement warrants with an exercise price of \$0.60 per share expiring on June 8, 2024. \$102,268 was reclassified to warrants. The Company incurred \$19,915 of issue costs.
- 8) On July 29, 2022, the Company issued 84,531 common shares valued at \$0.35 per share to consultants of the Company for consulting services performed using the fair value of services. The shares were valued to the Company's share price on the day of issuance.
- 9) On August 24, 2022, the Company issued 132,666 common shares valued at \$0.44 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.
- 10) On August 31, 2022, the Company issued 211,539 common shares valued at \$0.32 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.
- 11) On September 30, 2022, the Company issued 289,877 common shares valued at \$0.25 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.
- 12) On September 16, 2022, the Company issued 25,000 common shares valued at \$3.00 for exercise of restricted shares units.
- 13) On October 13, 2022, the Company issued 2,910,000 units of common shares valued at \$0.25 per unit through a private placement and 2,910,000 private placement warrants with an exercise price of \$0.40 per share expiring on October 13, 2025. \$286,056 was reclassified to warrants. The Company incurred \$51,234 of issue costs.
- 14) On October 31, 2022, the Company issued 299,000 units of common shares valued at \$0.25 per unit through a private placement and 299,000 private placement warrants with an exercise price of \$0.40 per share expiring on October 31, 2025. \$35,158 was reclassified to warrants. The Company incurred \$5,332 of issue costs.
- 15) On October 31, 2022, the Company issued 211,960 common shares valued at \$0.34 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.
- 16) On October 31, 2022, the Company issued 1,260,000 warrants with an exercise price of \$0.35 per share expiring on October 31, 2025.

# 9. Shareholders' Equity (continued)

- 17) On October 31, the Company issued 500,000 common shares as bonus compensation at fair value of \$160,000.
- 18) On November 17, 2022, the company issued 90,000 common shares for the total compensation of \$25,200 for services, primarily composed of consulting fees.
- 19) On November 30, 2022, the Company issued 399,471 common shares valued at \$0.18 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.
- 20) On December 31, 2022, the Company issued 422,094 common shares valued at \$0.17 per share to consultants of the Company for consulting services performed. The shares were valued to the Company's share price on the day of issuance.

#### Stock options

Under the Company's stock option plan (the "Plan"), the Company's Board of Directors is authorized to grant stock options to directors, senior officers, employees, consultants, consultant company or management company employees of the Company and its subsidiaries not to exceed in the aggregate 15% of the issued and outstanding common shares of the Company from time to time. Stock options granted under the Plan are exercisable over a period not exceeding 10 years from the date granted. Exercise prices may not be less than the market price of the common shares at the time of the grant. An option shall vest in the manner imposed by the Board of Directors as a condition at the grant date.

#### 10. Sales, General and Administrative

Item	Three Months Ended		
	December 31, 2022	December 31, 2021	
	\$	\$	
Advertising and Promotion	63,965	1,022,732	
Consulting fees	668,254	400,229	
Professional fees	113,025	275,489	
Office and miscellaneous	246,452	128,613	
Payroll	221,771	368,270	
Total	1,313,467	2,195,333	

Sales, general and administrative expenses consisted primarily of consulting fees, payroll, and office expenses during the three-month ended December 31, 2022. The company issued 1,033,525 common shares and 1,260,000 share purchase warrants for a total compensation of \$503,008 for services, primarily composed of consulting fees and advertising and promotion.

#### 11. Related Party Transactions

Key management includes directors and officers of the Company.

A total of 1,033,525 common shares were issued to key management for a total compensation of \$215,728 during the three-month ended December 31, 2022 (2021: \$nil)

A total of \$164,000 in total cash compensation was issued to key management during the three-month ended December 31, 2022 (2021: \$185,494).

#### 12. Capital Management

The Company's objective in managing capital is to ensure a sufficient liquidity position to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders. The Company defines capital as net equity and debt, comprised of issued common shares, contributed surplus and accumulated deficit. The Company seeks to ensure that it has sufficient cash resources to maintain its ongoing operations and finance its research and development activities, corporate and administrative expenses, working capital and overall capital expenditures. Since inception, the Company has primarily financed its liquidity needs through offerings of common shares.

There have been no changes to the Company's objectives and what it manages as capital since inception. The Company is not subject to externally imposed capital requirements.

#### 13. Financial Instruments and Risk Management

#### Financial Instruments

The Company has classified its cash as fair value through profit and loss ("FVTPL"). Other receivables have been classified as loans and receivables. Accounts payable and accrued liabilities have been classified as other financial liabilities.

The carrying values of cash, other receivables and accounts payable and accrued liabilities approximate their fair values due to their short periods to maturity.

#### Fair Value Hierarchy

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The hierarchy is summarized as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2 – inputs that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices) from observable market data.

Level 3 – inputs for assets and liabilities not based upon observable market data.

#### Financial Risk Factors

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

#### (a) Credit risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and accounts receivable. The Company's cash is held at a major financial institution and lawyer's trust accounts. The Company's receivables are due from the CRA for HST/GST refunds. The Company regularly monitors its credit risk exposure and takes steps to mitigate the likelihood of these exposures resulting in actual loss.

# 13. Financial Instruments and Risk Management (continued)

# (b) Liquidity risk

The Company constantly monitors and manages its cash flows to assess the liquidity necessary to fund operations. All of the Company's financial liabilities are due within one year.

# 14. Subsequent Events

- On January 11, 2023, GST/HST returns were filed for a total expected refund of \$69,386.
- On January 31, 2022, the Company issued 214,949 common shares for a total compensation of \$70,934 for services, primarily composed of consulting fees.
